INVESTIGATION IS NOW PROVIDED FOR

Task of Looking Into Charges of Incompetency of Official is Delegated to a Committee.

At last night's council meeting City Attorney Connell recommended that the council investigate the charges of incomptency made against Police Judge Gordon by the Board of Fire and Police Commissioners, this investigation being preliminary to action before the district court for the removal of the police judge if the charges are considered well grounded. This report was referred to the general committee of the council for consideration.

In his opinion on the matter, which had been asked for by the council, City Attorney Connell said. "Under the law, special reference being had to section 103 the charter, the police judge can be removed only by the district court upon proper charges and specifications being made by the mayor and any three councilmen, and upon such charges and specifica-tions being filed with the clerk of the dis-trict court, alleging and showing that the officer charged is guilty of malfeasance or misfeasance or that he is incompetent or neglects any of his duties or that for any other good and sufficient cause stated he and it would be impossible to convict them should be removed from his office, the judge of being common gamblers. George Long. of said court issues the required writ to who was arrested at the time the others show cause, after which the party charged were brought in, was held to answer to the is given a hearing on the charges and specis given a hearing on the charges and specaffications so filed. For the purpose of determining whether any proceedings of this nature should be taken in the district court. I think, as already suggested, that it is proper that the matter should be first considered by the committee on judiciary."

Council as a Committee. Chairman Mercer of the judiciary committee at once objected to the matter being referred to his committee. "This committee has on its hands all the investigation i wants, as three of the members are to be investigated on various and divers charges, he said, referring to the Rosewater accusations. "I think this ought to go to the com-

mittee on fire, water and police." "The committee on fire, water and police has as much investigation as the judiciar committee," returned Chairman Burmester of the committee on fire, water and police. The dispute was finally compromised by re ferring the matter to the whole council as a general committee.

The remainder of the council meeting was rather featureless, as the members were anxious to clear away all business in time to take the train for Kansas City. An adjournment was therefore taken within an hour after the body was called to order,

The council formally adopted a resolution deducting from the bills of Joe Danbaum for feeding city prisoners the sum of \$10 for each of the months of November, December, January and February as rent for the kitchen in the city jail and for the gas and water consumed by him. A similar deduction will continue to be made monthly as long as Danbaum continues to use these quarters in

the jail. Mayor Moores in a communication eulogized the late Francis E. Bailey, who was at one time a member of the city council. The communication was ordered inscribed in full on the journal of the council by a

Settles Belt Line Tax Matter.

under the direction of the council he has adfusted the long-standing controversy between the Omaha Belt railway and the city regarding taxes levied on some lots claimed by the road as right-of-way and therefore being a double assessment. The city assessed the entire lots without regard of the right-of-way, while the state also assessed the right of way. According to the settlement made by the tax commissioner, the taxes on the right-of-way, amounting to \$1,722.50, are cancelled, while the taxes on by County Judge Baxter. They are Wallam the remainder of the lots, amounting to B. Univin of Avery and Miss Cora T. Ray York, he did not believe that "any man in \$707.13, together with special taxes of \$900 of Arnold. Judge Baxter had to write down his right senses counts upon a national or more, will be paid by the road. The report was adopted.

By resolution of Stuht the city engineer was instructed to draw up an ordinance declaring the necessity of appropriating the land necessary to open and extend Fourth street from its present southern terminus through Sauter's place to Riverview park and thence eastward to the B. & M. right-of-way and thence west along the B. & M. right-of way along the park. This road will offer a more direct thoroughfare to Gibson.

A resolution directing the Board of Public Works to repair the bridge on Thirty-seventh and Ohio streets was referred. The same action was taken on a resolution ordering the board to remove at an expense of \$300 a quantity of dirt that now obstructs Yates street between Twenty-enghth and Twenty-ninth.

A resolution instructing the mayor to lease to the City Garbage company a part of Leavenworth street, east of Sixth, which street is unopened, for a period of five years at a yearly rental of \$50, was referred. The garbage company proposes to erect a stable The various contracts for stationery sup-

plies, which were awarded by the Advisory board a couple of weeks ago, were formally

EXPANSION DISCUSSED

Both Sides of the Problem Presented to the Commercial Club.

MAHONEY EXPOSES MANY FALLACIES

Federal Constitution Stands in the Way if Eventual Statehood is Intended as the Destiny of the Philippines.

pretty well exposed by T. J. Mahoney in his W. W. Keysor and himself were down on the program for responses to the query, "What Shall We Do with the Islands?" Mr. Mahoney gave a clear and a forcible answer. Euclid Martin acted as tonstmaster and when the sigars were passed he complimented the club on its apparent increase of

and his subject was "The Annexation of South Omaha." While favoring consolidation, he was opposed to annexing South Omaha without first obtaining its consent. A change in the present law was needed, he thought, and he hoped the legislature would make it possible for South Omaha to voluntarily unite its destinies with those of this city.

E. H. Sprague spoke felicitously upon Our Present Prosperity and Future Pros-Plenty of nerve is the main thing needed, he believed, illustrating this idea with an amusing reminiscence of his own when an actor, broke once in Cincinnati. Sovereign Commander Joseph C. Root of the Woodmen of the World was present and at John Steel's suggestion he was called upon. He had a good word for consolidation, based upon his own experiences with Clinton and Lyons, Ia., where he formerly lived. Alluding to the order he represents he said it now annually passes through the banks of Omaha \$1,250,000. His speech was Mrs. Kittle Starr, South Omaha...... 36 full of local pride and he reminded his listeners that Omaha has the name of gen-

Then the main topic of the evening was taken up, Rev. Hubert C. Herring being the first to discuss it. Viewing it largely from a moral and sentimental point of view, Mr. Herring favored the annexation of the Philippine islands. Prophecy is not always a gift of statesmanship, he observed, and he was reminded of a remark recently of President McKinley, to-wit: "A nation cannot fashion the program of a war when it starts out on one." Lord Melbourne had said on one occasion that upon a certain great problem all the sensible people had one set of ideas and all the fools another set. Events proved that the sensible people were wrong and the fools right. Consequently the law of expediency determines the law of right Taking into consideration these two propositions, that the field of prophecy is closed and the question of expediency involves national integrity, he believed a proper solution of the problem could be reached. Continuing, he said substantially:

"We must not be a baby nation. We must not be satisfied with being a republic such as Switzerland is. It is not 'what is profitable?" or 'what is agreeable?" but 'what is A permit to erect a \$4,500 two-story frame | right.' Since the war with Spain the procession of events seems to have been controlled by the finger which directs the also all space devoted to live exhibits in any mit to build a one-story frame at 2441 planets. In the brief period of one year this building. Live exhibits are defined as those rempleton avenue, to cost \$1,000. task which it must bravely face. In the calculated to attract popular interest. All given by disposition of Cuba.'

The speaker opposed the turning of the islands over to any other power. The whole question passes from that of the immediate sions or privileges either in exhibit builddisposition of the islands to the broader one ings or outside. of this nation's position in world politics great controversy which is shaking the weekly newspaper in the western country. his right senses counts upon a national mission of knight errantry with colonial aggrandizement for its end in view," Uphold- him for distribution at Washington. ing what seemed to him to be the humaniafter thus elucidating his position he dewards of this country."

Keysor Believes in Destiny.

He was followed by Judge Keysor, who Workmen are engaged in transferring a said be was a believer in destiny and who pile of matched lumber from the sidewalk in referred to the Maine disaster at Havana and the destruction of the Spanish fleet by Dewey at Manila as demonstrating that the voice of God had called this country to a higher destiny and making a turning point in the national career. With Mr. Herring he did not believe this country should be content to be the sort of a republic Switzerland is, nor should it be longer circumscribed by the Monroe doctrine of merely fares are treated. The flushing will sweep scribed by the Monroe doctrine of merely much of the debris upon the streets into protecting the weaker republics of this continent. The great question, though, is not 'what shall we do with the islands?" but what will the islands do with us?" The way he looked at it he did not apprehend that they would have the effect of starting this nation out upon a career of greedy or vainglorious conquest, nor would the country be held up as recreant to its love of political freedom by abandoning the islands at this critical stage

"We did not take the islands as aggressors or tyrants," he declared! "and we will not leave them as sneaks and cowards." He anticipated that the great sociological contests of the future would be waged upon Asiatic soil where millions are awakening and argued that this country should do its part of the world development. For this reason he advocated holding onto the islands, saying it does not necessarily follow that, while the Filipinos were being blest with the benefits of free institutions, they would be admitted to citizenship or representation in congress on the same level as the people of this country. He denied that there are constitutional difficulties in the way, but admitted that the Filipinos have not demonstrated their fitness for selfgovernment. Aguinaldo came in for some

severe criticism in this connection. Mahoney Turns the Tide.

Mr. Mahoney turned the tide altogether the other way. With a gentle rap at Mr. Herring he said he would not repudiate prophecy and then proceed to prophesy, but he would devote himself entirely to the constitutional considerations involved. Said Mr. Mahoney, in substance:

"Better amend the constitution than go on in violation of it. A preliminary step in answering the question. 'What shall we do with the islands?' is 'What can we do with them?' It is a situation and not a theory that confronts the nation. We are in the position of the man who had caught the bear and was crying for help. The decisions of the supreme court of the United States in its interpretation of the federal the admission of new states." Much of the history of the country was

gone over to show that the supreme court has never agreed with the contention of Daniel Webster and others that the constiution does not extend to territories acguired from a foreign power. On this point Mr. Mahoney said:

"Every decision has been that the con ditution does extend to such territory. Under the circumstances the condition of a territory so acquired, during the time con- have never asked space in a newspaper, gress is making rules for its government, is this occasion I do so and trust that I may be condition preparatory to statebood. A foreign and a domestic question are involved. There is more sentiment than argument in he advocacy of imperialism, but we owe a duty to ourselves and we are not amenable to the world. We can either hold the is-The illogicality of "Imperialism" was with a view to ultimate statehood or we with ut excuse and only tends to show his capacity has capacity held them permanently without viocapgot hold them permanently without viospeech against expansion at the regular lating our constitution. Shall we admit the monthly dinner of the Commercial club last | Philippines to the union of states? If not, evening. Rev. Hubert C. Herring, Judge we cannot hold them permanently; and as no individual can repudiate the laws of society, so no nation can violate the great compact which makes it a nation. If we hold the Philippines it must be with a view to permanent statehood, and such would take in an undesirable people and make them eligible to citizenship and to a seat membership and the enlarged scope of its in the senate or the White House. We must influence. More than 100 guests sat at the take them entirely or leave them entirely. A people will never learn to govern them-Gilbert M. Hitchcock was the first speaker selves by being governed by others."

Lessons from England.

He drew some lessons from England's position in India, Spain's conquest of Mexco and England's attitude toward the Boers | know nothing about the merits of the in Africa. "I have misread what history I have read," he observed, "if I have yet earned of a strong nation taking possession of a weak one that did not justify its action with the hypocritical cant that it was doing so for the good of the governed. Whenever the libertles of a people are taken from them it has always been done under the pretense that it was for their own good. Lincoln said, 'The man has never born good enough to own another been man.' May it not be that the nation has not been born good enough to own another nation? The cession of Louisiana, the acquisition of territory from Mexico, the purhase of Florida from Spain and of Alaska from Russia all provided for the benefits of statehood to be conferred. In the case of the Filipinos we realize that they are not only undesirable for citizenship, but we have even excluded the Asiatica from habitation in this country."

Closing, Mr. Mahoney said the way he would answer the question would be to have the Filipinos put in a way of governing themselves and then leave them to their destiny. He scouted the idea of commercial or strategic advantage. A great burst of applause followed.

FREE SPACE FOR EXHIBITS

Exposition Committee Decides Upon the Rates to Be Charged in the Several Buildings. The task of organizing an exhibit of man-

ufacturing enterprise of unprecedented proportions will now be pushed by the management of the Greater America Exposition At the meeting of the executive committee Tuesday I. N. Simpson, the western representative of "Iron and Steel," was appointed temporary superintendent of this department and he will begin operations at once. controversy in regard to its meaning. HEALTHY MATERNITY.

Two Grateful Women Tell of the Help They Have Received From Mrs. Pinkham.

The climax of life force in woman is capable motherhood. The first requisite for a good mother is good health. Health of body means health of the generative organs

Read what Mrs. G. A. NONNAMAKER, Bluffton, Ohio, says about Lydia E. Pinkham's Vegetable Compound, and how well t prepared her for maternity: DEAR MRS. PINKHAM:-I must say a word n praise of your Vegetable Compound. I

used three bottles of it when I was pregnant, and labor was not nearly as long as it was with my other babies; and my baby is so healthy to what the others were. I think every woman should use your Compound when pregnant, it will save them so much suffering and misery. I cannot say enough in praise of it. If ever I need medicine again, I shall use your Compound." The most successful tonic known to

ternity is Lydia E. Pinkham's Vegetable Compound. It is a safeguard for every woman who uses it, and the fullest benefit comes from its use with Mrs. Pinkham's advice freely offered to all woman. Her address is Lynn, Mass. Here is a convincing statement,

bearing directly on this subject, from Mrs. E. BISHOP, of 1848 Pacific St., Brooklyn, N. Y.:

"DEAB MRS. PINKHAM:-I am a great believer in your Compound. I was almost despairing of ever again being well, as I was a great sufferer, and had been for years. I suffered from womb trouble, and had terrible blind fits. After writing to you I tried your Compound. The result was astonishing. I have used it and advocated it ever since. In childbirth it is a perfect boon. I have often said that I should like to have its merits thrown on the sky with a search-light, so that all women would read and be convinced that there is a remedy for their sufferings."

funds for plano reutal. An interesting program has been prepared for the occasion.

The regular annual election of the South Omaha Hospital association was held yes-terday afternoon with the following result: Mrs. J. B. Watkins, president; Mrs. John M. Tanner, first vice president; Mrs. A. W. Jones, second vice president; Mrs. W. S. E. M. Friedman of Salt Lake City is here visiting his nephew, Sol Goldstrom. Babcock, secretary; Mrs. George Parks, treasurer. The association now has several hundred dollars in its treasury and is in prosperous condition financially. after a severe lliness lasting several weeks. Building Inspector Dunscombe has pre-Miss Mable Rich has returned from Sloux

pared a report showing the buildings in the city which he deems dangerous in case of fire. The inspector asserts that the buildings referred to have but one means of exit in case of fire and for this reason he deems them unsafe. He recommends that the existing ordinances be so changed as to make it compulsory on all owners of build-ings over two stories in height to provide suitable fire escapes.

Before the discovery of One Minute Cough Edward Speed of the South Omaha National bank has returned from a business coughing congregations. No excuse for it trip to the Black Hills country. Mr. Speed now.
