Aim of Fire Escape Ordinance Recently Passed by Common Council.

SOME ALDERMEN FIND OBJECTION TO IT

The New Measure is Very Strict in Its | was ordered paid from the light fund. The Provisions for Stairway Fire Escapes on Public Buildings.

The "fire-escape" ordinance recently passed by the city council is not altogether to the liking of the committee on fire and system of fire-escapes in vogue in Omaha. out the clive branch. They are beginning The new ordinance as drafted provides for to realize that they were somewhat injudithe erection of iron outside stairways on clous and allowed their personal feelings to such buildings as come within the scope of get the better of their judgment. They the measure, instead of the ordinary ladder are afraid that the Reed faction, with the as passed a couple of months ago.

The new ordinance provides that all buildings within the corporate limits of the city, three stories high and over, and all opera houses, theaters, hotels, public halls, lodge rooms, lecture rooms, public libraries, school houses and buildings used for places of amusement of any kind and all buildings where crowds of people are invited to assemble for any purpose and all hospitals and convents shall be provided with stairway fire-escapes.

In the case of buildings two and three stories high and used as business houses, other fire-escapes may be placed at the discretion of the committee on fire and light and the chief of the fire department. On all buildings where same are required by the ordinance to be erected these stairway fire-escapes are to be placed within sixty days after the owners of the building shall have been notified by the chief of the fire department and at all times the approaches thereto within the building are to be kept free from obstructions and the doors or windows leading to the stairway easily opened. In addition there are to be suita-

ble signs directing to the fire-escapes. A principal feature of the new ordinance is that it provides that all buildings two stories or more in height, used for manufacturing purposes or for hotels, public halls, schools, hospitals or asylums, shall have at least one stair fire escape for every fifty persons occupying the building. This will mean that in the case of the new High school building the outside will have to be adorned with from eight to ten of the iron stairways. At the Washington Avenue school, which is a three-story building and where some 700 children are accommodated. there will have to be a dozen such fire escapes. It will also mean that the Grand hotel, which is already provided with ladder fire escapes, will have to replace them with stairways as provided in the ordinance. This, considering that the hotel is a sixstory building, will mean the outlay of a

tached to the building. All the stairway they are also moving east and west from improved and able to do her own work.'

Surgeon Shields of Third Brigade Commends the Conduct and Bearing of a Hospital Attache.

WASHINGTON, Aug. 7 .- Major George F. to the fact that their names did not appear Shields, surgeon of the Third brigade at Manila, has made a report to Surgeon General Sternberg, under date of June 13, for the general, writes to a local paper to say April and May. In it he specially commends Private Paul Gompertz of the Hos-pital corps, who was killed in action April 25. Major Shields says: thanks to captain and crew of the steamer members of the family while on the voyage

"On April 25, during the advance at the river Bagbag, my orderly, Private Paul Compertz, was fatally wounded while on the armored car, a Remington bullet passing through his neck, completely severing the carotid artery and jugular vein on both sides. I beg here to call the attention of the surgeon general to the services of this man. He was constantly with me from February 5 until the day of his death. We were together on the firing line during battle after battle and he performed his duty so bravely, so faithfully and so unselfishly that he gained the respect and admiration of the commanding general and his staff, as well as all with whom he came in contact. I could quote instance after instance of his bravery, but I feel that the collective statements which I have made will be evidence enough of the fact that he was a man of unusual merit."

YELLOW FEVER SITUATION

Report from Hampton Shows One New Case and No Deaths-Conditions Encouraging.

WASHINGTON, Aug. 7 .- Dr. Vickery, in charge of the Hampton Soldiers' Home, reports to the Marine hospital officials that one patient was admitted to the yellow fever hospital today. The man has been ill seven days. There were no deaths. Taken altogether the officials say the situation continues encouraging. In the territory surrounding the institution the situation likewise continues satisfactory, and according to reports received shows a freedom from any fever infection. The telegrams received by Dr. Wyman in this connection include the following: Dr. Wasdin says there is nothing new in Phoebus. There is nothing new at Hampton, and the surgeon is hopeful all will continue well. Surgeon Donaldson, telegraphing from Lee Hall, Va., says that the zone beginning at Grow station and terminating at Newport News is entirely clear of infection.
