WASHINGTON, June 30 .- General Leonard Wood has declined the presidency of the sible to go through to Knik station, passing Washington Traction and Electric company of this city and will return early next week to his post as military governor of the province of Santiago. The offer was a very flattering one, but General Wood, after considering the matter for a week, decided to decline it. In view of the outbreak of yellow fever at Santiago he decided that it was his duty to return there at once.

Some time ago General Wood sought service in the Philippines, but it was then believed, as it is now, that his services could

General Wood, in talking of the conditions existing in Cuba, said that what the people there needed was good schools, good sanitation in the cities and the enforcement of United States laws. General Wood says his advices from Santiago are such as to convince him that there will be no serious outbreak of yellow fever.
