Play in Chess Tournament. LONDON, June 30.—The chess experts met at noon today to contest in the tweaty-third round of the international chess masters' tournament, for which the pairing had been arranged according to the Berger system, as follows: Cohn against Show-alter; Bird against Janowski; Tinsley against Pillsbury; Tschigorin against Maroczy; Blackburne against Steinitz; Schlechter against Lee; Mason and Lasker had byes. Schlechter against Lee; Mason and Lasker had byes. When an adjournment was taken at 4:30 o'clock the situation was as follows: Cohn and Showalter adjourned their game in an even position, Janowski had beaten Bird, Pillsbury beat Tinsley, Tschigorin had a bad game against Maroczy, Steinitz had the superior position against Blackburns and Schlechter had beaten Lee.

Circles the Globe on a Wheel. LYNN, Mass., June 30.—Arthur F. Cary reached here today after a tour around the world on a wheel. He left Lynn June 1, 1896, for San Francisco, where he was at work until October, 1897. Then he sailed for Japan. He wheeled through Japan and China, Australia, Egypt, Italy, Switzerland, France, England, Ireland and Scotland. He was at work in Melbourne for a while. He reached Boston by steamer today and rode to Lynn at once.

ulation has been to a very large extent pro-fessional and manipulative in origin has it lacked in decided features of strength. There has, in fact, been evidences of strength, there has, in fact, been evidences of renewed pub-lic buying and the large purchases of Amer-ican stocks in London and foreign takings in our own market have been a notable feature. The latter, indeed, were sufficient

to cause a drop in exchange rates and for a tithe to create a belief that the gold export movement was at an end. This idea was not substantiated, as the inducements still of-fered by the Bank of England and Paris and Berlin markets resulted in gold ship-ments this was to the amount of formed rease and decrease, as compared with the Clearings, Inc. Dec.

and Berlin markets resulted in gold ship-ments this week to the amount of \$6,000,000, raising the amount since the movement be-gan early in June to \$18,000,000. Neither the effect of the gold exports nor the extraordinary amount of July in-terest and dividend disbursements second, however, to second the more become nor the extraordinary amount of July in-terest and dividend disbursements scomed, however, to affect the money market un-favorably. The only result of unavoidable disturbance of loans incident to the mat-ter was a temporary advance in call loans raites of Thursday and Friday at the banks and as high as 10 to 12 per cent for balances on the stock exchange. The street in fact was apparently impressed by the prospect of ease in money and by the accompanying outlook for an extremely large dehand for incoming securities growing out of the de-sire to reinvest in the July payments. It is recognized that the actual demand from railroad sources has been to a vertain ex-tent anticipated. Speculative interest, however, seemed to consider it comething to discount and the activity of manipulative bulls may be traced not only to the fact that a considerable short account had grown up which could be forced to cover, but to a 19,9 5.9 up which could be forced to cover, but to a disposition to take advantage of the prospective increase in the public's participation 12.6

in the market. The fact that much better accounts of the 17.2 9.9 progress of the crops are now heard was naturally calculated to diminish the bearish feeling which the street had developed in 44.3 12.0 4.5 feeling which the street had developed in the last month. The market, however, was much less effective as a speculative factor than the prospect of important deals in-volving the Vanderbilt railroad properties. Rumors that something of this kind would come out had been heard for several weeks past and it was thought that the declara-tion of the semi-annual dividend by the di-rectors of the Lake Shore and other com-8.6 2.0 54.2rectors of the Lake Shore and other companies would involve agreeable surprises. But neither of the semi-annual statements nor the dividends of the Vanderbilt com-panies hore out such anticipations and the speculation was about to fair back on the old 21.5 5.6 story of a probable amalgamation of the Union Facific with the Vanderbill system. At this juncture came the statement that propositions for the acquisition of the Bos-ton & Albany by the New York Central had 26.8 2.4 4.3 been formulated and practically agreed upon. The absence of explicit denials seemed sig-nificant and gave support to the rumors of 3.7 48.1 nificant and gave support to the rumors of increased dividend payments by the Omaha and of further important deals under Van-derbilt auspices and stimulated a buying movement in that group of stocks, with rapid advances in New York Central and its companione. London's purchases con-tributed effectively to this movement, the action of the foreign market being the more significant because the Transval complica-9.1 16.5 $\substack{29.5\\10.7}$ 277,216 7.4 309,413 44.5 significant because the Transval complica-tions, the sensitive condition of the Berlin and London money markets and other cir-cumstances resulted in heavy and dull speculative conditions abroad, apart from $\begin{array}{r} 24.0\\ 27.0\\ 37.0\\ 293.5\\ 28.4\\ 3.8\\ 3.8\end{array}$ the American department.

Finale of Midsummer Carnival.

MILWAUKEE, June 30.-A fitting finale to Milwaukee's great midsummer carnival was the gorgeous pageant of twenty floats which moved from the secret "den" on the outskirts of the city down town and through the principal streets. The floats rivaled in richness anything ever seen in the west The subjects of the floats embraced the na ture of the elements and stories of myth and fable. The figures on the floats were represented by the Turners' society of Milwaukee.

New Trial for Sausagemaker.

CHICAGO, June 30 .- The work of secur-ing a new jury to try August A. Becker for the alleged murder of his wife was begun today. Judge Stein overruled the motion to discharge the defendant because of the fault in the judgment naming "Elizabeth Becker" instead of "Therese Becker" as the woman murdered. Becker believes that the blunder in the paper will eventually result in his

Total amount of transfers\$20,779 TODAY'S WEATHER FORECAST

Increasing Cloudiness Saturday Followed by Showers and Lower Temperature Tomorrow.

WASHINGTON, June 30 .- Forecast for Saturday and Sunday:

For Nebraska and Iowa-Increasing cloudiness Saturday; threatening weather, with probably showers and cooler Sunday; variable winds.

For South Dakota-Showers and cooler Sunday; threatening Sunday; variable winds, secoming northerly.

For Missouri-Generally fair Saturday; threatening Sunday; east to southeast winds. For Kansas-Threatening Saturday and probably Sunday; cooler Sunday; east winds. For Wyoming-Fair, cooler Saturday; fair, cooler Sunday; northeasterly winds

he strength of the general business situation remains apparently unabated and the half year closes with the commercial and financial community manifesting a tone of cheerful confidence regarding the outlook for the last half of 1899. In the volume of business done the first half of 1899 will rank higher than hitherto expected, and a notable rise in prices which was such a feature of the past spring has done much to econcile traders to the admittedly smal margins of profits which modern business operations tend toward making permanent. It might be added that staple prices today are in a majority of instances well above quotations ruling for some years past, the general level, in fact, being the highest since in 1893. In some instances of course, notably in iron and steel, recent advances have brought the level of prices well above anything reported since 1896, though it is o be remarked that much of the busines done in that industry this spring was at old levels, the most sanguine observers in this line having failed to accurately gauge the real proportions of the late advan That the transportation interests have shared to a large degree in the business re sulting from several years of large crops and active demand is proved by the current good returns, the best probably reported so far this year, and indicating a progressive gain over all previous records for the six months notwithstanding the steadily lower-

Influence of Hot Weather.

ing of rates of transportation. There is little in the immediate outlook that can be construed as unfavorable. The iron trade, having finished the most eventful half year in its history and most of its contracts secured at the old low prices, faces a very good outlook for the balance of the year at prices which guarantee large profits, providing adequate supplies of raw -1 1.550 500 and partly manufactured materials can be It is not unreasonable to look for secured. It is not unreasonable to look for some check, in fact, to business in the metal 500

consuming industries, owing to the scarcity of these materials. One of the latest in-stances of this cited is the serious delay re-1.200 ported to the shipbuilding industry, owing to the scarcity of steel plates.

The labor situation has been one of the most satisfactory features of the half year's business, voluntary advances having raised 1.800 the compensation of thousands of operatives and labor troubles being conspicuous by their absence till toward the end of the 525 period of the review, when failure to agree on hours in the Colorado smelting industry 3,950 and in tin plate manufacturing rendered a large number of workmen idle. In the case of the latter industry, however, the suspen-2,500 sion, it is hoped, will not exceed the usual summer shut down. In agricultural lines the outlook, though

somewhat irregular, is in the main favor-able. The smaller yield of winter wheat able. seems at the present moment likely to be partly made up for by an increased yield of corn, and spring wheat prospects, though impaired somewhat by too much rain, are regarded as encouraging. Good weather throughout the country has caused a rathes better outturn in winter wheat and the gen-cral rains throughout the south have helped the cotton crop situation, while rice and

sugar have improved. The closing week of the half year find: special strength and activity in iron, lum-ber and wool and woolen goods, the latter industry having at last apparently begun to share in the prevailing prosperity. A fea-ture of interest in this connection is the advancing prices of fine wools abroad, which seems to insure, temporarily at least, a foreign market for considerable high grade domestic wool. Manufactured fabrics share in this strength, but manufactures rare not credited with having large stocks of raw material. Confidence in fall trade is evi-denced by reports coming from many mar-kets of good orders already booked, the volume of such business already done varying from 10 to 30 per cent in excess of last year, which it may be recalled was quite a satisfactory one in this respect. Wheat, including flour shipments for the week aggregate 3.263.593 bushels against 746.715 bushels have week 4.716 401 bushels

¹⁰ 746.718 bushels last week. 4.716.401 hushels in the corresponding week of 1898, 2.778,848 bushels in 1897, 2.601.056 bushels in 1896, and 2.007.001 bushels in 1855. Since January 1 this season, the exports of wheat aggregate | Millard, H. E. Palmer.

I am a farmer, forty-five years old, and used to be sick most of the time. My nostrils would stop up, and there was an offensive discharge from my nose. I couldn't smell very well, and was frequently bothered with nose bleed. I felt worse when the weather was cold and damp. I called this Catarrh.

I use to have sour stomach too, and I felt bloated after eating. I belched a good deal. My tongue was coated a light brown, and my mouth tasted badly in the morning. I called this Dyspepsia.

And then my liver was out of order. I had a sort of a yellow look on my skin. I was so cross about the house that my wife hated to see me come home. One day I was constipated, and the next I had diarrhoea. I called this Biliousness.

My kidneys were in bad shape. There were pains in the small of my back, and I had to get up often in the night to urinate, and there was a scalding pain in passing water. I called this Kidney Trouble.

One day I got hold of a book that told about a medicine called Pe-ru-na, which the book said was good for Catarrh. The book also said that Catarrh got into the stomach, liver, and kidneys as well as into the head. That seemed queer to me, but I bought some Pe-ru-na, and it cured every one of my troubles. So I have come to believe from actual experience that Catarrh is what ails most folks. If such people will take Pe-ru-na they will get well, but if they keep on taking stomach medicines, and liver medicines, and kidney medicines, they will remain sick. Catarrh of some sort is what ails them, and Pe-ru-na is what will cure them.

Remember that cholera morbus, cholera infantum, summer complaint, bilious colic, diarrhoea and dysentery are each and all catarrh of the bowels. Catarrh is the only correct name for these affections. Pe-ru-na is an absolute specific for these ailments, which are so common in summer. Dr. Hartman, in a practice of over forty years, never lost a single case of cholera infantum, dysentery, diarrhoea, or cholera morbus, and his only remedy was Pe-ru-na. These desiring further particulars should send for a free copy of "Summer Catarrh." Address Dr. Hartman, Columbus, O.

OPENS AT OMAHA, NEBRASKA, JULY 1st,

Will Eclipse Last Year.

~~~~~ President, George L. Miller, Secretary, Dudley Smith. Treasurer, Frank Murphy. EXECUTIVE COMMITTEE, C. J. Smyth, Chairman; P. E. Iler, Wm. Hayden, H. J. Penfold, J. B. Kitchen, ADVISORY COMMITTEE, Frank Murphy, Herman Kountze, Emil Brandeis, J. H. Millard H. E. Palmer, J. H. Must not be confounded with the cheap electric and so-called electric belts that have lately been advertised so extensively. There is as much difference between my electric Belt and the others as there is between day and night. My Electric Belt is the greatest known home self-treatment for weak men and women. It is a perfect and ideal remedy, for in it I have overcome all the objections to the old style belts. All the cells are double. Has soft, silken, chamois-covered inonge electrodes that cannot burn and blister as do the other makes of belts. Do you notice since I in-vented my Belt how others have tried to imitate it? Get the genuine. You want the beat. The current can Get the genuine. You want the best. The current can be instantly felt and is four times stronger than any other belt upon earth. 1 have cured over 4.000 pa-

Weakness in either sex: restores Shrunken or Undeveloped Organs: Cures Rheumatism in every form, Kidney, Liver and Bladder Troubles Chronic Con-Riseumatism in every form, Kidney, Liver and Bladder Troubles Chronic Con-ipation, Nervous and General Debility, Dyspepsia, all female Complaints, etc. Call or write today. I will send you my new book. "The Finding of the Foun-tain of Eternal Youth," sympton blanks and other literature which will tell you all about it. My Electrical Suspenarry for the permanent cure of various diseases of men is free to every male purchaser of one of my behs. Advice and consulta-tion without cost. Sold only by
