WEST POINT, Neb., Sept. 10.—(Special.)—The democratic county convention is called to meet on September 30 in West Point. There is considerable friction developing amongst the faithful as to the distribution of the spoils. Two of the present incumbents, sheriff and school superintendent, are aspirants for a third term.

CUMING COUNTY SCHOOL STATISTICS. WEST POINT, Neb., Sept. 10.—(Special.)—The school population of Cuming county according to the June census, just pub-

lished is 5,452, an increase of 143 during the last year. The total enrollment of the public schools of the county for the year ending on Monday, July 2, 1899, was 3,557. The number of school districts in Cuming county which are to have school for nine months during the ensuing school year are 29 as against 17 last year. With increased prosperity and the mammoth crop of 1899 in sight the farmers are more liberal in the matter of the duration of the country schools.

WEST POINT, Neb., Sept. 10.—(Special.)—Miss Eva O'Sullivan, daughter of the veteran editor, P. F. O'Sullivan of this city, went up to Norfolk on Friday and petitioned the school board of that city to re-lease her from an engagement as assistant principal. She has been offered the position of teacher of science in the South Omaha high school. The board granted her request very unwillingly.

FRENCHES ENVELOPE SERMON. TRENTON, Neb., Sept. 10.—(Special.)—Rev. Fred French, pastor of the Congregational church, delivered his farewell address to a crowd of house tonight. Mr. French will attend Deane college to better fit himself for the ministry. Trenton is now without a minister.

BICYCLE RAINA WAY. FLORENCE, Neb., Sept. 10.—(Special Telegram.)—Prof. W. A. Allen, living at 2168 Indiana avenue, Omaha, while riding his bicycle on the streets of this city, was struck by a heavy car and thrown from his bicycle. A physician was called to his aid.

NEBRASKA STATE NEWS. Fifth and Adams have been connected with Beatrice by telephone. The corn crop of Nebraska and Kansas is now estimated at 25,000,000 bushels, or more than one-fourth the total yield of the United States.

While engaged at Grand Island in unloading the corn crop, the steamship, the George Broadwell, contractor, was seriously injured. The heavy weight rolling over him, five ribs were broken near the spine and two short ribs fractured.

The eleventh annual reunion of the Burd County Veterans' association has completed a four days' session which will be memorable in the history of the county. The old friends of visitors were attracted and several prominent speakers were present.

Thieves broke into the furniture and hardware store of John E. Pettit, on 17th and Minden and looted the safe. About \$25 in money, a draft for \$1,000 and some insurance policies were taken. All the drawers in the safe but one were also rifled.

A petition for divorce was filed in the district court at West Point by Mark Brun against his wife, Catherine Brun, alleging cruel and inhuman treatment. The parties are both old residents of this county and are very aged, the plaintiff being nearly 70 years old.

A young man giving his name as Earl Criger and his residence as 2029 Champa street, Omaha, was arrested at Kingsburg for stealing a bicycle belonging to Art Roberts. The wheel was found at Leroy, where he had sold it for \$3.50. He was sentenced to the reformatory for 60 days.

Citizens of Havelock are talking of putting on two automobiles between that city and Lincoln. They have secured a price of \$1,500 for two used cars, and the intention if the scheme can be worked to place them on the line between the two points. The idea is to make regular trips with them on schedule time and to charge a 5-cent fare.

Melvin McClelland of Gering, the former manager of the Caldwell ranch of the Swan Land and Cattle company, was killed by a race horse, which ran the track and ran over him. The accident occurred at the old settlers' picnic at the head of the Mitchell canal. McClelland was 40 years of age, a young man and leaves a young wife and child.

The youngest employe on the Rock Island railroad's pay roll lives near Lincoln and gets his pay check at the Rock Island office. Lincoln city ticket office. His name is Joseph Clark and he is but 7 years old. His duty is to care for the switch lights near College View.

Burglars entered the hardware store of A. M. Freeland at Maywood and the post office in the same building, also John Miller's drug store and money drawers. Freeland did not sustain \$1,000 loss in the post office and store, while Miller had \$10 in cash and some valuable papers stolen and also a bicycle. The thief broke into the blacksmith shop and took tools to do the job. Several packages of papers and one empty pocketbook were found in the yard.

MAKE SMOKELESS POWDER Navy Department Will Begin Manufacturing Within Two or Three Months at Indian Head. WASHINGTON, Sept. 10.—The navy department expects to begin the manufacture of smokeless powder at its powder mills, a few miles back from the Potomac river at Indian Head, within the next two or three months. Work has been pushed energetically and at present about 1,200 men are employed. Admiral O'Neill chief of the bureau of ordnance, accompanied by Lieutenant Seymour of the bureau, inspected the work during the past few days. He was surprised at the progress made. Already about a dozen buildings are completed, the electric light plant—said to be one of the finest in the world—is installed, and the standpipe, 120 feet high, is up. There are ten or twelve other buildings well along toward completion. Altogether the group of buildings will number twenty-four or twenty-five, with a capacity of 2,000 pounds of smokeless powder daily. This daily output seems large at first thought, but it should be remembered that the Indiana works produce 1,000 pounds of powder at a single shot.

The various buildings of the powder plant cover a wide area about four miles back from the river. The general purpose has been to keep the factory, another for acids. At this way each stage of manufacture is detached from all the others, not only reducing the chances of accidents, but also giving some security against widespread damage in case of explosion. Another feature of the process is that the powder is made in the building of light "paper" walls at the ends of the buildings. These reduce the pressure of an explosion, leaving the main walls of the structure standing and materially reducing the loss which occurs when an explosion is suddenly confined.

SADDER RESURRECTION. There was a resurrection of the Midway Sunday night over the fact that a boy was buried alive back of one of the concessions on the west side. He was placed in a hypodermic case and buried in six feet of earth, a place being left so people could look down and see his face. He was no more than nicely buried when the police put in an appearance and under their orders there was a sudden resurrection from the newly-made grave. The boy was put to sleep in the presence of Dr. Leve and Mercer, but after the burial the physicians thought better of the matter and they told the police that the resurrection was a hoax. The boy was taken to the hospital and is now in excellent health, devoting many hours to

FIRE RECORD. Forest Fires in Wyoming. CHEYENNE, Wyo., Sept. 10.—(Special.)—Forest fires are being raging in the Laramie Peak timber district in northern Albany county and along Muddy mountain, about twenty-five miles southeast of Casper. Special Agent Abbott of the Interior department, who went out to investigate and put out the fires if possible, has a force of men working in the Laramie Peak district and hopes to overcome the flames within a few days. Nothing could be done toward fighting the Muddy mountain fire on account of the dense smoke, and it will be allowed to burn itself out. During the fore part of this week the worst forest fire in the history of northern Wyoming raged in the mountains between the north and south forks of Tenguire river west of Sheridan. Four townships were burned over and the town of Rockwood was wiped out. The tie camp of McShane & Co., together with a number of sawmills and a large number of railroad ties and lumber were destroyed. When the fire was first discovered Superintendent of Forest Reserve Garbutt at once sent riders into the timber to notify the tie-choppers there. This proved to be a very wise move, for the tie-choppers barely had time to escape death in the flames. The cause of the fire is unknown, but it is supposed to have been started by a party of campers.

CHICAGO, Sept. 10.—The special committee to invite the governor general of Canada and members of his cabinet to attend the fall festival here next month left today for Quebec, where the presentation will be made. The invitation for the governor general is similar to those presented to President Roosevelt and President McKinley. The mayors of Quebec and Ottawa will also be asked to attend.

EX-AMBASSADOR EUSTIS DIES

Attack of Pneumonia Proves Fatal—He Passes Away at His Summer Home at Newport, R. I.

NEWPORT, R. I., Sept. 10.—James B. Eustis, ambassador to France during the second Cleveland administration and formerly a senator from Louisiana, died at his summer home in this city last night of pneumonia. Mr. Eustis was taken ill on Sunday, August 28, at Rockwood, where the examination showed the trouble to be heart failure.

The patient grew worse on Thursday, developing symptoms of pneumonia, and on Friday, when there was a consultation of physicians, who stated that there was scarcely any hope of recovery. The end came tonight very peacefully. Mr. Eustis's son, James B. Eustis, jr., and his daughter, Miss Celeste Eustis, were at the bedside. No arrangements have yet been made for the funeral, but it is thought the body will be taken to Louisiana.

PROPAGANDA WORK IN NEWSPAPERS

Cry that Colonies of North is Moving Southward and Intends to Control and Annex All South America.

MEXICO CITY, Sept. 10.—Private advices from Brazil show that the government here has been greatly influenced by the accounts regarding the alleged secret understanding between the Bolivian and the United States government by which the latter power was to take over the territory of the upper Amazon claimed by Bolivia, a region rich in rubber. It is alleged in Rio de Janeiro that American naval officers have been no longer and roughly surveyed the region and sent their secret reports to Washington. It was at first charged that Mr. Bryan, United States minister to Brazil, was a party to the agreement with Bolivia, but it is now said the Bolivia secret agent named Uthoff made the agreement with the United States government. This gives some ground to believe that, but such is the belief of the Brazilian newspapers and people, and the Argentine press has begun, instigated by Europeans, to set up the cry that the colonies of the north is moving southward and intends to control and annex all the colonies of South America, and so diligent has been the propaganda of this story that the newspapers in Mexico of the clerical stripe have taken it up editorially, predicting the absorption of this hemisphere by the greedy and ambitious United States.

DEADWOOD, S. D., Sept. 10.—(Special.)—The free delivery of mail has come to Deadwood today. It has now been used in the city long enough to prove its merits. The people are pleased with the service and it is paying the expenses all right. Deadwood has three carriers, one more than is usually allowed for towns of this size. Deadwood, but the clothing that is required in making the deliveries in the residential portions of the city make it very hard for the carriers. One man has three flights of steps in his route with about 125 steps each and there is scarcely a house but that has from ten to twenty-five steps.

SOUTH DAKOTA STATE FAIR. YANKTON, S. D., Sept. 10.—(Special.)—The fifteenth annual South Dakota State fair will be held at Yankton September 25 to 29, 1899. Present indications are that it will be the largest and most successful fair that has been held since the exhibition was located at Yankton. Half rates have been secured for those attending from South Dakota. Live stock, poultry and farm produce exhibits will be greater than in any previous year, and suitable amusements are being arranged for the entertainment of the crowds at the grounds and in the city.
