Want to Be Mustered Out. SIOUX CITY, Sept. 7 .- (Special.) -- Sloux City being virtually the regimental headquarters of the Fifty-second Iowa and itself naving two companies of young men and several staff officers from among its citizens, is in a constant state of agitation about the future of the regiment. The latest story is to the effect that the regiment is not to be mustered out of the service at all, that the boys are to be sent home long enough to regain their health and then they will be called back into active service. It is charged by men who have sons in the regiment and whom they wish back at home to attend to their work and schools that an effort is being made by the fathers of some of the officers to have the War department refrain from mustering out the regiment. So far they have failed to show very, good grounds for the assertions, but they have reached that stage of excitement that they of influence to try to head off the supposed movement to retain the regiment for service.
