TIGERS WIN IN FIELD SPORTS

CHALLENGE BY ENGLISH ATHLETES. Oxford and Cambridge Anxious to

This is the regular Oxford and Cambridge and may not get out for several days.

This is the regular Oxford and Cambridge program, with a half-mile run substituted for putting the weight, to the new rules of which event the English university men are not yet accustomed. The challenge rigidly insists that every American opponent must. like themselves, be absolutely a student and absolutely an amatur athlete.

From communications already exchanged between the representatives of Oxford and Cambridge and parties in America, there is little doubt that the challenge will be accepted. The meeting will, be a great attraction at the close of the London season, more especially if the presence of the prince of Wales. Unted States Ambassador Choate and Lord Rosebery is secured, as is already stated to be the case.

The university members who have the matter chiefly at beart, including members of both teams, are anxious for the match. They feel that the proposal sent to the Linited States is a very sportsmanlike offer and they are confident it will be welcome.

The Englishmen point out that so far as the Americans are concerned, they know their own strength and the strength of their rivals, as revealed by the Oxford and Cambridge sports in March, but that they the challengers are ignorant of what their opponents may have succeeded in accompilishing in intercollegint sports. This, they say, bodes nothing but good, and a most genuine match, with the most genuine desire that the best side will win.
