COMMERCIAL AND FINANCIAL

Wheat Market Generally Firm and Prices Close Strong and Higher.

SEPTEMBER IS UP THREE-FOURTHS HIGHER

Corn Loses an Eighth of a Cent. Provisions Are Firm, Most Commodities Advancing Several Points. and Ruling Strong.

CHICAGO, Sept. 5.-Bad reports of the Russian wheat crop and heavy export shipments for the day, together with fresh sales for export at New York, gave a strong closing today to a generally firm wheat market, and September left off 5-8w %e higher and December rose 3-8864e. Corn lost I-se; oats are up 1-se. Provisions were firm. Pork advanced 20c, lard 1712c and

Heavy northwestern receipts of wheat, a knowledge of which was in possession of the traders before the session opened, went long way toward neutralizing the firm-ess with which wheat started at Liverpool. The recent heavy and quite stendy decline and the comparatively low price to which wheat had already suns, however, apparently made friends for the grain and restrained the ardor of the bears. Chicago received 227 cars, against 256 a year ago, while the receipts at Minneapolis and Dureceived 227 cars, against 255 a year ago, while the receipts at Minneapolis and Duluth were 225 carloads, compared with 632 last year. Liverpool, notwithstanding yesterday's decline here, was 1-sd higher for September and 1-sd lower for December. Reports concerning the Russian wheat crop were quite buillish from a market point of view, as disappointing harvests were the general tenor. So far this season the movement of new wheat in Russia has been small enough to give what appears to be corroboration of the poor crop reports from that country. Wheat futures were additionally strengthened near the close by a dismatch from New York to the effect that Itussian grain exporters who had sold wheat for shipment in September to the Loited Kingdom were trying to have the contracts cancelled, presumably because of difficulty in getting the grain. It was also stated that thrity-nine boatloads had been worked for export at New York and 17,000 bu, were sold for shipment from here. The receipts at western primary markets were 1.54,000 bu, compared with 1,28,000 bu, the previous year. September opened 1-se ingher at 620, weakened to 61.7-se imvious year. September opened ther at 62c, weakened to 617-8c, oved to 625-8c and closed at 624,6823

seved to 62.5-sc and closed at 625,982.5-sc, comber started unchanged to 1-sc up at 2-sc, sold off to 625,91-sc, rose to 605,92. T-sc and closed at 695,c sellers. Speculators in corn were for the most at bearish on account of the listlessness the shipping demand. Prices were steaded somewhat by the strength of wheat d predictions of frost in Iowa tonight, the market ruled heavy, however, the emingly strong spots in it proving to be size a delusion and a snare for the bulls, as small reports, compared with those of small reports, compared with those ear ago, were ignored, and heavy ship ats from the seaboard were equally dis

a year ago, were ignored, and heavy shipments from the seaboard were equally disregarded. December started unchanged at
201-se, sold up to 301-se/304c, weakened to
207-se and closed at 30c buyers.

Dats followed wheat. There was a fair
amount of business transacted, but the
range was never wider than 4c. There
was some inquiry for eash, but bids were
just enough out of line to hinder the working of any lines. May opened unchanged to
1-se higher at 215-se/213c, declined to 214c,
then firmed up to 214c, the closing figure.
Provisions made further recovery from
the effect of Tuesday's yellow fever shakeup and ruled strong. The strength was
founded on the healthy legitimate basis of
an excellent demand for the cash article.
December pork opened 5c higher at 8-45,
advanced to 35.50, the closing price. December lard started unchanged at 21-81,
and sold up to 35,05 at the close. October
ribs began 5c up at 35.20, weakened to 35.15,
then railied to \$5.30 sellers, the closing figtire.

Estimated receipts for tomorrow: Wheat.

Estimated receipts for tomorrow: Wheat, 230 cars; corn, 250 cars; oats, 350 cars; hogs, 19,000 head. The leading futures ranged as follows:

St. Paul Occupies the Center of the Stage Through Day's Operations. who said that it would be 2's found little credence and the contigued fermiess of the stock in face of recent heavy tone of the market and the contigued fermiess of the market and the contiguent and heavy buying of the early hours of the day segmed to justify this mer dailty. There was large buying of St. Paul here for London account and there was very active trading on the London curb after the close there according to cabled reports. The price was rushed up to 115 without any attention being given to warning statements that very powerful interests in the directorate were opposed to anything more than the 2's per cent rate. The eager bulls pointed out that the recent increase in the Burlington dividend was kept enshrouded in the same mystery up to the moment of its declaration, when the stock led a violent upward movement. The showing of the company for the last liscal year was cited as confirming the connidence in an increased division disjursement, the earnings applicable to the common stock havened mentary pause at each even number to 110%, which was \$%\$ below the best. Numer-ous blocks of many thousand snares were thrown on the market with precipitate eagerness and the market speedily took eagerness and the market speedily took on panicky conditions.

Rock Island fell in sympathy 3 points, Burlington 2 points, People's Gas 2% points. Northern Pacine preferred 2% points and namerous other stocks, both in the railroad and industrial lists, between 1 and 2 points. There was a quick raily of 1 to 1% per cent in these stocks which suffered most severely, but St. Paul was kept back by apparently endless offerings about 11 and closed only 5-5 above the lowest with a very weak tone.

The demornilization caused by the break in St. Faul came on a market showing

mrket. Bonds were dull and firm for most of The Evening Post's London financial cablegram says:

The stock markets here opened flat today. Consols and most other stocks were onered, but the fall was most marked in Americans, which were freely sold in the decime in New York exchange and on the belief that learer names is at hand in New York. The decline, however, was short fived and the general smart play which has taken place all around confirms yesterday's cabled statement as to this strong undertone of the market. The recovery in Americans was accompanied by rumors that the St. Paul company will declare a \$250 dividend and a \$1 bonus. Midnly on this report and on the big arbitrage houses picking up stock prices closed firm. A sharp drop in Portuguese securities on the Delagoa Bay report, which is still believed in many quarters, and the upward movement in Kaffirs were again features.

The following are the closing quotations of the leading stocks on the New York market today:

SHEEP-Fresh arrivals of sheep were small today, but there were some holdovers that arrived rather late yesterday, so that the market was not entirely bare food mutton sheep were in very fair demand and the market was without change of material importance, so far as values were concerned. There is a steady demand for mutton sheep and lambs, which on many days is far in excess of the supply, and it is only occasionally that enough arrive to satisfy the requirements of the market. rive to satisfy the requirements of the market.

Feeder sheep and lambs continue in active demand and arrivels of such meet with ready rale. Today there were a few on sale and they changed hands very early, showing the active demand. Prices continue firm in the face of the light supply and good demand.

Choice mative muttons are selling largely at \$4.2594.00; good grass westerns, \$4.5594.00; good grass westerns, \$4.5594.00; good to choice lambs, \$5.1597 6.25; fair to good, \$2.38974.10; good year-liurs, \$4.2594.00; good to choice lambs, \$5.1597 6.25; fair to good lambs, \$5.26975.10; feeder wethers, 2-year-olds and over, \$3.75974.00; feeder yearlings, \$1.0944.25, and feeder lambs at \$4.2594.75. Representative sales; No.
