BALTIMORE, April 18,-The two teams today showed an absolute reversal of form from the game of yesterday. The Giants were keyed up to the top notch, while the Orioles appeared to be overtrained and nervous. With the score 4 to 0 against them a shutout was predicted when the home team went to the bat in the eighth inning. Three singles in succession rattled Carrick and he forced two runners across the plate with bases on balls. Two two-baggers and a sacrifice netted Baltimore eight runs and gave them the third straight victory over

NEW YORK, April 18.—The Brooklyns and Bostons wound up their series at Brooklyn today with a slugging match. Hanlon's men winning il to 7. Hughes and Klobeoanz were both ineffective. The latter showed lack of knowledge of the new balk rule and was twice worked for extra bases, once in the third when the break contributed to Brooklyn's six runs. Tenney was fined \$5 for kicking. The visitors had three men on the bases in the ninth, but were blanked. The two teams left tonight for Boston, where they will open tomorrow. Attendance, 6,089. Score: BROOKLYN. BOSTON.

TRIPP GIVEN INSTRUCTIONS American Member of Samoan Commission is Prepared for Daties

of His Position. WASHINGTON, April 18 .- Bartlett Tripp, the United States representative on the Samean commission, called at the State department today and was closet with Secreretary Hay for half an hour. He also conferred for some time with Third Assistant Secretary Gridler, who has been practically in charge of the Samoan negotiations, and then accompanied the secretary to the White House, where he was introduced to Prestdent McKinley before the cabinet meeting began. The department is adding the finishing touches to the written instructions which will be supplied Mr. Tripp, but in addition to these he will be made fully acquainted with the private views of the president and Secretary Hay respecting the

proposed work of the commission. The three commissioners have been left to deal with the selection of a secretary for the commission bu, it is possible that it will be decided that there is no occasion for an officer of this grade and that all the clerical needs of the commission will be met by the individual private secretaries, who will accompany the respective commission-It is understood that Dr. Self, now in San Francisco, will accompany the commission as secretary to the German commissioner, Baron Sternberg.

high commission at lunch at his residence at 1:30 today. It was the first time the members of the commission had come together, and while the gathering was quite informal and social, mainly for the purpose of getting acquainted, yet it afforded an opportunity for discussing the Samoan topic in its general phases. He is anxious to have Mrs. Tripp accompany him to Samoa, and this may take him home before he reaches San Francisco. Baron Sternberg leaves tomorrow afternoon, The several members stated positively to day that except for the informal gathering

at Secretary Hay's house there would be no meeting and no effort to enter into the merits of the Samoan question, the intention being to leave everything open until Samoa is reached. The members are making plans to be gone about four months. They will return together to Washington and their respective reports, as well as their joint conclusion, will be framed here sometime in the early autumn. The instructions to the commissioners

have been completed. They are alike in all essential respects. They were summed up today by one of the high commissioners substantially as follows:

The commission is given complete au-

as a first requisite. It is provided that the duties of all officials heretofore exercising authority in Samoa either in the treaty of Berlin or in the service of either of the governments, shall be suspended in order that the high commission shall have com-plete authority over the affairs of the isi-

port upon a variety of things, including the recent collisions and the causes leading up to them; also as to the administration of the islands, the rights of the several claimants to the kingship, and also as to what changes are desirable in the methods provided by the treaty of Berlin. The instructions call for unanimity in all action by the commission. The action taken by the commission when unanimous is to be conclusive without referendum, except when it suspends a provision of the treaty of Berlin In that case also a provision of the treaty of Berlin may be suspended by unanimous agreement of the members, but the suspension is ad referendum and is not binding until the three governments approve or disapprove it. The instructions are broad enough to include the recent troubles, so St. Louis Court of Appeals Declares it eral government of Samoa will be adjusted.

The accident at the N street crossing has Stock Yards company officials held a meeting at which plans for a viaduct were discussed. For various reasons the project was shelved for the time, the statement being given out that nothing would be done about the matter for several months. The plans, which have virtually been adopted by the railroads interested, call for a structure to cost about \$48,000. It is the Intention to erect a viaduct strong chough to carry street cars in case the motor company desires to extend its line to the Exchange building. So much switching is going on in the

yards at the present time that the crossing is dangerous. A flagman is stationed at each side of the tracks to flag teams, but little attention is paid to pedestrians. One ailroad man said yesterday that a dozen flagmen could not handle the crossing morning and evening when the employes of the different packing houses were going to and coming from work. Some action might possibly be taken by the city council which would hasten the erection of a foot bridge r viaduct, and this question may be conidered at a future meeting of the body. As low planned the proposed viaduct will start from a point directly in front of the Exbange building, and will have its eastern erminus in the middle of O street at the atersection with Twenty-sixth street. Since became known that the viaduct would land on O street, property on this thoroughfare has all been gobbled up by speculators. Paving of M Street.

A petition was prepared yesterday by City Clerk Carpenter for the paying of M street from the west line of Twenty-fourth street. August Papez, who owns 117 feet front, was the first signer, and he now has the petition in charge. It is expected that there will be little difficulty in securing the necessary three-fourths frontage which must first be obtained before the city council can create a paving district. A copy of the petiion is to be sent to the authorities at Washington for the purpose of securing the signature of the secretary of the treasury as the government will have to pay its proportion of the special tax. Vitrified brick is the material desired by those who have agreed to sign the petition.

Repairs on L Street Vinduct. Work on the L street viaduct repairs is progressing nicely, although there is some little delay on account of the non-arrival of a carload of piles. These piles are of white cedar and are coming from Michigan. A half dozen men continue to lay new hard wood planking, and this will be continued served four years, but was not a candidate | until all but 300 feet of the west approach is replanked. No Strike in Sight.

Business men and residents generally are greatly pleased at the statements made yesmer. The fact that the local labor unions have voted not to inaugurate a strike appears to be appreciated by the business men. Whisperings of a strike have been heard for several months, but no definite com-plaints were made. It was stated not long ago that on May 1 the packing house employes would lay down their tools and walk out, but the situation appears to have been changed, and if the statements furnished the press are true the men will remain at their posts and settle any differences which may arise by arbitration.

Microscopists Given a Rest. The entire force of government microscopists, numbering about thirty young women has been laid off until further orders. Don C. Ayer, chief of the Bureau of Animal Industry, received an order to this effect yesterday. It is understood that the falling of in export orders is responsible for the order Just when work in this department will be gin again is not known, but certainly no until the export business improves. If any of the packers receives an order for export meats a force sufficient to handle the order will be put to work temporarily. N reduction in the working force of the othe

It is understood that a petition containing the necessary signa tures has been prepared, and will be presented to the city council at its next meet ing. The grade will then have to be established and an ordinance creating a grading district passed by the council. Quite a number of residents in that section of the city are interested in the project and the matter will be pushed as rapidly as possible.

The Weekly Wasp appeared yesterday considerably enlarged. The public schools will close on June ! for the summer. Mrs. A. J. Caughey, wife of Editor Caughey, is quite sick. Mrs. W. S. Babcock is still confined to

RAIDING AN OPIUM JOINT Keeper of the Place and a Victim

Are Arrested and Taken to the City Jail. "All the onlym that you can smoke at a sitting, for six bits," is the offer held out by A. Kennedy to patrons of the "Hop" joint, of which he is proprietor. But it is only the old-timers, the oplum "flends, who confer their patronage at these rates.

Beginners and those who are not yet trope-

less slaves to the habits purchase enough

to suffice them for two bits, and to this class belong most of Kennedy's customers. This is the information given to the dectives by E. Smith, who was arrested last night in an opium den at 1107 Davenport street after a struggle as flerce as the best efforts of a man reduced by the baneful effects of the opiate to a mere skeleton could make it.

The smoker fought to prevent the officers from disturbing his dreams and taking his pipe away-not to resist arrest-and for the first few minutes he fought like a demon, as under the influence of the drug he had the peculiar strength of a maniac, but the detectives soon overpowered him and dragged him outside into the open air, where he regained his normal state and offered no further resistance.

The opium den is on the second floor and is reached by a flight of broken, board stairs. There is a peculiar rap known to the patrons which will secure immediate admittance, but Detectives Drummy and Mitchell, who were searching for a colored woman suspected of theft, observed no

formalities and broke in the door. They found Smith stretched out on a divan devoting all his energies to puffing a long, black, mahogany pipe with its silver bowl of opium, while Kennedy was preparing a similar pipe for himself. The proprietor was cunning enough to try to hide employer the law could not get anything which are represented to show fairly well the evidences of his guilt and threw his in point of breeding. It appears that the pipe behind a curtain, but Smith's greed for the drug prompted him to cling to the pipe and it was only after a hard struggle that he could be made to relax his grasp

At the jail Kennedy, who is colored, was from time immemorial. He considered it prices. Montana tried that experiment just locked up on the charge of keeping an opium joint. Smith was charged with being an inmate. Smith, it is said, a few years ago was a talented musican, but the opium has destroyed his health mentally and physically.

Another opium outfit was found in the possession of Sadie Richmond, a colored woman living at 1112 Davenport street, and street to the east line of Twenty-fifth she was lodged in jail on a charge similar to Smith's.

> A Good Cough Medicine. It is difficult for the average newspaper reader to distinguish between the good and the bad cough medicines. A fair trial, how-ever, will convince any one that Cham-berlain's Cough Remedy is perfectly reliable and that it is pleasant and safe to take. Those who use it always speak well of it and often recommend it to their friends. If

you have a troublesome cough, give it a trial and you are certain to get relief. Arrested for Gambling. When Detectives Jorgensen and Dempsey and Officer Giseke entered the doors of the Little Casino cigar store last night the at-

draw-poker, craps and dice.
The officers' entrance was not noticed at first, not until their voices were heard conveying the information that the crowd was under arrest. Then the games broke up. and locked up. Four were held on the charge of gambling. They gave fictitious names. The proprietor of the store, Sig. Cahn, was charged with keeping a gambling house and two others were held as inmates of such a place. Later in the evening Cahn and a companion were released on bonds of \$200 and \$100 respectively. The store raided was 167 South Fifteenth.
