Barley Bondsmen Case.

Sherriff Trompen has not yet served the execution against the bondsmen of ex-State Treasurer Bartley for the reason that he has been unable to locate any property belonging to the persons against whom judgment was rendered in the Douglas county court.

It is probable that the proceedings in general will be discontinued, but it is argued that the juror probably was influenced by what he read.

They are only bubbles, those maiden fancies of love, marriage and motherhood. But what beautiful bubbles they are! Who does not wish that all these fancies could end as did the fair stories, "and they lived happily ever after."

The only way in which happiness can be realized in marriage is by being forearmed against its dangers. Most young women are ignorant of the fact that irregularity means derangement of the womanly functions which may have far reaching consequences after marriage.

With this derangement at the start there often follow the drains, ulcerations and all infirmities which make life one long misery.

A certain cure for irregularity and other diseases peculiar to women is found in Dr. Pierce's Favorite Prescription. It contains no opium, neither opium, cocaine nor other narcotic.

"I was so weak I did not have breath to walk across my room," writes Mrs. J. M. Miller, of New Providence, Calhoun Co., Ky., "and I could not get on my feet. My Favorite Prescription and about five bottles of Dr. Pierce's Pink Pills cured me. I also had spells which the doctor said I could not straighten. I did not gain strength from any medicine until I took Dr. Pierce's Pink Pills. The doctor told me he did not know what was the cause of my trouble and that I would never be any better. I lived in this way for sixteen years and I was told by the doctor that I was a hopeless case."

Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath.

BURLINGTON ANNUAL REPORT

Statistics Are a Cause for Congratulation on Part of the Management.

MARKED INCREASE IN GROSS EARNINGS

Exceeds Those of the Preceding Year by More Than Half a Million Dollars—The Figures For 18.

The forty-ninth annual report of the Burlington railroad has just been submitted to the stockholders by the board of directors. It covers the year ending June 30, 1899, and its every statement is reason for congratulation to the management.

The gross earnings reached the enormous sum of \$48,389,424, an increase over the previous year of more than \$500,000 and this fact palliates somewhat the decrease in the freight business.

The earnings and expenses of the entire Burlington system for the time included in the report were as follows:

Freight \$29,791,941.81
Passenger 9,489,975.27
Mail, express, etc. 4,649,484.51
Operating expenses 26,545,500.51
Taxes 1,580,823.54

Net earnings from operation \$15,353,920.61
Other income 487,822.23
Total net receipts \$15,841,742.84
Interest, rent, etc. 2,002,843.43

Dividends aggregating 6 per cent \$4,728,200.49
Surplus for the year \$11,113,542.39
In a resume of the business for the last year President Perkins says, in part:

"The actual length of standard-gauge road operated by the company during the year was 2,219 miles, against 2,180 miles the previous year. The gross earnings per mile of road operated were \$5,941.75, against \$5,961.02 in the previous year. The operating expenses, including taxes, per mile were \$3,847.72, against \$3,873.71 in the previous year. Passenger earnings increased 16.14 per cent in the previous year. The number of tons moved one mile increased 2.36 per cent, while freight earnings decreased 4.16 per cent. The number of passengers carried one mile increased 23.78 per cent, while passenger earnings increased 16.14 per cent. The percentage of operating expenses to gross earnings decreased 0.14 of 1 per cent.

"We are aiding in the construction of a road from Alliance, Neb., to Hartsville, Wyo., to reach valuable deposits of iron ore near Hartsville and develop the intermediate region. It is intended to build from the North Platte valley southerly to a connection with our Denver line near Brush station, thus making a direct railroad connection between the Black Hills and Montana on the north and Colorado on the south. From Alliance to Hartsville is about 141 miles, and from the point of junction of the Denver extension to Brush, Colo., where we join our main line, is about 119 miles."

Paul is negotiating for lease of the old Bousse packing house in Sioux City. Haakinson formerly ran a packing house here himself and is an experienced man in the business.

He is in Sioux City at present and does not deny that he is looking to the re-occupation of the former Bousse plant. This will give Sioux City the big plant of the Cudahy, the International plant, which has just contracted to come for a bonus of \$50,000, which will unquestionably be raised this week, and the third will be the Swift. Even if Swift does not come it is said and good authority another packer will embrace the opportunity of getting this big plant.

IOWA FALLS, Ia., Oct. 4.—(Special.)—The early frost this fall entailed a total loss to Farwell & Westgate of this city in the destruction of their entire crop of celery.
