STANDARD OIL FILES ANSWER

Attorney McCoy Replies to the Charge Made by Attorney General Smyth.

DENIES JURISDICTION OF THE COURT

Omaha Fire and Police Board Files an Answer in the Supreme Court to the Dummy Board-State House Notes.

LINCOLN. March 31.-(Special.)-Frank I. McCoy of Omaha today filed in the supreme court the answer of the defendant in the case of the State of Nebraska against the Standard Oil company. The motion to dismiss this case was overruled at the last sitting of the supreme court and the defendant company was given until April 1 to file an answer to the petition of the attorney general. An appearance in this case will be made at the next sitting of the court, which begins April 3, but it is likely that the hearing of the case will be continued

for at least one month. The answer of the Standard Oil company opens by denying the jurisdiction of the supreme court to hear the case for the reason that the constitution of the state provides that the original jurisdiction of the court is limited to cases relating to revenue, civil cases in which the state is a party, mandamus; que warranto and habeas corpus proceedings. It is contended that the case question belongs to neither of these classes, but that it is criminal in nature and should therefore be tried first in the district court. As a further objection, it is alleged the the law under which the suit was instituted provides that the enforcement of its provisions shall be through the district

court, except on appeal. Dealing with the case as presented by the attorney general, the answer asserts that the petition does not contain facts sufficient to constitute a cause of action. The company admits that it is a corporation organized under the laws of Indiana with a cap-Hal stock of \$1,000,000 for the purpose of manufacturing the products of crude petroleum and selling the same, but denies

RENEW YOUR NERVE.

What is the Use of Being Sick, Fretful. Worried and Weary !

Try Dr. Dix Tonic Tablets.

Half the sickness in this world is due to unstrong nerves. We all know that when the nerves are detanged there is closely following a long series of disorders. The blood gets sluggish, becomes surcharged otsonous acids and ferments and is a vital organ breaks down and the sufferer goes to bed, actually diseased.

If you haven't got to this point you can aver it by using Dr. Dix' Tonic Tablets and their contracts and their contracts and their reached is all the more reason why you should use this remarkable remedy.

MARY J. BROTT.

"You will think me very ungrateful, but not so. I waited until I could say with truth that the tablets was the tonic I thought they were. I find them the best medicine for everything I ever tried. I was a very strong, healthy woman until the critical age set in and since that time i have never known a well day. For five years I have been very bad off, or until I began to take your tablets. I had heart failure, stornach troubles, dyspensia and my skin was the color of light coffee. I am so much better I think I will get strong again in time. My friends thought I would not get well and strong again. You can use my letter if it will be of benefit to you and to the afflicted. I dun't care to have my picture its public. I have lived in Designois forty years and I am well and favorably known. Yours truly, Mrs. Mary I Best Grand Wise. Des Moines, In., writes: known. It is asserted that no complaint has ever ing the defendant with violation of any of t under the statute referred to.

Other Constitutional Points. Other points of unconstitutionality are ited, as follows: Because the penalty to so suffered by the defendant is disproortionale to the nature of the offense and hat its conviction will work as a forfeiture of its estate; that it is ex post facto and mpairs the obligations of contracts; that takes and damages for public use the roperty of citizens of the state; that it deprives some persons of their liberty to make certain contracts, while permitting other specially named persons, laboring persons and assemblies and associations of laboring men, to make the same kind

He cited number of instances where ballots that should have been counted for himself were discarded by the judges of election. Attorney General Smyth today filed an

amended motion for a peremptory writ of mandamus on Judge Baker of Omaha, compelling him to set aside the judgment in the case of the State of Nebraska against the Omaha National bank and to forthwith grant the plaintiff a new trial of the cause according to the principles of law enunciated in the opinion of Judge Sullivan. The original motion of the attorney general asked for a recall of the mandate of the supreme court reversing the former decision in the Omaha National bank case and remanding it for further proceedings. The defendant replied to this motion a few days ago, contending that the court could not recall a mandate after it had been issued. The amended motion of the attorney general now asks for an order compelling the trial court to set aside the judgment rendered.
