## LATE LETHARGY IN CEREALS UNBROKEN

### Provisions Recover Slightly from Last Week's Depression and Show Material Advances in Small Reccipts-Lard and Ribs Dull.

OHICAGO, May 8.-The practical embargo on shipping business as a result of the grain shovelers' strike at Buffalo weakened the grain markets today. Favorable seeding conditions stimulated the seiling movement. Wheat closed % The lower, corn % and oats %c. Pork lost 10, lard 714c and ribs 21406c. Bullish state crop reports and a belief among traders that the government report would show a sharp decline in the condition started wheat firm. Trade was dull however, and the market turned weak under heavy realizing. Favorable weather and the blockade at Buffalo accelerated the decline. July opened unchanged at 724472%c advanced to 725c, declined to 712571%c and closed with buyers at 124c. Receipts were comparatively light. Chicago received 32 cars i of which graded contract. Minneapolis and Duluth got 319 cars, compared with 508 a year ago. The aggregate at western primary markets was 50,000 bu., against 625,000 bu, last year. World's Shipments to Europe were 8,820,000 bu, and wheat on ocean passage showed an increase of 2,112,000 bu, for the week. The visible supply decreased 675,000 bu, compared with 735,000 bu. decrease last year. Cash demand poor.

Prospects of an immense acreage and the tieup in lake navigation at Buffalo weakened corn. The visible decreased 3,765,000 bu. Receipts, 225 cars. July opened a shade lower at 32549373%c and declined to 33c at the close. the blockade at Buffalo accelerated the de-

Wool Market.

LONDON, May S.—The wool auction sales were continued today with a large number of buyers present. Competition was very active, with the continental buyers operating freely in superfine merino greasy wools, which realized 20 to 25 per cent above the March series. These goods also met with a strong demand from all directions. The German representatives were more prominent today, their operations showing a marked increase. Crossbreds were hardening and received a strong home trade support. The offerings numbered 14,217 bales and included a fine show of superfine merino greasy. The daily withdrawals averaged only about 125 bales. The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated:

to open and packers first bids were in many cases lower. It was very apparent, however, that packers wanted the cattle and when the trade was once under way it was fairly active at steady prices, the close being strong. Everything was sold and weighed up in good season. As usual the light cattle were the most sought after. Cows and helfers were in good demand and the offerings changed hands at just about the same prices as last week. As was noted several times last week the cow market has not shown any material change in noted several times last week the cow market has not shown any material change in some time. Bulls, stags, etc., sold in just about the same notches as last week.

Stock cattle were scarce and in good demand, so that the few here brought good strong prices. Some good light yearlings that had not been on feed and were pretty well bred, brought \$5.10. It is safe to say that the stocker market is as high as it has been any time this season. Representative sales:

Attempted to Cure Gangrene by the Laying On of Hands-Victim Likely to Die.

NEW YORK, May 8.-President Michael C. Murphy of the Board of Health ordered the arrest today of Mrs. Maria Miller, a faith cure healer, who is accused of being responsible for the critical condition in which Lillie Kranz, a 12-year-old child, now is, as a result of gangrene in the foot. The child was first attended by a physician, who said the affected member would have to be amputated. The parents refused to consent to this and called in Mrs. Miller, who, it is alleged, said she could cure the child by laying on of hands. The patient grew rapidly worse under this treatment and a physician was again called in. He ordered the child to a hospital, where the left leg was amputated, but the case had gone too far and it is feared death will ensue. A coroner's inquest into the death of Mrs. Charlotte Bargot, who died of dropsy in Mount Vernon after treatment by a Chris-

DALLAS, Tex., May 8 .- A report from Benjamin, Knox county, says a storm with rain approaching a waterspout swept over the country about thirty miles west of that place and that the family of George Humphreys, composed of four per-

sons was decorned by the sudden exectless of a branch of the Brazos river. Other disasters are believed to have happened in the Panhandle, but the section is almost with-

not wire communication.

SHEEP—Recipts today were very light and consisted of two loads consigned direct to a packer and six loads of lambs. The market did not show much change, values being about the same as at the close of last week. Owing to the fact that arrivals at all market points consist largely of lambs, the feeling on that kind of stuff is, if anything, a little week On the other hand receipts of sheeep are light and the feeling strong. There were no sheep here today to make a test of the market, but it is safe to say that had there been any they would have brought good strong prices and would have met with ready sale.

There was one carload of clipped Angora goats which brought \$2.25.
