TRIAL ON THE FRENCH PLAN

Witnesses Try to Offer Arguments from the Stand, but are Sharply Cut Off.

An Italianized imitation of the Dreyfus trial was staged yesterday in Justice Chaska's court. The hearing of the suit of Louis Gnecco against Alfonso Carmanara for labor performed in the International building at the exposition took place.

TALK OF CLOSING HOSPITAL

Trustees of Presbyterian Charitable Institution to Hold an Important Meeting.

The trustees of the Presbyterian hospital will have a meeting this afternoon to take up certain phases of the finances of the institution. The wording of the call for the meeting was such as to give some who saw it the impression that the hospital was about to be closed, and that the trustees were called to take action upon that proposition.

THREE FALL FROM THE CARS. Railroad Employees Suffer Accidents Incident to Their Occupation. Three accidents of minor character befell employees of the Union Pacific over their eyes Saturday afternoon. The passenger employes of the steel gang at Fremont, under Foreman J. Swanson, by the name of Werick, fell from a handcar Saturday night and had his left arm and left leg badly bruised. He was brought to Omaha Sunday for medical treatment. Another laborer in the steel gang at Cheyenne, S. Thomas, had his shoulder dislocated Saturday. He was thrown from the end of a handcar by the sudden application of the brake and in addition to having his shoulder hurt was badly bruised by the car passing over his limbs. William H. Boyer, a brakeman for Conductor McKeown, fell from a box car Sunday morning near North Platte, and his left leg was broken. Boyer had descended the side of the car, when the train was proceeding at full speed, for the purpose of testing the air. In climbing back to the top of the car he slipped and fell just as he reached the head of the ladder. Boyer was taken to North Platte for medical attention. Excursions on All Railroads. The second series of low rate excursions on account of the exposition go into effect on the railroads from all Nebraska points tomorrow and continue for three days. The passenger departments have done good work in advertising the state thoroughly and indications point to large crowds on all the roads. This is especially expected to be the case if the present cool weather continues during the week, as the passenger officials are confident that many persons who would have taken advantage of the low rates offered for the first excursions during the latter part of August were deterred by reason of the extreme heat, which always makes traveling so disagreeable. Railroad Notes and Personalities. J. H. Lathrop, general agent of the Union Pacific at Portland, is a visitor in the city. C. S. LaFollette, traveling passenger agent of the Big Four at Peoria, was a visitor in the city. George F. West, assistant city passenger agent of the Northwestern, is in Chicago on a hurried business trip. E. W. Townsend of Topeka, assistant general passenger agent of the Rock Island, spent Sunday in Omaha. P. M. Rose, traveling freight agent in Iowa for the Union Pacific, has returned from a two weeks' outing spent on the northern Pacific coast. J. R. Buchanan of the Elkhorn has gone to Chicago to be present at an informal meeting of the general passenger agents of the Northwestern line. J. O. Philippi, general agent of the Missouri Pacific, has returned from a very pleasant visit to St. Paul and Minneapolis. He says that he was about the only man in that region with a straw hat and minus an overcoat. Booth Problem Still Unsolved. At the meeting of the Board of County Commissioners this morning at 10 o'clock it is expected that the county attorney will submit his opinion relative to the advisability of advertising for bids for new booths to be used at the forthcoming election. The booths are in a most deplorable condition and the city attorney and the county commissioners, after examining them, decided to build a new one should be built. The last time some of them were used it was found necessary to skirmish in the neighborhood where they were set up for extra doors and windows. In several instances the booths were blown down by the wind, and it was necessary to have the contractors keep them from falling upon the judges, clerks and voters of election and the voters who were on the inside. As there are over eighty of these booths to be built and it will take some time to get them in readiness for use in November, the county board is striving to have the matter settled as soon as possible.
