

SHOE ON THE OTHER FOOT

Why the Popocrats Have Dropped Some Issues They Raised.

PECULATIONS OF THEIR OWN PARTISANS

Shortages of County Officials and Manipulations and False Statements of State Officials of the Alleged Party of Reform.

LINCOLN, Oct. 11.—(Special.)—The state officials are traveling over the state on presses bragging about their immaculate records and asking for votes in every town...

To show that the claim of "holier than thou" made by the sham reformers rests on a sham foundation, it is only necessary to print a partial list of the popocratic county treasurers who have been short at the ends of their terms in the last eight years.

Table with 2 columns: County, Popocrat Shortage. Lists counties like Stanton, Platte, Custer, Greeley, Thayer, Sherman, Sheridan, Hall, Keith, Keith, Harlan, Hamilton, Gosport and their respective shortages.

Each Minor Pilfering.

This is only a partial list, but many of them are aggravated cases, and the indications are that the pilfering officials stole all they could. In Platte county the treasurer was a banker, related to Senator Allen...

In Gosper and Hamilton counties the courthouses were burned by incendiary means and the amounts mentioned as the shortages of the treasurers are small in proportion to the real losses.

SET DATE FOR MOVING DAY

Stars and Stripes to be Raised Over City of Havana December 1.

SPANISH RULE CEASES ON THAT DATE

October 15 Fixed as the Time for Porto Rico—Formal Notice Served on the Spanish Authorities at Havana by the Commission.

WASHINGTON, Oct. 11.—The American commissioners have notified the Spanish authorities in Havana that the United States will assume entire control, military and governmental, of the island of Cuba December 1. The same control will be exercised in Porto Rico, October 15.

MADRID, Oct. 11.—The Spanish government announces its intention to maintain a strong force of troops in Cuba until the treaty of peace with the United States is definitely signed. Immediately after the peace is signed, the Cortes will be convened and measures dealing with the reorganization of all the state departments will be submitted to parliament.

The commissioners, acting upon these instructions, have notified the Spaniards that all ports and customs receipts and the management of municipal affairs will pass into the hands of the American military commander in the island. This action was not intended to work hardship on the Spaniards or government, but it was thought best to fix a definite time to end Spanish rule and to begin operations under the United States.

It is probable that United States troops will go to Cuba before that time. Before December 1 it is expected to have troops so stationed that there will be no need of Spanish troops to preserve order. The proclamations that have been issued by the president establishing custom rates and defining the manner in which Cuban territory should be governed until it becomes apparent that new regulations are needed.

On October 15 Major General Brooke will assume absolute control of the island of Porto Rico. It is possible that all the Spanish troops will not have left Porto Rico at that time; if so they will be quartered in barracks until they can be taken away. In the language of Secretary Alger, the United States will be the host and the Spaniards the guests after October 15. The United States will not ship the remaining troops to Spain at its own expense. That was no part of the protocol. The custom houses, the money received for customs and the government of the island will pass completely from Spanish control on the date set. The president's custom regulations under proclamation of the president will prevail.

DEATH RECORD.

Funeral of C. F. Beindorf. A large number of sorrowing friends, old reacquaintances and county officials attended the funeral yesterday afternoon of the late Charles F. Beindorf, who died Sunday evening after an illness of only a day.

Mr. Beindorf died at the age of 55 in the moon of life. He had really been ill for a year but was not taken down until Saturday afternoon in the German village at the exposition, of which he was the concessionaire. He leaves a widow and three small children, one of the children being only a baby. His father and mother, Mr. and Mrs. Charles Beindorf, his brother, Otto; his sister, Mrs. Oliver P. Burnett, and his father-in-law and mother-in-law, Mr. and Mrs. Robert W. Baker, are all among the mourners.

The pall-bearers were Alfred Millard, H. D. Reed, George Scribner, Frank Collette, F. B. Johnson and H. E. Palmer. The deceased was born in this city and when the Sons of Omaha organized he became one of the charter members. He was the vice-president of this organization in 1891. As the architect of the city hall and the Omaha club his name had become a household word among builders. He was the superintendent of construction of the postoffice for the first year or two. He was also the architect of the Horticulture building at the exposition. A number of the structures of the state and several school houses have been built after his plans. In politics he was a republican and took a very active part in the campaign of 1896, acting as chairman of the city central republican committee. He was a graduate of Massachusetts Institute of Technology in Boston.

WHEAT CARGOES FOR EUROPE

Export Demand Attracts Speculators and Prices Go Up. NEW YORK, Oct. 11.—The recent enormous export demand for wheat continued

on a heavy scale today and began to attract the attention of speculators generally. Today there was a sharp advance in the price, December, reaching 73-1/2 in the afternoon, which is the highest figure attained on the present bull movement. The bears, who have been persistently fighting advancing tendencies, were compelled to get under cover and new purchases for investment account were among the day's features. Probably not less than 125 loads of wheat were bought today for export, making 245 loads thus far this week, or about 1,800,000 bushels. For the past three weeks Europe has been buying wheat in this country at the rate of about 3,500,000 bushels per week, to say nothing of the large demand for flour, corn, oats and rye. Last week the actual clearances of wheat and flour from the country were 3,397,000 bushels, or about half a million bushels in excess of last year. Since July 10 total shipments are only 9,000,000 bushels behind last year and at the present rate are fast catching up. Even France has been a buyer, taking all offerings from St. Louis today at 14 cents advance and asking for more. In addition to this northwestern millers are unable to get wheat with which to keep up their orders, as the grain is nearly all wanted for export. Besides the demand for wheat today, Europe took about 500 loads of corn, 225,000 bushels of oats and 160,000 bushels of rye.
