Corsets.

We are properly proud of the department devoted to corsets. In it is found every requirement of the corset, on the most modest basis that economy could suggest, or with the richness that affluence commands, is easy of accomplishment where variety is well nigh endless. The Flexibone moulded corsets are the best in the world-or at least the best that we have found for the stout figures. Many MOULDED. styles with the elements of superiority in each.

Do not mistake by supposing this a stiff unyielding garment -the material from which the matchless "flexibone" stays are made is so elastic, so yielding to every movement that the body is not confined as in a vise, but has free motion in every part. As before said we strongly advise every stout lady to wear a Flexibone corset—sizes are from 21 to 36—black, white or grey-prices from \$1.00 to \$5.00 each. Ask to see them.

WASHINGTON, D. C., Aug. 4.-F W. Fitzpatrick of the Treasury department has just returned to Washington from Ottawa, where he went at the instance of the committee of citizens of Chicago in charge of the ceremonies of laying the corner stone of that city's great postoffice building next October by President Mc-Kinley, to arrange for the formal invitation from Chicago's citizens to the governorgeneral and cabinet of Canada to participate

in these festivities. Mr. Fitzpatrick is the assistant United States architect under Architect Henry Ives Cobb for the Chicago building. To an Assointed Press representative he admitted that his official reception was slightly chilly, Sir Wilfred Laurier very candidly telling him that under the present conditions it would be impossible for him to accept, or even to consider any social invitations to this side of the border.

Mr. Fitzpatrick says that in substance Sir Wilfrid's voluntary statements and answers to queries were as follows:

"As a friend in whom I am greatly inter ested I am very glad to see you, but, frankly, as a representative of the federal or any local government in the United States, your visit could not have been more untimely. When I received your first letter, I took up the matter with his excellency, the governor general, and he expressed a sincere desire to visit Chicago and seemed as anxious to accept your invitation as I was.
