SEPTEMBER IS THREE-FOURTHS HIGHER

Dats Are One-Eighth Lower, Pork and Lard Decline, While Ribs Gain Two and a Half Cents.

CHICAGO, Aug. 25 .- Shorts in wheat took renewed alarm today at the continued meager receipts. After an early decline September closed 5-8@%c higher and Decomber gained 4c. Oats were 1-8c lower. Pork and lard declined 24c each. Ribs advanced 21/4c.

Lower Liverpool cables, the continued Ciberal receipts in the northwest and the weak sentiment carried over from yesterday started wheat lower. September, which elesed last night with buyers at 63 1-8c, started with sellers at from 62 7-8c at the lower figure, nor could much be dismarket soon improved and advanced to a shade above the price at the close on

posed of at the higher just then, but the market soon improved and advanced to a shade above the price at the close on Wednesday, reaching 63 1-86634c about an hour after the start.

The chief reason for the recovery from opening bearishness was one of long standing. The shorts for September delivery gave further expression to their nervousness concerning the very small quantity in sight that was available on their contracts. Chicago received 190 cars, compared with 285 the previous year, but only 15 carloads were of contract grade. The northwestern receipts numbered 497 cars, against 196 the corresponding day of the year before. Trading in September was much smaller than in December, with indications that the opening interest in September had been reduced to quite slender proportions. Shorts in September, however, continued to take the offerings on all soft spots and at times were anxious enough to pay the sellers their asking price. The general result was that September ruled strong after the first five minutes, and latterly at some improvement on yesterday's closing value. December, however, did not advance correspondingly, although it recovered 5-8c from the initial decline. A strong cash market at Duluth was an additional builled feature near the end and the best prices here were made near the close. The aggregate of receipts at western primary markets were 87,000 bu. compared with \$20,000 bu. September opened 42 5-8c lower at 61-861 7-8c. December started 43 63-8c down at 61-861 7-8c. rose to 53 7-8c and closed at 63%,063 7-8c. December started 43 63-8c down at 61-861 7-8c. The improvement of the first five and left off at 618,061 7-8c. The improvement of the first was soon and cash corn was worth a small premium over September opened 42 63-8c down at 61 1-861 3-8c, up to 61.7-8c and left off at 618,061 7-8c. The inquiry from the seaboard was good and cash corn was worth a small premium over September for shipping lots. September opened 4c 199-7-8c, dropped back to 29 5-8c and from that it railied to 30c,

*asked. stock market today gave every indication of renewed absorption on a large scale by a powerful speculative interest, which caused an additional rise in prices. The buying in the last hour followed a period of extreme duliness during which the market was left to itself. The tone of the trading in the early part of the day showed that there was a considerable outside element disposed to take profits or to stop losses if they were the unfortunate ones who bought stock at the top last week. But it was also evident that the pressure of this liquidation was not severe, and that the offerings of stock were not increased at the owlevel of prices. On the contrary there were sufficient buying orders with commission houses at a level below the market to check the decline. Some of the recent elements of weakness were also removed. For instance Manhattan showed the distress of the bears. There was also sufficient vigor in the upward movement of Sugar to give color to the rumors prevalent of Sugar to give color to the rumors prevalent of the conclusion of a working agreement with new competitors. The quarterly statement of Lake Shore was a significant exhibit of the possibilities of refunding, the large decrease in net carnings for the quarter being so far offset by the decrease in the charges that the surplus is still above last years level. The buying of New York Central was induced by this exhibit and the buoyant recovery of Burlington probably had in view the possibilities for that property in a refunding of its mortigage indebtedness. The ready response of sterling exchanges to any hardening tendency to the money market gives assurances of relief from that quarter of any money stringency. The fast increasing supply.

The special strength of the Pacing was due to the transference of speculative profits from other stocks, notably Bt. Paul, and to a conviction of the great benefits to accrue from the agreement to arbitrate the trouble with the Canadian Pacific. If loanable funds are to continue plentiful, it removes about the only clement of doubt in the general s of renewed absorption on a large scale by a powerful speculative interest, which caused an additional rise in prices. The buying in the last hour followed a period ·asked.

Foreign Financial.

LONDON, Aug. 25.—American securities were generally firm on the Stock exchange today on a general speculative demand. The closing tone was quiet bu, steady, and the demand moderate. The amount of bullion withdrawn from the Bank of England on balance today was £25,000. Gold is quoted at Buenos Ayres today at 160,50. Spanish 4s closed on the Stock exchange at 425-8, a net advance of 1-8 from yesterday's closing quotations.

PARIS, Aug. 25.—The bourse today was firm and fairly active, the market being accentuated by the approach of the settlement. International securities were in good demand, particularly Spanish 4s, in which securities the bears are in the minority. In the mining market Rio tintos was harder and there was an advance in copper. DeBeers Diamond shares fluctuated greatly during the early part of the day, closing somewhat easier. Spanish 4s closed on the bourse today at 42,724, against 41,80 yesterday. Three per cent rentes, 103f 67% for the account. Exchange on London, 25f 24c for checks.

HERLIN, Aug. 25.—The tone of the bourse today was cheerful. Internationals were stimulated by the ease in money and Foreign Financial. bourse today was cheerful. Internationals were stimulated by the ease in money and the encouraging attitude of the western bourses. There was much interest in foundry shares, owing to favorable reports from the manufacturing districts. Bank shares were maintained and settlement money was plentiful at 33% per cent.

Bank of England's Statement. Bank of England's Statement.

LONDON, Aug. 25.—The weekly statement of the Bank of England shows the following changes as compared with the previous account: Total reserve, increase £342,000; circulation, decrease £261,000; buillon, increase £86,475; other securities, decrease £875,000; public deposits, increase £38,4000; notes reserve, increase £373,000; government securities, increase £373,000; government securities, increase £31,000.

The proportion of the Bank of England's reserve to liability, which last week was 47.21, is now 48.30. The Bank of England's rate of discount remains unchanged at 2½ per cent.

Bank of France's Statement. Hank of France's Statement.

PARIS, Aug. 25.—The weekly statement of the Bank of France shows the following changes as compared with the previous account: Notes in circulation, decrease 15,800,000 francs; treasury accounts current, decrease 2,250,000 francs; gold in hand, increase 2,400,000 francs; bills discounted, decrease 10,107,000; silver in hand, increased 1,600,000 francs.
