CHAMBERS MAKES REPORT

Chief Justice of Samoa Confers with Officials at Washington.

STATES THAT HE HAS NOT RESIGNED

State Department is Acting on the Theory that He is Still in Full Possession of the Office.

WASHINGTON, Sept. 4.—Chief Justice Chambers of Samoa is here to confer with officials and to submit reports. To the three powers represented in Samoa.

While avoiding a discussion of pending diplomatic questions Judge Chambers, when seen today, spoke in an intelligent manner on some of the general conditions in Samoa, and also cleared up some misapprehensions as to his own status and plans.

He also pointed out that it has been frequently stated that he comes to Washington to report to the State department, whereas he was chosen chief justice by all three governments—the United States, Great Britain and Germany—and his reports are made in triplicate to all of them.

It was his inclination to think, which led to some exception being taken by one of the signatory powers, as some of the criticisms which he found necessary to express as to the course of an official of that government, were tantamount to it as well as to the United States.

As to the troubles in Samoa between him and Consul General Rose, Judge Chambers will not speak of at present but intimates that they will be quite fully covered in his report to the State department.

Speaking of American interests in Samoa Judge Chambers said that the Samoan people are intelligent and tractable if dealt with in a straightforward manner.
