OFFICE OF THE WEATHER BUREAU, OMAHA, June 24.—Omaha record of temperature and precipitation compared with the corresponding day of the last three years:

yards yesterday afternoon for the purpose of considering the matter of organizing a country club and either purchasing or

leasing Seymour park and lake. W. S. King was chosen chairman and J. a well known fisherman who was assisting King stated the object of the meeting briefly n the search, brought the body to the top and a general discussion followed. It was to lease the lake and grounds to South about ten feet deep. The body was taken to Omaha parties at a nominal rental or would suitable terms, with the privilege of fishing and boating.

The idea is to form a corporation and lease about 100 acres of land adjoining the lake shore, where some cottages or tents could be erected by those who were elected to membership A blue print of the lake and grounds was

exhibited for the purpose of explaining points which came up for discussion. The scheme met with favor from those present and it was the sense of the meeting that a committee be appointed to formulate some proposition and present it to Dr. Miller and also ascertain Dr. Miller's views in the matter. The idea of purchasing the land was not seriously considered and it is more than likely that the committee, composed of W. B. Cheek, John Flynn, H. E. Tagg, J. B. Watkins and W. S. King, will confine its proposition to the leasing of a strip of land abutting on the lake. In case the plans in mind go through, a club house will be erected and members will be permitted to lease from the corporation one or more lots for the erection of cottages. The fishing at this lake is first-class and a bathing beach could be constructed without a great deal of expense. As the lake is only a few miles from South Omaha the idea is being taken hold of with considerable enthusiasm. Another meeting will be held next Eriday afternoon at the exchange.

Officer Jodelt Assaulted.

Officer Jodelt is laid up on account of in-juries received in the discharge of his duties and it will likely be some time before he will be able to resume his beat. The trouble in which Jodeit was injured oc-ourred in the vicinity of the L street viaduct at an early hour Saturday morning, Those arrested for having a hand in the assault are Harry Hulsman, Jack Broderick, Ed Donney, Frank Corcoran, William Burke. These men are being held on a charge with assault with intent to do great bodily injury.

According to the information of the police this gang started a rumpus at Terry's saloon near the Kirby house and caused such a disturbance that it became neces-sary to put out the lights and send for the police. Three officers responded to the call, but found that the gang had scattered. Jodeit, who had been patrolling a beat in the Fourth ward, was on his way to police headquarters when he met the gang on the viaduct. He was assaulted without delay, one of the gang knocking him down with a piece of paving stone. Jodelt attempted to draw his revolver, but was knocked down four times in rapid succession, each blow drawing blood. The assault was brutal and uncalled for, as the officer had not attempted to place any of the gang under arrest, not knowing that they were wanted. Word of the assault was telephoned to the headquarters and several men were sent over. By hard work the entire gang was trouble commenced, as the gang destroyed some of the interior finishings, besides tearing out the electric lights. An additional charge of malicious destruction o property will be lodged against them.

New Postoffice Roster.

Yesterday Postmaster Etter received authority to make three changes in the clerks' been rated as a stamper, will hereafter be known as general delivery clerk, the increase in salary being \$100 per annum. P. J. Quinn, distributor, is to remain in the same position, but his compensation is increased from \$600 to \$700 per year. Miss Myrtle Keefer, the stamp clerk, is designated in the new orders as registry clerk with an increase in pay from \$500 to \$600 a year. The communication authorizing these changes closes by stating that no further changes or increases in the clerical force of the office will be allowed during

the fiscal year. This order is quite a disappointment to Postmaster Etter, who had hoped for at least one more letter carrier in addition to the horse route which will be put on July 1. Another carrier to help out in the residence district and another clerk are badly needed, but from the tone of the letter the present force will not be increased any aside from the additional mounted carrier

appointed some time ago. These changes in the roster practically leaves the office without a stamp clerk, owing to the appointing of Miss Keefer as registry clerk. It's necessary to compare the quality of the material, the trimmings, the workmanship, the style, the fitting.

You'd hardly think it! the fact is, that there is a good deal more on the inside, than on the outside of a coat.

It is customary before ordering garments to feel of the cloth in a knowing way-in order to judge of its quality. That's all right! Some clothes are better in texture than others-in finish-in wearing quality and durability of dyes.

But the cost of that cloth—however good—is less than the cost of labor and linings. It is in what is called the Tailoring-that the real quality of a garment lies; the sewing of the seams; the stays; the pocket points; the shaping; the finishing.

These are the points that add cost, and give quality to properly made garments-and they are the particulars of which the average buyer knows least.

If you understood all these matters as well as it is our business to know them-you would appreciate more fully, why garments made by Nicoll The Tailor are far superior to the ordinary made-to-order garments.
