Marked Weakness Develops in the Northwest with a Good Many Selling Orders-Oats and Provisions Advance.

CHICAGO, Sept. 5.-Weakness in the morthwest and heavy receipts at all points were mainly responsible for declines of 140 %c in deferred futures in wheat today. Beptember was in good demand and closed to higher. Hot, dry weather caused an advance of Whic in corn. Oats closed unchanged to %c higher and provisions about Who higher.

The first impulse of traders in wheat was to buy slightly higher quotations from Liverpool and other foreign markets, overchadowing for the time being the heavy re ceipts everywhere. The result was an opening advance of about 1/491/4c in December and 14c in September, December start-ing at 71%@7119c and September at 69%c. A short period of realizing followed, during which December declined to 71%c, but the steadiness displayed by corn and some rather builish reports on the condition of the spring wheat crop sent the price back to the opening figures where they held for a short time. Everything else in the way of news favored the selling side and before if o'clock the market began to weaken and from that time to the close deferred futures exhibited more or less weakness. September, however, was quite steady. The elevator people were buyers of September on account of the small carrying charge and the premium between September and December was reduced to 1%c. Marked weakness developed in the northwest and a good many selling orders came from that section, which influenced local trading.

Both Duluth and Minneapolis declined faster and further than Chicago and predicted a continuance of heavy receipts. This, with the poor cash demand, had a marked influence on trading in December and May, and made those options the object of considerable liquidation and short selling. Speculation at times was rearly at short period of realizing followed, during

ject of considerable liquidation and short selling. Speculation at times was nearly at a standstill, which made this weakness more apparent. Toward the close there was a tendency to cover by shorts, who had sold earlier in the day, and this caused blight railies. Minneapolls and Duluth receipts were 2,200 cars for two days. Chicago receipts were 253 cars. Total primary receipts were 2,221,000 bushels for two days, negainst 3,059,000 for the corresponding days a year ago. Atlantic port clearances of wheat and flour amounted to 1,199,000 bushels. The seaboard made no mention of export demand today. December declined to 70%c and advanced to 712,71%c, where it closed, September closed at 65%c.

Corn showed considerable firmness in view of the enormous crop estimates, and after a period of weakness early ruled higher to

Corn showed considerable firmness in view of the enormous crop estimates, and after a period of weakness early ruled higher to the close. The weather in the corn belt was dry and hot, and there was apparently some apprehension of damage, complaints of which were numerous. September was especially strong. The cash and export demand was excellent. Receipts were 1.500 for two days. December ranged from 25% to mand was excellent. Receipts were 1.500 for two days. December ranged from 25% to 20% and closed 4.60% higher at 29.623%. Oats were steady but very dull, prices keeping within a narrow range. The mar-ket in general followed corn and closed at a slight advance. There was some buying by September shorts. The shipping demand was fair. Receipts were 874 cars. Decem-ber ranged from 20c to 20% and closed a shade higher at 20%c. September closed %c bitcher at 20%c.

ber ranged from 28 to 374 and ber ranged from 28 to 374 and a 120% c. September closed % c higher at 20% c. Provisions were steady, notwithstanding lower cables and reports of yellow fever at Key West. Selling was light and scattered and the demand fair. The strength of corn helped the market, everything closing firm at advances. At the close October pork was 71% c higher at \$8.12%. October lard 71% c higher at \$5.20% 5.22%.

Estimated receipts Wednesday: Wheat, 150 cars; corn, 780 cars; oats, 590 cars; hogs, 22,000 head.

Leading futures ranged as follows:

Kansas City Live Stock.

Kansas City, Sept. 5.—Cattle—Receipts, 15.379 head. Among the offerings were many low grade trashy stock that sold slow; recent quality in good demand at steady prices. Heavy native steers, \$5.25@ 6.25; light weights, \$5.0005.00; stockers and feeders, \$3.5005.00; butcher cows and heffers, \$3.0003.00; canners, \$2.5003.00; western steers, \$3.0003.75; Texans, \$3.0003.85.

HOGS—Receipts, 5.100 head. The supply was very light, both packers and shippers being active buyers at steady to 5c higher prices. Heavy, \$4.25@4.37b; mixed, \$4.25@4.37b; light, \$4.30@4.45.

ST. LOUIS, Sept. 5.—WOOL—Quiet, steady; medium grades, 14@19%c; light fine, 13@16%c; heavy fine, 10@15c; tub washed, 19 @26%c.

SLOT MACHINE DECOYS STRIKE. Demand that One Hundred Pieces of

Gum Constitute a Day's Work. A strike about which very little has been heard occurred in New York City recently. The slot machine decoys quit work and tried to make better terms with their employers. Very little is known by the pubthem do not wish anything said about them, as it would be fikely to destroy their usefulness.

Each company that operates nickel-in-the-slot machines, alot machines or penny-in-the-slot machines, alot machines or penny-in-the-slot machines, alot machines or penny-in-the-slot machines, alot machines alot machines, alot machines alot machines alot machines. lie about these men. The men who hire

Each company that operates nickel-in-the-slot machines or penny-in-the-slot machines, it is said, has in its employ men whose duty it is to go around and work up business. They visit crowded railroad stations, and, walking up to one of the machines, drop a penny into it, and take the chewing gum that it gives them in return, or register their weight.

The machine owners discovered some time ago that if some one does this dozens of others follow suit. All that is needed is a start. The "decoy" is generally a man of magnetic personality. He marches up to the apparatus in a way calculated to inspire confidence and suggests imitation, and he does it in such a way as to atract as much attention as possible. In a few minutes the machines are besieged with other customers.

1 feeders. 859 4 50 machines are besieged with other customers. Part of the duty of the "decoy" when he deals with the chewing gum apparatus is to nsert it in his mouth and then allow a look of picasure to steal over his coun-tenance. The "decoys" put their heads ogether not long since and decided that they were underpaid and overworked. They agreed that the bulk of the slot machine business is created by them and that the

remuneration of \$2 a day is not sufficient to compensate them for their efforts.

Falling a raise in the price of work, they demanded that shorter hours and less laber be assigned to them. They asked that 100 pieces of chewing gum constitute a day's work, and that every man who had been weighed seventy-five times should be entitled to go home and rest.

SHEEP—Receipts were large again today and there was a pretty fair assortment of all kinds. It was late before the market opened, as there was a good deal of sorting up to be done, but even after it did open it was slow, and it was pretty nearly an all day's job to effect a clearance. Values as a rule were a little lower and the feeling very weak.
