General rains were also reported in the winter wheat belt of this country. World's ship-ments showed a marked falling off from last week, the total being placed at 7,35,000 bushels. The sharp opening advance pro-voked a lot of realizing and under this the market eased off to 57%, where it held for some time. About 11 o'clock the market weakened on the enormous increase in stocks at Buffalo, which caused a complete overturning of the calculations as to the visible supply. As a result of this, visible increase was placed at 3,821,000 bushels, a smail decrease having been looked for. A break of 1-8c to 57% occurred in conse-quence; but before noon the market had again turned strong and remained so for the balance of the session. Toward the close the market was helped by the excel-lent local cash business, sales of 250,000 bushels, all rall shipment, being reported. A good deal of the early realization and short selling was caused by the heavy northwest receipts were 241 cars, twenty-soven of contract grade. The seaboard re-ported shipments of thirty-eight loads. Ru-mors that the visible figures were incorrect also helped inte in the session. May ral-led to 57% 07 7-8c and closed at 57% 07 5-8c. The weather was the principal influence in corn. That market, though not very ac-tive, ruled firm and higher all day. Com-mission houses were good buyers; the sell-ing was mainly by scalpers and against calls. The strength of wheat and firm ca-bes helped. Receipts were 490 cars. May ranged 1-8c higher at 25 3-8c. May ranged from 35 1-8c to 35 3-8635/2c and closed ½c higher at 25 3-8c. May ranged from 25% 2785 to 25 7-8c and closed ½c higher at 25 3-8c. higher on good kinds than the close of last week, some would say more than that. It was, however, one of those unstable markets apt to prevail during the holiday season, for, while the early cattle sold at very satisfactory prices, it was extremely difficult to get anyone out to look at some good cattle that came in late. One bunch of good, well fattened Iowa cattle sold at \$5.35, and some warmed-up steers went at \$4.45.

 ROOSEVELT'S ALBANY HOME.
 It is Now Being Renovated for the Governor and His Family.
 Superintendent of Public Buildings Easton began his work on the executive mansion at Albany last Wednesday, after Mrs. Black had entertained Mrs. Roosevelt. Every room in the big dwelling, reports the Wer york Herald, has been stripped of its car pels, hangings, bric-a-brac and furniture and it will be arranged as the Roosevelt. No. A In the butler's quarters all the china and glassware belonging to the state are kept. There are now on hand more than a dozen sets of china and the size of each set can be imagined when it is stated that it contains 300 dinner plates, forty-eight large and forty-eight small soup plates, and there are in the glassware closet a dozen sets of fifty each of champagne, punch, apollinaris and water glasses. Colonel Roosevelt could entertain a regiment of Rough Riders with ease. In the dining room are two safes, one large and one small, in which the state's

silver is kept. The large safe had to be purchased when Mr. Morton became governor, as he brought a large amount of silver belonging to himself to the mansion.

Nothing definite is known yet as to Mrs. Roosevelt's plans for entertaining. Judging by the examples set by Mrs. Morton and other predecesors, there will be a New Year's day reception and then one or two between that date and the beginning of

between that date and the presence of 62. the governor is, of course, a necessity. In addition, Mrs. Roosevelt will have her "at home" day once a week. Lively times in 51. the fashionable world of Albany are expected during the winter and for the first 65 time in many years the voices of little chil- 72 ... dren will be heard in the big mansion and about the grounds.
