FOR A FEW MOMENTS WHEAT IS STRONG

Corn Experiences a Little Firmness Notwithstanding Some Irregularity, and Oats in About Same Condition-Provisions Dull.

CHICAGO, June 20 .- The shadow of the coming holidays was heavy on the wheat market today and kept prices within a narrow range. The close was at a shade improvement over yesterday. Corn closed 1479 higher for September, but unchanged for July. Oats closed unchanged for September, but 14214c lower for July. Pro

visions advanced 25/95c.
Wheat started with a degree of steadiness that was somewhat surprising in view of the half deserted condition of the pit. Liverpool followed closely the decline of the local market yesterday and both local and northwest receipts were liberal to a degree that under ordinary conditions would have caused weakness. But shorts showed a disposition to get out of the market over the coming holidays and buying by that class of traders sustained the market at first. September opened a shade over yesterday's closing price at 74%2744c. This price changed very little for about half an hour, when substantial support was given the changed very little for about half an hour, when substantial support was given the market by Snow's crop report on the condition of spring wheat. This was unfavorable, putting the condition at under 90 percent and reporting a good deal of damage from rust and excessive rams, especially in Nebraska. As spring wheat prosperity had been one of the leading planks in the platform of wheat bears for some time past news of this kind caused a noticeable increase in the buying demand and the only time during the session caused the market to assume some degree of activity. The price quickly responded to the demand, September advancing to 74½c and holding close to that price as long as the buying lasted, which, however, was not very long. Before noon the market had taken on the dullness always shown prior to holidays and from that time until the close trading was narrow and fluctuations small. Considerable weakness developed also on the continued heavy primary receipts, the total being placed at 677,000 bushels, compared with 108,-000 bushels a year ago. Minneapolis and Duluth receipts were 502 cars, against 669 last week and fifty-two a year ago. Chicago received 123 cars, fourteen of contract grade. Atlantic port clearances of wheat and flour amounted to but 70,000 bushels. The seaboard reported fifty-one loads taken for export today. September sold as low as 734,473%c at one time, but at the close had rallied to 74½a74¼c and showed some steadiness at that figure.

railied to 74%2714%c and showed some steadiness at that figure.

Corn was fairly active and irregular. There was continued liquidation in July, which kept the price of that option down, while September was advancing slightly. Snow's report made the condition of corn S6. Receipts were liberal, 399 cars. There was a good cash inquiry here and at the seaboard. September ranged from 33%c to 34%c and closed 4%%c higher at 34%c. July closed unchanged at 33%c.

Oats was moderately active and irregular, weak for July, but steady for the distant futures. Receipts were 26 cars. Crop advices were rather more favorable. September ranged from 21%221%c to 21%c and closed unchanged at 21%c. July oats closed 4%%c lower at 21%221%c. July oats closed 4%%c lower at 21%221%c.

Provisions were almost at a standstill. Some strength was shown at the opening on the steady hog market and on a general

the steady hog market and on a general lemand from packers, presumably covering, demand from packers, presumanly covering.
This demand kept up throughout the session. At the close September pork was 5c higher at \$8.45. September lard 2½c higher at \$6.20 and September ribs a shade higher at \$4.57½@4.90.
Estimated receipts for Saturday: Wheat, 125 cars; corn, 1,030 cars; oats, 325 cars; hogs, 18.000 head.

Activity of the Rate for Call Loans

Activity of the Rate for Call Loans
Proves an Interesting Feature.

NEW YORK, June 30.—There was a remarkable demonstration of the underlying strength of standard railroad stocks today in spite of the happenings which the bears have been relying upon to put down prices before the triple holiday. The squeeze in the money market proved more severe than for many months, the rate for call loans jumping at one time to 12 per cent. Loans made today carry over until next Wednesday and the shifting inclident to the heavy demands on the eve of semi-annual disbursement caused a very active bidding for money. There was besides the natural hesitation on the part of most operators to making large commitments on the eve of the holiday and the general tendency to cose up the accounts. This kept the market very dull throughout the early part of the day and prices were disposed to sag. The opening was indeed a fraction below last night for most of the railroads and a liquidating movement in Sugar and the City Traction stocks pulled the railroads back again after they had first started up again. But during the second hour of trading a very determined and confident demand sprang up for St. Paul and New York Central after the latter stock, which was dealt in ex-dividend, had fallen off ½ below last night's leve.

This demand grew and spread through the leading trunk lines, the grangers, the Pacifics and one or two of the southwesterns.

Five Millions in Peanuts.

NEW YORK, June 30.-The American Edible Nut company, to control the peanut trade, is about to be incorporated in New Jersey. The capital stock, it is stated, will be \$5,000,000. The charter of the combination will permit it to handle nuts other than peanuts and the product of nuts grown in this and other countries. The company will control, it is stated, the entire peanut mar-ket of the world. Peanuts have been advancing for some months, from natural causes, there being an active demand and scant supply. When the company begins operations the nuts, it is believed, are likely to advance still further.

Insurance Companies Ousted.

JEFFERSON CITY, Mo., June 30.—The Missouri suppreme court, en banc, today awarded a writ of ouster on the information of Attorney General Crow against seventy-three foreign fire insurance companies doing business in St. Joseph, Mo., for violation of the state anti-trust law act of 1895. Under this decision the seventy-three companies cannot continue doing business in the state.

LIVER ILLS.

DR. RADWAY & CO., New York:

Dear Sirs—I have been sick for nearly two years and have been doctoring with some of the most expert doctors of the United States. I have been bathing and drinking hot water at the Hot Springs, Ark., but it seemed everything failed to do me good. After I saw your advertisement I thought I would try your pills, and have nearly used two boxes; been taking two at bedtime and one after breakfast, and they have done me more good than anything else I have ever used. My frouble has been with the liver. My skin and eyes were all yellow; I had sleepy drowsy feelings; felt like a drunken man; pain right above the naval, like as if it was bile on top of the stomach. My bowels were costive. My mouth and tongue sore most of the time. Appetite fair, but food would not digest, but settle heavy on my stomach, and some few mouthfuls of food come up again. I could only eat light food that digests easily. Please send 'Book of Advice.' Respectfully.
