Cash Demand Almost Nothing and Only Moderate Scaboard Orders-Corn Fairly Active and Provisions Strong.

CHICAGO, Aug. 4.-Corn and provisions cut out the pace on 'change today. A heavy eash demand for corn resulted in a complete recovery of an early decline, the market closing 1/42/4c higher than yesterday. Provisions closed at advances of from 121/4/20c. Wheat was weak early, but recovered with corn and closed 4c higher. Oats closed a

The Liverpool market was the guiding star of wheat traders at the opening. The isual surprise came from the English market, quotations there being about %d higher, condition not looked for in view of the dedine here yesterday. This was afterward explained on the ground of advanced ocean freight rates, but it had its effect on openng prices here, September starting at 69%c, an advance of %c. A momentary dip to 60%c followed, but good buying by shorts, mostly local, resulted in a gradual advance to 694,990%, the highest point reached dur-ing the session. Besides the strength shown by Liverpool, prespective buyers were en-couraged by continued crop damage reports couraged by continued crop damage reports from the northwest and by Snow's crop summary, which made the condition of spring wheat 85 per cent, or 5 per cent less than July 1. This indicated a total crop of about 25,000,000 bu. But interest in the market soon died out.

The cash demand was almost nothing lere and only a moderate demand was reported.

The cash demand was almost nothing here and only a moderate demand was reported from the seaboard. The northwest, which was a seller in this market, reported the flour trade quiet, and the first rush of winter wheat apparently over. The buying demand dwindled to almost nothing during the middle of the session and attempts to realize on earlier purchases were attended with considerable difficulty. September slowly declined to \$92,9% and hung around that price until about noon, when the sudslowly declined to 692694c and hung around that price until about noon, when the sudden strength of corn put some life into wheat and resulted in a steady advance, which was continued to the close. Northwest receipts were 35 cars, against 319 last week and seventy a year ago. Chicago receipts were 129 cars, sixteen of contract grade. The proportion of new wheat was much smaller than at this time a year ago. Total primary receipts were 672,900 bu. Atlantic port clearances of wheat and flour uggregated 269,000 bu. A visible decrease of about 600,000 bu, in northwest stocks for the out 600,000 bu. In northwest stocks for the ek was looked for. September advanced 69%,000%c and closed at 69%c, an advance

of 14c.

Corn was fairly active. At the opening the market was firm and higher on continued hot weather damage reports. Weakness soon developed on reports of rains in Iowa and Nebraska, and predictions of cooler weather, with liberal receipts—427 cars. The cash demand was excellent—200,000 bu. being reported disposed of here and the scabbard reported forty loads taken for export—and toward the close went to cover, bidding the market up rapidly. Country acceptances were light. September ranged from 304c to 30%c and closed 1/6/14c higher at 30%(2004c.

from 304c to 30%c and closed 1/401/4c higher at 30%(3034c).
Oats were quiet and fairly steady with other grains. Trading was entirely local and fluctuations small. There was some buying on the wet weather, which is not desirable at this period. Receipts were 474 cars. The seaboard reported a good export demand. September ranged from 194c to 195c and closed a shade higher at 194c. Provisions were strong and active. The yellow fever situation was more favorable, but the strength came mostly from a sharp advance in hog prices. Buying of all products was general and prices advanced steadily, the close being at about the top. At the close September pork was 20c higher at \$5.456.546, September lard 124c higher at \$5.456.546, 544, and September ribs 15c higher at \$5.174465.29.

Market Devoted Largely to Dealings

In a Few Industrial Specialties.

NEW YORK, Aug. 4.—Today's stock market was largely devoted to dealings in a few industrial specialties. Under cover of the strength in a few industrials there was a marked tendency to realize in the railroad list, but the seiling pressure there was not heavy and offers decreased as prices declined. Union Pacific was subject to pressure by unconfirmed rumors of a strike on its lines. The stock broke 14, points on rather liberal offerings and closed at a net loss of a point. The preferred declined 4 point, The chief movement of the clay was in tobacco stocks and Tennessee Coal. American Tobacco gained an extreme 4 points, Continental Tobacco common 32 points, the preferred 54 points and Tennessee Coal 22 points, apparently with the purpose of these were suddenly let down from 14 to 24 points, apparently with the purpose of shaking off weak followers of the buil movement. A rumor of a great combination of coal and iron industries in the south was added to those recently current to explain the Tennessee Coal movement.

The vigorous advance of this stock begit in a Few Industrial Specialties.

Robbers Secure a Nice Roll. WELLSBURG, W. Va., Aug. 4.-Four masked burglars forced their way into the lonely farm house of Dr. Joseph Parkinson some time during the night and after binding and gagging the inmates, who were all women, a careful search for valuables was made. The robbers secured government bonds valued at \$10,500, \$75 in money and a lot of silverware and jewelry. They then locked the women in an upstairs room and hastily drove off. There is no clew to their identity.
