Wheat is Excited and Tessed About by Conflicting Influences.

PROVISIONS MARKET HOLDS ITS STRENGTH

Corn Market Less Active Than Whent and Does Little Better Than Hold Its Own-Provisions an Inflaence for Strength.

CHICAGO, March 25.-Wheat was excited St times today, tossed about by con-flicting influences, which in their turn held eway, but the close was barely steady, May a shade under yesterday. Provisions were strong and full of virility. May pork was Up at one rime 525gc, but closed with nearly half of this gone. May lard closed Plante down and May ribs The improved May corn closed a shade higher and oats unchanged for May and harise up for July.
The wheat market opened unchanged from Yesterday at 65%200°C and then, probably because Liverpool was not up as much as expected in view of the absence here yesterday, and because some orivale messages cast appersion on the truthfulness of yesterday's reports of damage to the French Crop, sold off to 65%c. At this discouraging stage of the session New York made an upward spurt, fearing war as an outgrowth of the difficulties existing between Russia and Turkey, and the local crowd of shorts covered in some alarm. A report from Duluth of heavy export demands assisted in the budge as did the strength of provisions. May railied to 65%c, but falled to hold it, atthough further cables from France were in contradiction of earlier ones, reassertling that the damage in France was serious. There was considerable profit taking at the top, and shorts apparently took a calmer view of the Turko-Russian situation, for May sold off to 85%c and closed barely steady, a shade under yesterday, at 65%c. On the advance the pit was excited and at other times rather nervous. New York put the export business for the day at 20 loads. vesterday at 60% paic and then, probably On the advance the pit was excited the other times rather nervous. New York put the export business for the day at 20 leads, Clearances in wheat and flour were equal to 179,000 bu. Primary receipts were 154,000 bu. compared with 513,000 bu. a year ago. Local receipts were 42 cars, none of contract grade. Minneapolis and Duluth reported 496 cars, against 708 last week and 500 a year

The provisions market repeated its exhibition of strength and excitement to a crowded pit. Hogs were higher at the yards and receipts of hogs small. This combined with the heavy outside demand and the frantic efforts of shorts to cover in a market where offerings were light, caused a swift advance. May pork was the main attraction. This oution opened 174, 6026e over yesterday at \$12,656/12.72½ and in a wild burst of bidding shot up to \$13, the highest price store 1856. On the buige there was heavy profit taking. Some interests took profits on the whole list. Lard suffered more than pork and ribs in this maneuver. Pork lost only part of the advance, closing 27½e over yesterday at \$12.75. May lard ranged from \$8.62½ to \$6.75. Way ribs, from \$6.60 to \$6.75, with the close Dyc up at \$6.70. The corn market was less active than wheat and did little better than holding its own, although the export business was put at 100 loads and provisions extended an influence of strength, while cables were strong. There was good buying, but there was also pienty on the market which tended to equalize matters. Local receipts were 446 cars. Clearances were 444.600 bu. Mat ranged from 25%e to 25%e, closing a shade over yesterday at 38%7384je.

The oats market was firm, with July in somewhat better demand than May. Trade was without much feature and quiet. May ranged from 24%e to 24%e, and closed unchanged at 24%e. July sold from 21%e to 24e, closing \$60.00 kcd.

MOVEMENTS OF STOCKS AND BONDS. Stock Exchange Shows Reactionary

NEW YORK, March 29.-The Stock exhange atmosphere was rather oppressive during today's ression and the offerings to take profits were absorbed with less facility than on previous days Juring this week. No better explanation of the reacweek. No better explanation of the reactionary tendency of the market can be found than the falling off in demand for stocks. There was some manipulation for the decline, which was effective among the industrials and specifities, and which brought out a volume of offerings that looked like the uncovering of stop-loss orders. But in the railroad list there was no indication of forced selling. The profittaking proceeded apparently in an orderly manner, and any considerable recession in prices led to a decline in the volume of offerings and a dull market. Stocks which have gone up the most during the week

offerings and a duil market. Stocks which have gone up the most during the week were naturally most affected, notably the transcontinental railroads and the southern trunk lines.

There was some indication of positive weakness in some of the grangers and the coalers, the tendency in the latter group being due to the rather disappointing February statement of net earnings for the Reading company. There were not lacking also points of strength in the railroad list. The most notable upward movement of the day was in stocks of railroads in Central Traffic territory and what might be called subsidiary Vanderbitt lines. Cleveof the day was in stocks of railroads in Central Traffic territory and what might be called subsidiary Vanderbilt lines. Clevelland, Cincinnati, Chicago & St. Louis led the movement and it was spared in by Chesapeake & Ohio, Pittsburg, Cincinnati, Chicago & St. Louis stocks.

The professed ground of this advance was a conference of railroad officials in this city looking to the enforcement of agreements to maintain rates. The Atchison stocks, Louisville & Nashville and some other less conspicuous atocks continued strong. Aside from the desire to take gloomy official outgivings regarding the profits the halt in the buying demand was due to apprehension over the effect of the gloomy official outgivings regarding the prospect for future dividends on the stock of the Sugar company. A sharp break in that stock at the opening secende to have little effect on the market, but when its weakners was seen to parsist sympathetic heaviness developed elsewhere in the industrial list and among the local traction stocks.

There was no indication of stiffness in N. E. G. & C.

dustrial list and among the local traction stocks.

There was no indication of stiffness in the money market, but probably the relaxed demand for speculative purposes had something to do with this. The end of the month and the quarter involve some preparation to meet dividend and interest outligations, and this factor begot some spirit of caution about using too freely the facilities of the money market in speculation. The subtreasury for the first time this week gained a small amount from the banks and the government institution's debit baliance at the clearing house fell to \$340,608, as against a daily average of nearly \$1,000,600 heretofore this week. This symptom attracted attention notwithstanding that the gain by the banks from the subtreasury for the week still amounts to considerably over \$1,000,000. London continued to trade actively in this market, but with much lees influence on sentiment than heretofore, owing to the knowledge that the purchases for that account are carried to a large extent by money borrowed in New York.

The bond market continues active and for the most part strong though there were points of weakness in the list. Total sales, crease. £42,000.

Here she desisted from hypotheses and opened the envelope. Inside were three cards without doubt; two large ones and one very tlny one. The large ones were the regular visiting cards of Mr. and Mrs. Josiah Quillaby Jones. The tiny card was attached by a little bow of pink ribbon. In big and boldly juked characters it bore this brief inscription:

Dallas Machinists Strike.

DALLAS, Tex., March 29.—All the machinists in Munger's cotton machinery manufacturing works, the largest of the kind in the world, went on a strike loday. The men refused to do double work required by the company and the international Association of Machinista authorized
