Markets Close Strong After an Early Spell of Weakness in Chicago.

BIG WHEAT SHIPMENTS FROM ARGENTINE

Indian Wheat Crop Withering Because of the Fallure of the Monsoon-Corn Fairly Active -Oats Dull.

CHICAGO, July 28.-The Board of Trade markets closed strong today after an early epoli of weakness. September wheat gained lyc, corn and oats gained a shade, while provisions rose 109/15c.

Cool weather, weak cables and Argentine shipments of considerably over 1,000,000 bushels caused a weak wheat market at the opening. September started %9%c off, at 70'4 270%c, and on soiling by longs fell im-modiately to 70%c. The market railed irregularly to 764c before noon. Trade was very light, outside orders being almost entirely pil.

Reports of fine weather in France and England caused some seiling. Receipts at primary points were \$57,700 bushels, compared with 492,450 bushels the corresponding day last year. Duluth and Minneapolis reported 319 cars, against 441 last week and 88 a year ago. Chicago received 113 cars, 13 of contract grade. Press dispatches from Bombay reporting the Indian wheat crop withering because of the failure of the monsoon started shorts to cover. Crop damage claims from the Pacific coast and northwest, togother with Snow's crop report, showing a decline of from 5 to 15 points in portions of the northwest, simulated heavy buying by local professionals near the close. September rose to 71%c and closed with sellers at that figure, a net gain of 1%c. Corn ruled fairly active and higher with wheat. The market appeared to have been oversold during the recent decline. Crop reports were generally favorable. Chicago received 543 cars. September opened 1,00%c and closed at 31%c 31%c. advanced to 31%c and closed at 31%c bid.

Outs ruled duil but firm, September opened a shade lower at 194c, sold between 194c and 194c, closing a shade higher for the day at 195c. Chicago receipts were 367 cars.

Provisions recovered from a spell of weak. ported 319 cars, against 441 last week and 88

cars.
Provisions recovered from a spell of weakness at the opening and closed 15c higher for September pork, at \$5.90; 19c better for September lard, at \$5.45, and 19c higher for September ribs, at \$5.17\square\text{20}, Packers bought freely on the early dip and the rally which followed was chiefly on their purchases. Estimated receipts for Saturday: Wheat, 125 cars; corn, 590 cars; oats, 525 cars; hogs, 14,000 head.

MOVEMENTS OF STOCKS AND BONDS. Market is Long Early and Traders Keep on the Long Side.

Keep on the Long Side.

New York, July 18.—Today's stock market was strong early and traders generally ranged themselves on the long side. The shorts took alarm from yest-rday's rise and the continued upward tendency this morning and covered rather extensive lines, London marked up prices before the opining here and bought considerable amounts in this market. The sentimental effect of this buying was even more pronounced than the direct demand for stocks. The recovery in French rentes in Part's had a simulating effect and part of London's buying of Americans was reported to be for continental account. Taken all in all, there was sufficient demand for stocks to run the forences business up to within 20,000 shares of yesterday's total transactions and considerably over the total for some days of this week.

Business fell off, however, very notably in the afternoon. The public showed itself still chare about coming forward and builters.

Business fell off, however, very notably in still chary about coming forward and buil operators in consequence proceeded to take their profits on the advance. The stocks which advanced yesterday and the day before were especially affected and in a number of cases were carried below last night's level. St. Louis Southwestern stocks, Kansas & Texas preferred, Lake Erie & Western and the trunk lines were examples. There was nevertheless an appreciable increase in commission house business. These were conspicuous in grangers, Burilington vere conspicuous in grangers, Burlington cading on account of the benefit to the

were conspicuous in grangers, Burlington leading on account of the benefit to the crops from rain.

The coalers were notably strong on the approaching operation of a higher scale of prices and Lackawanna, which in addition enjoyed the benefit of a reported combination with New York, Chicago & St. Louis, rose an extreme 4 points. Louisville was the leader of the market, considered as to the strength and activity. It closed at the top price at a net gain of 2% over yesterday. Since the dividend of 2 per cent was taken off yesterday morning the stock has risen 4% points. There was an active demand for Sugar all day and the price went to 161%. National Steel was strong on the reported acquirement of new property and Brooklyn Transkt rose an extreme 1%. There was a belated upward movement in some of the southwestern stocks not herefore affected. Denver & Rio Grande preferred. Southern Pacific, St. Louis & San Francisco second preferred and the St. Joseph & Grand Island stocks gained from 1 to 5 points. The late realizing carried prices down from the best and the market Joseph & Grand Island stocks gained from 1 to 5 points. The late realizing carried prices down from the best and the market closed dull and easy. Tomorrow's bank statement is expected to show another loss in eash, owing to operations with the subtreasury, though there has been a net gain on the interior movement. Sterling exchange was weak and lower on account of London buying stocks here and increased supply of commercial bills.

Bonds did not respond fully to the strength in stocks, but prices are generally higher. Total sales, par value, \$2,128,000. United States 58, registered, advanced is in the bid price.

NEW YORK, July 28.—COTTON—The excitement in the cotton market centered in the issue of the large number of August notices, followed today by extreme apathy and almost insignificant fluctuations. The market opened steady at unchanged prices to a decline of 2 points and for a time showed no particular leaning one way or the other. Near midday several small lines of weakly held long stuff came out and sent prices off a point or two, but business failed to materially improve. For the rest of the session scalpers were in control and failed to materially improve. For the rest of the session scalpers were in control and operated in a straggling fashion on both sides of the market. The idea of the leaders of the market seemed to favor a policy of neutrality pending the appearance of some radically new factor on which to base fresh conclusions. The cables from Liverpool were unchanged and crop information, while generally favorable, had been discounted. After a brief spurt of activity during the last few minutes the market closed steady and net unchanged to 2 points lower.
