four records, one of which was a world's record and the other three American, were broken.

E. C. Schaeffer of the New York Athletic club won the 100 yards, 220 yards and 440 yards aquatic events, and in each made a new record. His time for the 100 yards, 1108 3-5, beats the old American record, held by A. T. Kennedy of Australia, while he was at the University of Pennsylvania, by one second. In the 220 yards' swim Schaeffer clipped fourteen seconds off the record held by Harry Reeder of the Knickerbocker Athletic club, and in the 440 yards' contest he covered the distance in two and three-fifths seconds less time than that made by Dr. Paul Neumann of the Chicago Athletic association. John Flanagan threw the hammer 166 feet 2 inches, breaking his world's record by two feet, six inches. Flanagan was not satisfied with this, and said he knew he could do better, and on his third throw he flung the hammer 168 feet, 8 inches, thus beating the record twice in one day.

B. I. Wefers foliad to qualify in the 100

feet, 8 inches, thus beating the record twice in one day.

B. J. Wefers failed to qualify in the 100 yards handlcap. He was allotted one yard and a half by the handlcapper, but started from the scratch.

A. C. Kraenziein simply romped over the hurdles, which were placed on the grass. This was in the 120 yards handlcap and Kraenziein on scratch was giving from five to eight yards to the rest of the timbertoppers. In the final heat he won by nearly ten yards. Summary: n yards. Summary: The 100-yard swimming event was won y E. C. Schaeffer, W. C. Miller of the nickerbocker Athletic club second. Time:

One mile run, handicap, won by D. J. Dovonan of the Xavier Athletic club (75), E. J. Quinlan (unattached), second. Time: 4:2-5.

Running high jump, handicap, won by Daniel J. O'Sullivan of the Xavier Athletic club (four inches), actual height, 5 feet, ten inches; S. K. Thomas of the New York Athletic club second (seven inches), actual height, 6 feet, 6 inches.

CHICAGO, Sept. 23.—The Chicago university eleven defeated the Knox college team this afternoon in the opening foot ball game of the season by a score of 40 to 0. The Chicago team, for so early in the season, played a remarkably fast game. The interference formed quickly and blocked surely and some spectacular runs resulted. Hamill once carried the ball for a touchdown after a run of 103 yards. Chicago tried no tricks, but used straight foot ball, using her fast heavy backs for long runs around Knox's rather weak ends, varied by occasional line bucks. Knox found Chicago's right side rather weak and made several good gains there. The teams lined up as follows: Chicago Uni. Position. Knox College. Rich, 160. Left end. In the first half, with the ball on Omaha's twenty-seven-yard line, Joe Balley broke through for a touchdown. The ball was brought out and Garver missed an easy goal. NO FOOT BALL SCORE AT HASTINGS. COSTS A FORTUNE TO ATTEND A PARTY

Parnell Homestend is to Be Sold.

Copyright, 1899, by the Associated Press. LONDON, Sept. 23 .- Society, if such a thing can be said to exist at this time of the year, has invaded Scotland in full force. The queen, the prince of Wales and royalties of all degrees and their intimates are flocking around Inverness. Among the gay crowds the Bradley-Martins, the William Waldorf Astors, Andrew Carnegie and other well known Americans or forme Americans are frequently noticed.

As house parties that cost a small fortune in tips and incidentals to attend are all the rage the Americans are well able to keep up their reputation. The Highland shooting games and galety do not suffer from the rumors of war. It is said evenings in many well known Scotch houses are now devoted to baccarat, roulette and poker, in which men and women, both smoking, join until the early hours and which reaches higher limits than ever dreamed of. Other goings-on reported in the society papers are enough to make the stern old covenanters turn in their graves.

An anonymous book of poems just published in London is being much praised by the reviewers for the purity, beauty and strength of the verses, while people wondered at the identity of the author. It is now learned that Lord Alfred Douglas wrote them. They were first published in Paris under his own name, but they were brought here anonymously, fearing the effect of a scandal caused by Lord Alfred's connection with the Oscar Wilde case. Lord Alfred Douglas is living quietly in England with his mother, having separated from Wilde, who is living a dog's life in Paris, eking out his existence on a small annuity and the few dollars he can make by writing. Wilde recently negotiated with an American theatrical manager for the sale of a new play, but nothing resulted from it. Wilde's boys are at a school in England, cared for by an uncle. One of them is being educated for the Roman Catholic priesthood,

Selling Home of the Parnells.

Avondale, the historic home of the Parnells, is to be sold by order of a court November 3. The Parnell monument committee has taken up the matter and the lord mayor of Dublin and John Redmond, while in America, will appeal for funds to buy the mansion and settle it on the Parnell family. If the Parnells die out they propose to turn the estate into a public park.

That the Irish flag sometimes creates discussion in other places than over New York's city hall was amusingly instanced this week when Lord Greville, chairman of the newly-formed Westmeath county council, attempted to fly the green emblem over the county court house at Mullingar. Captain Greville, who is high sheriff and a son of Lord Greville, said he would be shot before his father or his council hoisted that flag over his court. The council reaffirmed its decision and Greville, the younger, prepared to resist. Thursday there occurred what is now called "the battle of Mullingar." The council, led by Lord Greville, entered the court yard, while a crowd of about 1,000 people were held back by a large force of police. As the councillors were endeavoring to get into the court the crowd broke through the police lines, stormed the court, Brass, Mrs. Maggie Morris, Mrs. Amanda forced an entrance and a torn green flag Carlin, Mrs. Laura Click. was waved from a window signal for tremendous cheering. The triumph was shortlived, for the police drove out the mob and captured the flag, leaving F. H. Clark. J. O. Eastman, Jay Laverty, E. T. Miller, Greville, the younger, the victor.

In the Theatrical World

The autumn theatrical season is now in full swing. American actors, managers and McCollister, Mrs. M. L. Bates, Mrs. C. M. a second one Friday morning. Rapids & Northern railway for the last continue to be among the most popular in London. In Hopper's case the early indications that "El Capitan" would not prove he was one of the best known railroad men a success here were completely at fault. Now, in addition to filling the stalls, the most expensive portion of the house, it has Gray. a long line waiting nightly for the gallery and pit, which is the surest sign of an English succees.

Gertrude Elliott, who has made such a favorable impression here, leaves Goodwin's company and joins the Court theater for the production of Captain Robert Marshall's new play, "A Royal Family," which will be

produced in the middle of October. Fernald's "Moonlight Blossom," produced Thursday at the Prince of Wales theater, meets with only moderate praise from the London critics. It flavors something of the Mrs. F. H. Clark. "Mikado," but the leading parts, played by Forbes Robertson and Mrs. Patrick Campbell, are little more than elaborate speeches The picturesque Japanese scenery eaved the performance from tediousness. The establishment of a night school is

being discussed in some circles, and it is

possible that the Board of Education may take a hand in the matter. Dr. Wolfe, su-

perintendent of public instruction, is in-

eresting himself in this cause and said yes-

terday that in his opinion there is a great

need for a night school this winter. Many

youths are compelled to work who should be

in school and for this reason Dr. Wolfe

thinks that the school district should make

some provision for the intellectual training of those who are not enabled to attend day

chools. A room in the High school build-

ing can be provided for this purpose at very

little additional expense. A teacher will not

cost more than \$40 a month. In case the at-

tendance is large enough two or more rooms

can be used. The demand for a night school

is more apparent here than in most cities of

this size for the reason that so many youths

are compelled to work in order to assist their

parents. Many boys and girls of 14 years or

age are working in the packing houses today
