NEW BURLINGTON TIME CARD

Important Changes in Passenger Service Between Omaha and the West.

THROUGH TRAINS WILL MAKE LESS STOPS

Local Train Between Omaha and Mc-Cook is Extended to Wray, Colo., and Grand Island Local is Extended to Broken Bow.

Passenger traffic on the Burlington to and from Omaha will be materially affected by a new time card, which will go into operation next Sunday. Owing to the increased demands upon the service offered by No. 6, the Chicago special which runs between Denver and Chicago, it has been found that this train cannot make its schedule time and stop at all of the small etations in western Nebraska se heretofore it has done. Consequently, under the new time card, No. 6 will not stop at the stations between Akron and McCook except Yuma, Wray and Benkelman. The stop at Indianola will also be

The business for these stations, which have been cut off the time card from the "Chicago Special" will be handled by trains 5 and 12, which heretofore have been local passenger trains between Omaha and McCook. Under the new schedule these trains will run between Omaha and Wray, Train No. 5 will leave Omaha on its former time, 8:40 a. m., and reach Wray at 10:25 p. m. No. 12 will leave Wray at 5:20 a. m. and reach Omaha on its former

Trains No. 43 and 44, which heretofore have been locals between Grand Island and Omaha, will be extended to Broken Bow, a dietance of eighty miles. No. 43 will leave Omaha for Broken Bow and Intermediate points at 8:40 a. m., and No. 44 will arrive from Broken Bow at 7:40 p. m. This extension is made in order to relieve trains No. 41 and No. 42, the regular Billings through trains, from stopping at points between Ravena and Broken Bow, traffic for which point will hereafter be bandled by the new Broken Bow-Omaha local trains

The Burlington road is making arrange ments to equip the through trains on the Billings line with heavier engines, as it has been demonstrated that the engines now in use are too light to meet the require-

Railway Notes and Personals. W. H. Cundey of Denver, representing the Denver & Rio Grande, is an Omaha visitor George Crosby, general freight agent for the Burlington, went to Chicago Thursday. E. W. Carter, Burlington trainmaster at Lincoln, passed through the city on his re-

turn home from a two weeks' visit in Mich-Leave Bench for the Stump. As only a few days more remain before the judicial convention most of the judges who are candidates for renomination are not spending any great amount of time around the court house. Aside from the Bartley case before Fawcett there is not a wheel moving in the courts and both court roc and corridors are deserted. The Zacharia

day and Judge Baxter is out looking after his campaign. In the Bartley case the attorneys are still arguing the point which was raised Thurs-day morning as to whether the court shall peremptorily instruct the jury to find that the defalcation occurred during Bartley's second term, as shown by the evidence introduced by the state. Attorney General Smyth spent the forenoon citing authorities in support of his contention that Bartley ad a right to accept checks, certificates of deposit and open bank accounts as cash in | T. P. Indian School Teacher Examination. The United States Civil Service commission announces that on August 15 and 16 examination will be held in any city in the country where it has a board of examiners for the position of teacher with a knowledge of music for the Indian service. The sub jects of examination are penmanship, spelling, pedagogy, anthmetic, theory and practice of music, natural history, history and government of the United States, American literature and physiology and hygiene. This examination is for the position of teacher at the Flandreau (South Dakota) Indian school at a salary of \$600. Persons desiring to enter this examination should at once apply to the Casted States Civil Service Commission, Wohington, D. C., for blanks.

A Word to Mothers. Mothers of children affected with croup or Mothers of children affected with croup or assevere cold need not hesitate to administer Chamberlian's Cough Remedy. It contains no opiate nor narcotic in any form and may be given as confidently to the babe as to an adult. The great success that has attended its use in the treatment of colds and croup has won for it the approval and praise it has received throughout the United States and in many fereign lands.

Overlooked a Point. The deputy sheriffs who were appointed by Sheriff McDonald at the request of the exposition management have not fired their oaths of office with the county clerk. As the law is interpreted by the county officials this should have preceded the approval of the bond by the Board of County Commis-

sioners. It is also suggested that the depu-ties are not technically competent to exer-cise their authority until their caths are regularly filed with the proper official. Bucklen's Arnica Saive.

ing was set for next Wednesday morning Attorney Baldrige asked the court to fix bond for the defendant, because he said the complaint charged no offense that is not ailable. He said the mere accusation that Moore had killed DeMolins by blows administered with his bare hands was not sufficient to hold him without bail. He reviewed the testimony adduced in the coroner's hearing and referred to the most important points in support of his argument, referring to the Chollman case as one in

which bond had been given for the appear-

ance of the defendant. Deputy County Attorney Thomas objected to the release of the defendant at this time, because he said the court could not take cognizance of evidence which had been brought out at the coroner's examination. GOODS. He characterized the assault of DeMolins as one of the most malicious murders that had been perpetrated in the community, and said that while Moore had no weapons in his hands his training as a prizefighter had made his clenched fists the most dangerous

weapons which he could possess. Judge Gordon declined to name any bond, urging that he wanted to hear the testimony in the case before he took any decisive ac tion. Moore was sent back to the county iail to await his preliminary examination.

While Man is Filing a Complaint Representatives of W. T. Seaman Do Their Work.

Levi Bradley borrowed James Braxton's horse and phaeton yesterday to drive down to the police station for the purpose of filing a complaint against Harry Wooley, 2537 Patrick avenue, whom he charged with keeping a vicious dog. He tied the horse in front of the station and went upstairs to see the city prosecutor. While he was absent some representatives of W. T. Seaman unhitched the horse and took the phaeton away. They attached a card to the harness, which was left on the horse, explaining that the vehicle had been taken to secure the remainder of the sum due upon it. Bradley was much surprised when he came out and found that the phaeton had been taken. Mr. Seaman claims that he had a right to remove the vehicle by virtue of the lien which he holds upon it.

Big Internal Revenue Collections, Collector of Internal Revenue J. E. Houtz has completed his report for the fiscar year occupy the site and position of the old one ending June 30. The collector is radiant there would be no damages besides those over the showing made. The territory comprising Nebraska and the two Dakotas, is the largest, geographically considered, of any collector in the United States. The total amount collected is \$3,428,079.38, which is a round million in excess of the collections of 1898 and two million ahead of the collec-tions of 1897. The cost of collection was 1½ per cent as against 14-5 per cent for 1898 and 314 per cent for 1897. This is less than the cost of collection of any other collector in the country, even where the collector had but a single state under his care. The amount was swelled this year by the addi-French Organdies, the very best goods made and usually sold at 50c, for 15c per yard.

Health Commissioner Spalding is not of the opinion that the site selected Thursday by the advisory board and city council for the emergency hospital will ever do for a permanent one. He recommended the acceptance of the place for a term of five years because it promises to be fairly satisfactory and the arrangement will relieve the city officials and the citizens of their numerous controversies on the subject long enough to allow the excitement to subside and the people to learn that an emergency hospital is not such a bugaboo as it is credited with being. Months Must Elapse Before Building of the New Sixteenth Street Vinduet Can Begin.

The seeming inactivity of the council and other officers of the city administration in the matter of the Sixteenth street viaduo is frequently remarked on by those who do not understand the many steps which must be taken before any apparent progress can be made. The status of the affair at present is that the ordinance passed by the council at its last regular meeting, declaring the viaduct a necessity, approving the plans of the city engineer and providing for the appraisement of damages, is in the hands of the mayor, awaiting his approval. If it next Tuesday evening, probably accompanies by an appointment of appraisers.

If there are no non-resident propert owners along the street to be bridged over the appraisement of damages can be finished within forty or fifty days. If some of the owners live out of the ciry, notice by nut lication must be had, which will make the process of appraisement last at least sixty days. It was suggested by a member of the council that as the new viaduct will occupy the site and position of the old one was put up, but even if the greater width of the new viaduet is not found a cause for additional damages, the appraisers mus come to that conclusion in exactly the same manner as though the appraisement were an

The removal of the old viaduct is being carried on to the satisfaction of the city engineer and the time limit of the contract August 1, will doubtless find the work of removal completed.

When theater goers have an opportunity of hearing a slide trombone played by a woman they are seeing and hearing some thing that is a decided novelty. The slide trombone is one of the most difficult of musical instruments to play, even by a man, whose lips are always heavier and lungs stronger. Good

And is really and truly good-couldn't be anything else-as it's made of the finest Bohemian (imported) hops and selected malt. There's little use of stating what the above articles of commerce make. Everybody has been interested in Fred Krug Brewing Co.'s advertising-it's read by all readers, you know-and they know it makes perfectly pure beer-but in order to distinguish it-make it familiar to everyoneit's called Cabinet. There's another wayand perhaps the most popular-Krug Cabinet Beer. Always put it that way when ordering a bottle or a case and there can be no mistake. There may be a few new arrivals in this part of the country and for their benefit it might be well to invite them to order a trial case.
