In their petition Davis and Sims allege that they are advised that the actual amount paid by Foley to their former clients was largely in excess of \$100, but what the actual amount was they have no means of ascertaining. As they are unable to collect their share from their clients they bring suit against Foley for \$1,000.

They also ask the court to give them judgment against Foley for \$5,000, alleging that at the time of the compromise made by Foley with their clients, he agreed orally to pay them (Davis and Sims) their reasonable attorney fees as part consideration for the dismissal of the suits.

It was expected that an interesting experiment in civilization would begin when he assumed absolute control of the new possession, and so it has turned out, although the Navy department, for some reason has refrained from permitting the details of his reports to get into circulation. That these reports are highly interesting and in some instances wholly unconventional is evident from portions o one which has just come to Washington. In this Governor Leary inclosed two of his recent orders to the citizens of the Isle of Guam which are unlike any other orders
