Corn. Ofts and Provisions Are All Pulled Out of the Hole by the Strength of Whent.

CHICAGO, Aug. 11.-Wheat got well above the 70c mark today, closing strong with an advance of 1%c. The bullish gov-ernment crop report was the main factor ernment crop report was the main factor in the scramble for cover which took place and which at one time advanced the price 2% c. Corn, oats and provisions were all pulled out of a hole by the strength of wheat, corn and oats closing a shade higher and provisions 2% 07% c higher. for the first time in weeks, was plentiful. But all else was lost sight of in the government figures on the condition of spring wheat. It showed a decline of 8.1 points in

the condition, suggesting a crop of 235,000,000 bu. This would indicate a decrease of 60,000,000 bu., a shortage too great to be 60,000,000 bu., a shortage too great to be overlooked even in the present apathetic condition of trading. To add to the strength of the situation reports from the northwest toid of a serious and widespread damage by yesterday's hall storms in the Dakotas and Minnesota and northwest re-ceipts showed a marked failing off. Cables, however, were rather disappointing. Liver-pool showing but 36934 advance early and losing even this slight advantage before the market closed for the day. The opening ad-vance was looked upon by a majority of the older traders as sufficient considering the news and considerable selling followed, under which September slowly declined to 694c.

under which September slowly declined to 60%C. Offerings were all absorbed, so quickly in fact that although a period of dullness followed the decline to 69%C, some of the early sellers attempted to cover shortly after noon. Then it developed that the market was heavily oversold. Offerings were scarce and apparently the attitude of the whole trading element changed within a few minutes. In the next half hour the buying developed into a regular scramble among shorts to cover and the rapidity with which prices shot up caught many heavily. Before the demand had been satisfied Sep-tember had advanced to 71%C. Realizing at that figure was heavy and a decline to 70%C 70% followed, but the market was well supported, shorts being anxious to cover even at that price, and the close was strong at 70%C.

even at that price, and the close was strong at 70%c. Northwest receipts were 115 cars, against 205 last week and 99 a year ago. Chicago receipts were 63 cars, 14 of contract grade. Total primary receipts were 476,009 bu., against 436,000 bu. last year. Atlantic port clearances amounted to 329,000 bu. There was a better cash demand for all grades of wheat and 60,000 bu. was reported warked here. rked here.

of wheat and 90,000 bu. Was reported worked here. Corn was weak early on the government report, which indicated an exceptionally large crop. This was the chief feature of the morning trading and though no mate-rail decline took place the market tended downward until the big advance took place in wheat. That started buying in corn, shorts coming into the market and advanc-ing the prices of all futures. A feature was the buying of May, possibly 500,000 bu. The cash demand was not so active. Re-cepts were light, 273 cars. Crop advices were favorable. September ranged from 20% to 30% c. Oats were exceptionally dull but firm, with prices following narrowly the course

Oats were exceptionally dull but firm, with prices following narrowly the course of whent. There was good buying of September by shippers, supposed to be against cash sales, but nothing was re-ported worked here. The government crop report advanced the condition slightly. Receipts were 34 cars. September ranged from 194c to 194c, and closed a shade higher at 194094c. Provisions early were slow and rather easy, small declines taking place during the morning trading. Hog prices were lower and packing interests were sellers. The market turned firm in the afternoon with the advance in wheat and under good gen-eral buying the declines were recovered and small advances scored. There was a good demand for lard, but cash business was as a whole slow. At the close Septem-ber pork was 2½%5c lower at \$2.5; Septem-ber ribs 5c lower at \$5.00%6.02%. gain was wiped out in a realizing movement and the preferred stock closed below last right. Incre was a midday demand for Mexican Central and Mexican National, which was unexplained in the day's news. Detroit Gas and Union Bag and Paper, both common and preferred, showed sharp gains. There were a few strong spots in the railroad list, notably Chicago Great Western de-bentures, which are up 1%, and Missouri, Kansas & Texas, both common and pre-ferred. Oregon Navigation lost 2% of its recent rise. A few railroad stocks showed fractional gains, but the general tone was heavy. The condition of spring wheat shown by the government crop report had some influence. Much was made of a report that the rate from New York to Kansas City had been made on freight by way of the Grand Trunk and Chicago, Burlington & Quincy to mest the rate by way of the guif and southwestern lines. Some anxiety was felt lest this might presage a war of rates calculated to have a very unfavorable effect on earnings. There grew up the fear during the day that tomorrow's bank statement might not prove the encouraging exhibition which had been predicted for h during the week. It is believed that some money has come to New York from out of town banks to be placed in loans, but in other cases undoubt-edy outside banks have drawn on their deposits in New York banks to place these loans. It is expected that New York banks will be shown to have reduced their loans. Call loans were about steady today and the decline to 2% per cent in the late deal-ings was of little significance, as it occurred atter most of the demand had been satis-fied. VEGETABLES. HEAVY CLOUDBURST IN OHIO

Great Damage Reported from Noble County_It is Feared that Much Stock is Drowned.

CALDWELL, O., Aug. 11 .- Early this morning a heavy cloudburst visited the eastern part of this (Noble) county, doing an inestimable amount of damage to corp and tobacco crops. It is feared that much stock has been drowned. The water rose five feet over the Bellaire, Zanesville & Cincinnati railroad tracks at Harkins station and through trains have been abandoned. Much of the track is known to be washed out.

Storm in Northern Michigan.

BESSEMER, Mich., Aug. 11.-A flerce wind and rain storm last night, tore the roof from the electric light plant, destroyed sev-eral business houses and moved about twenty-five dwellings and the opera house from their foundations. The mines are all closed down for want of light.

Minnesota Hail Storm Rains Grain. FERGUS FALLS, Minn., Aug. 11 .- A hail four miles south of here last night. Two-thirds of the grain had been cut, but that still standing was ruined. The hall was accompanied by a violent wind, which blew down many barns and outbuildings.
