Mrs. Sophia Woldman, who has been of a year or more past, owing to her continual squabbles with her neighbors, was brought before the insanity commissioners yesterday afternoon on an information filed by R. A Hough, charging her with being insans. Mrs. We'aman kept the neighborhood of Thirtyfourth street and Avenue B in a turmoil for over a year and has filed charges in the justice courts from time to time against almost everyone of the people living nead her on some charge or another. A case against Hough, whom she charged with threatening to do her bodily injury, is now pending before Justice Vien.

The investigation developed the fact that while Mrs. Woldman was possessed of an ungovernable temper, there was nothing to show that she was not of sound mind and the commissioners, after reading her the riot act, ordered her discharge. In retaliation for her arrest Mrs. Woldman

brought sult in the district court against Hough for \$5,000 for defamation of character. She alleges that last Monday Hough, in the presence of other persons, used false and slanderous language, implying that she

HOSTILE TO MUNICIPAL PLANT

Public Not in Sympathy with Proposed Electric Lighting Scheme.

BUSINESS MEN WILL ENTER PROTEST

Many Think There is Nothing to Be Gained with a Good Chance of the City Being a Losing Party.

The scheme of establishing a so-called munleipal electric light plant in Council Bluffs, as proposed to the council by E. L. Draffen, president of the Municipal Construction company of Chicago, is not looked upon with favor by the business men and citizens generally and when the matter comes up for final action by the city council it is understood that a committee from the business men will enter a protest. By those who have given the proposition consideration it is regarded as one in which the city has everything to lose with a very slight possibility of gaining anything. This conclusion is drawn from the fact that the city in order to secure possession of the plant will be compelled to earn sufficient from the commercial lighting to pay the entire operating expenses, which, according to Draffen's figures, will amount to at least \$18,000 per annum. Those in a position to know say this amount cannot be earned, as the number of business and private houses using electric lights is decidedly limited. Nothing is known here about the concern as to its standing or responsibility and even Mayor Jennings and other city officials have been unable to learn

anything about the company. The Merchants' and Manufacturers' association has investigated the plan proposed by President Draffen and is seriously opposed to the city embarking upon any such undertaking.

DES MOINES, Aug. 19 .- (Special Telegram.)-The Register will make an authorized announcement in the morning of the resignation of Hon. Charles T. Hancock of state central committee. Despite the talk of a few of his enemies, the resignation is purely voluntary. He has vast business in terests and he feels that he cannot afford to longer neglect them, and then his wife is set against his again taking the chairmanship. Mr. Hancock managed the campaign last year with no small expense to himself, and he feels that someone else should now step to the front and center and report for duty.

The state central committee will meet the last of the week to select a chairman to succeed Mr. Hancock and it is said to be reasonably certain that Hon. H. O.
