Democratic Farty in Illinois Involved in a Hopeless Wrangle.

MANY VACANT CHAIRS IN THE AUDITORIUM

Faction Headed by Harrison and Gahan Belleves the Meeting to Be in Interest of Disloyal Members of Party.

CHICAGO, July 18 .- The fight between the regular democratic organization of Cook county and the state of Illinois, repesented by Mayor Harrison and National Committeeman Gahan on the one side and the Altgeld wing of democracy, which supported ex-Governor Altgeld, an independent candidate for the mayoralty at the last election, on the other has reached an acute stage today and threatens to involve the national committee in spite of the strenuous attempts being made to keep local quarrels out of the proceedings of next Tuesday's meeting of the national committee in this city. Hon. Thomas Gahan, national committeeman from Illinois, in an open letter today to the leaders of the Altgeld element of the party, explains his reason for declining to attend the Auditorium meeting o Thursday night and indirectly appeals to his colleagues of the national committee to refrain from attending the Altgeld meeting Interest is added to the occasion by the report of ex-Governor Altgeld's friends that Bryan, some days ago, accepted an invitation to address the meeting. The letter of National Committeeman Gahan follows in First Lieutenants George I. Becker, John H. Lewis and Second Lieutenant Carl Hard. Thirty-fourth infantry, Fort Logan, Colo.: First Lieutenant Wilson M. G. Heaton.

CHICAGO, July 18, 1899 .- The Committee of Arrangements, Auditorium Meeting of July 20: Gentlemen—I am just in receipt of your letter of July 17, tendering me box No. 31 for the Auditorium meeting of July 20.

The published statements of the chairman of your committee have made it manifest of your committee have made it manifest that this invitation is not tendered in good faith and is not one in which a believer of the integrity of the democratic organization could be expected to accept and ordinarily a declination of a box tendered me would suffice, but since I am informed by the daily press that a large number of invitations have been sent by your com-mittee to members of the national committee I feel it my duty as a national demo cratic committeeman from the state of Illi-nois to give you and the public the reasons which make it impossible that I could accept this invitation without stultifying the democratic party of the state of Illinois and committing an injustice to the democratic

the employes connected with the Omaha office. He succeeded in his mission beyond party of the nation. membership of your committee on arrangements, on whose behalf this invitation is tendered me, shows that in its per-sonnel this committee is entirely composed of gentlemen who in April last opposed the regular democratic candidate for mayor and other charter offices of the city of Chicago and did all in their power to bring about the defeat of the regular democratic ticket and the election of the regular republican ticket at that effection. Strange as appear to those from abroad, an examina tion of the members of the other commit tees arranging the proposed meeting at the Auditorium shows that every member of the several auxiliary committees likewise op-posed the regular democratic ticket and its nominees last April and sought to defeat the regular democratic ticket and elect the republican ticket at that election.

Will of Majority Shall Rule. I am a believer in the rule of the m jority and when the democratic party ceases to believe in the rule of majorities it will cease to be the party of the people. The primaries and the convention of last spring were held under the law and the principles were approved by your factional leader, Notwithstanding this and repudiating in ad-vance the work of that convention and the will of the majority, you sounded the battle-cry of "anything to beat" the regular democratic nominee and maintained a guerrilla warfare against the democratic party and its regular nomination until you were reat the polls by ing defeat as to effectually silence your pretensions of party organization until you saw in this demonstration of July 20 an opportunity to temporarily galvanize

ifeless seeds of party sedition which you there so zealously sowed. I would be recreant to my trust as the representative of the Illinois democracy on the national committee if I did not frankly review these facts, which are within the memory of all and which should be brough to the attention of the entire democrati national committee as the reason why the national committeeman of Illinois cannot

ttend your demonstration. In the three years that it has been my honor to represent the democracy of Illi nois on the national committee I have considered it my duty to labor for party mony in the state of Illinois and for the conciliation of all elements in order that we might in 1900 redeem Illinois to democracy by sending twenty-four votes to building at that place. Mr. Taylor says he the electoral college for William J. Bryan and sharing in the triumph of that platform of principles for which the national democratic committee so faithfully labored against overwhelming odds in the dark days will be delivered to former patrons of the of 1896.

No Hope for Unity.

If I saw in your proposed meeting of in the membership of your several committees a single indication to a hope of party unity, if you had held out for a moment the hand of good fellowship; if you had for a moment in your asservations indicated that you would have accepted the olive branch on any condition short of a surrender of party organization and party principles to the whim and ca-prices and exactions of a hopeless minority. I would have been the first to make an overture in the belief that the first duty a committeeman is to harmonize the

But your action and your declarations public announcement of your present intentions have proved that you are not an element of the democratic party, that its constituent principles cannot sur-vive in your atmosphere and that to acyour dictation is to surrender fundamental doctrine which finds in the rule of a majority the success of the demo-

For these reasons and for the further reason that a sense of duty must make it impossible for any loyal democrat of Illinois who believes in party organizations and the rule of majorities to attend a pub-lic meeting under your auspices, I must re-spectfully decline your invitation. Maryland Committeeman Talks on the New Democratic Platform. CHICAGO, July 18 .- Colonel L. Victor Baughman of Frederick, Md., was the first of the eastern politicians to arrive in Chicago today for the meeting of the national democratic committee. I would say that the senator is a man who never hesitates to express his own views upon all great public questions, and, while he may have taken issue with his friends in the last campaign and thought it unwise to force such issues on the party, he was at least loyal to the nominee of the party and carried out the teachings of democracy by tendering his aid and support to the ticket.

"Frankly, I will say that I do not think allver is the most important issue. That great question was submitted for arbitration before the American people and decided ad versely. At this time I am unable to see the necessity of again demanding that it should be the leading issue. There are more momentous questions to consider, questions of government policy, in which the people are deeply interested at this time.
