Heavy Buying by Shorts Helps Corn-Wheat a Little Higher Despite Henr News-Oats Advance a Fraction.

CHICAGO, Sept. 19 .- Corn was the active deal on 'change today. Heavy buying by shorts, who were disturbed by the small contract stocks and rumors of a squeeze, advanced the September price 1%c. De-cember closed %21/2c higher. Wheat was steady under a good deal of bear news and closed unchanged to 14c higher. Oats advanced about 14c and provisions closed at practically unchanged prices.

The opening in wheat was at a slight ad-

vance for December, that option starting at 7014070%c, or 14014c over yesterday's final price. Outside of an unexpectedly small increase in the local contract stocks there was nothing in the news to warrant an advance and it appeared to be purely the result of local sentiment. The small advance was almost immediately lost. The heavy selling which marked yesterday's heavy selling which marked yesterday's acession and which was supposed to be the liquidation of some long lines, was continued today. There was also some selling from the outside, St. Louis and the northwest both being in the market. For a considerable period the December price hung around 70½676½c, to which point it declined shortly after the opening, but before 11 o'clock the strength of corn began to attract attention. Bullishness caused by this was increased by reports that a good deal of the buying was for Armour. This scared shorts and caused considerable covering. Offerings were light, outside of the long liquidation referred to, and prices fluctuated rapidly within a comparatively This scared shorts and caused considerable covering. Offerings were light, outside of the long liquidation referred to, and prices fluctuated rapidly within a comparatively marrow range, the market at times exhibiting some nervousness. The local crowd was apparently long and though the posting of Bradstreet's figures on the visible supply, showing an increase of 6,098,000 but, shook out some long wheat offerings were readily absorbed and the spell of weakness soon disappeared. During the afternoon the strength of coarse grains was influential in the steadiness of wheat and although bear attacks were frequent, prices were well maintained to the end. Primary receipts were heavy, 1,652,000 but, against 1,665,000 but, a year ago. Chicago receipts were 200 cars, 13 of contract grade. Minneapolis and Duludh receipts were 1,385 cars, compared with 1,862 last week and 820 a year ago. Atlantic port clearances of wheat and flour were 130,000 but. The senboard reported 40 loads taken for export. Little was done in September. Interest in that deal had apparently died out and prices kept close to the opening price, 70½c, and as low as 70½c. December was bringing 70½c at the close.

Trading in corn was quite active, especially for September, in which a sharp advance was recorded. Shorts were active bidders from the start, but had a good deal of difficulty in covering, and prices were bid up accordingly. The short interest, which was evidently larger than supposed, was disturbed by the small contract stocks, 1,068,000 bu. There was also good buying in December on the heavy rains, which were expected to reduce the movement. Receipts were 1,252 cars. September ranged from 32%c to 34½c and closed 15½c higher at 34%c. December ranged from 25%c to 25¼@25%c and closed 3½@½c higher at 25½c.

Oats was helped by the strength of corn and ruled firm all day. Shorts were good

Provisions were dull and steady, sympathy with grain markets being the main factor. There was a good demand for meats. Packers were on both sides of the market. Prices kept within a narrow range. At the close January pork was a shade higher at \$5.5569.57½, January lard a shade higher at \$5.569.57½, and January ribs 2½c higher at \$4.92½.

Wednesday: Wheat, higher at \$4.92%.
Estimated receipts Wednesday: Wheat, 205 cars; corn, 760 cars; oats, 260 cars; hogs, 7,000 head, Leading futures ranged as follows:

New York Dry Goods. New York Dry Goods.

New York, Sept. 19.—DRY GOODS—
There has been fully an average demand for staple cottons today from the home trade. Business for export is quiet. Brown and bleached cottons are without quotable change, but in coarse colored goods advances of ½c are reported in some lines of denims. Prints are without further change. Ginghams are strong in nearly all makes. Print cloths are unchanged in both regular and odd goods. Cotton quotations advancing in price.

St. Lauls Live Stock.
