BARTLEY CASE BOBS UP AGAIN

Motion to Dissolve Injunction.

INSISTS INJUNCTION IS NOT SUSTAINED

Facts in the Case, He Alleges, Do Not Support Move by Bondsmen-Contention Raised Not New.

district court here today in support of his the concern. motion to dissolve the injunction obtained further prosecution of the case against them on the bond until after the tate first prose-Omaha National bank on its depository bond for \$201,884 of Bartley's shortage.

In the affidavit filed the attorney general insists that the injunction is not sustained by the facts in the case. He says a number of the allegations in the petition for a permanent injunction are untrue, especially wherein it is alleged that the principles and the sureties on the depository bond ever agreed to indomnify the suretics of Bartley on his individual bond from loss, damage or liability by reason of the conversion, diversion or loss by embezzlement of the deposits in the Omaha National bank. He also denies that the petition tells the truth when it says Bartley's bond was never approved by the governor. Mr. Smyth further avers that neither the governor nor himself has ever claimed, nor did they ever claim, that the Omaha National bank is or any part of the money embezzled by Bartley. Neither is it true, he adds, that plead, nor are they wholly remediless, except by the interposition of a court of equity, to sue at law and get justice in that way. In fact, says Mr. Smyth, there is not enough truth in the allegations contained in the function by the court.

The contention raised in this suit, the attorney general explains, is by no means a new one. Bartley's bondsmen raised it and argued on the point before Judge Dickinson during the trial in Omaha of the suit when it was at first brought. Judge Dickinson has held against the contention in a written decision which the attorney general says he will submit to Judge Frost, before whom the injunction suit is to be tried in the district court here. same question was argued at length in the briefs filed by the bondsmen when the supreme court passed on the case and the supreme court decided the case generally in his favor as rather indicating what its stand in the matter was.

Adjutant General Barry of the National Guard today issued orders providing for an election to be held by the members of Company B at Wilber, at which time a captain will be elected to fill the place of Charles L. Talmadge, whose commission as captain of the company was withheld by the governor on the recommendation of Judge Advocate Neville, after an investigation of the charges against him. Talmadge failed to appear at the time set for the hearing of his case, and after hearing some of the testimony Judge Neville decided to sustain the charges and order the confirmation of his election and his commission withheld. This was done, leaving Company B without a captain. Adjutant General Barry will preside at the election, which will be held May 15.

Hit-or-Miss Program on the Grounds Across the River on Sunday.

The Dupont Gun club held its opening shoot of the season on the grounds across

the river on Sunday. On account of the threatening aspect of the weather the turnout was not as good as it would otherwise have been, but a satisfactory crowd was nevertheless on hand. The day was spent with a hit-or-miss program, events being put on the card as demanded by the shooters. The high score in the club shoot. If out of 20 targets, was made by "Sandy," who thereby carried off a special prize consisting of a shell case. "Jones" and "Grant" tied for second place and on a ten-bird shoot-off the former won out with a straight score against nine smashed by his opponent.

score against nine smashed by his opponint. The two received a ciraning rod and 100 shells respectively as special prizes. The score of the club event was as follows: Townsend ... Sandy

Electricity Cures.

Most of the fearful ailments of life can e traced to a derangement of the nervous system, generally originating in diseases of the genital organs. Every sufferer vants a cure that will effect a cure in the easiest, quickest and least public manner; therefore, I do not enter upon a lengthy sion and longwinded treation as to the cause of your trouble, resorted to by quacks, who only

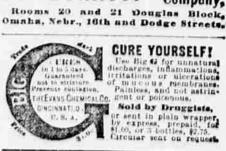

do so to confound and frighten you. You are probably well aware of the cause of your present weakness. Drugs and the ortreatment will not cure younot cure youprobably you are
aware of this
fact, to your sofrow. Electricity
will speedily,
safely and surely
cure you sound
and well again,
and I will guarantee it, if you
will apply this
important element of life
through the

Dr. Bennett's Electric Belt.

Electricity is the Nerve and Vital Force of every man and woman, and without it you could not live a moment. When there is a lack of this Electricity or Nerve Force in the system you can never be well and strong again until it is again supplied. Nature will not supply it, for Nature has been imposed upon and refuses to act. I will forfeit \$1,000 if my Electric Belt does not generate a genuine current of Electricity that you can immediately feel—is four times stronger than any other belt on earth.

Has soft, silken, chamois-covered sponge electrodes, that cannot burn and bister, as do the bare metal electrodes used on all other makes of beits. I guarantee my Belt to cure Seminal Impotency, Lost Manhood, Spermatorrhoea, Varicocele and General Debility, restore Shrunken and Undeveloped Parts, cure Rhesumatism in any form, Kidney, Liver and Bladder Troubles, Constipation, Dyspepsia, all Female Combining, etc.
