

THOMPSON WILL PASS IT UP

Igneres Hall's Charge of Political Treason Laid Against Him.

PROPOSES TO STAND BY HIS DENIAL

Says He Did Not Enter into a Conspiracy to Beat Hayward Out of the Senatorial Election.

LINCOLN, April 5.—(Special Telegram.)—The proposition of Frank M. Hall to donate \$1,000 to any religious, charitable or eleemosynary institution if he fails to establish the truth and authenticity of his printed assertions concerning I. E. Thompson, to which was attached the condition that Thompson agree to withdraw from the senatorial fight if he succeed in establishing their truth, has not been accepted by Mr. Thompson. Hall charged Thompson with political treason, claiming that he signed an agreement with certain fusion members of the last legislature, agreeing to support the principles of the popular and democratic parties if they would elect his son, concerning the Hall proposition, Mr. Thompson says:

"If Mr. Hall has any evidence that I entered into a conspiracy to beat Mr. Hayward out of the seat, let him bring it forth. If he has not, then in fairness and common decency he should close his mouth and put away his pen. "As to his proposition, or any other that Mr. Hall or others may make, I will say that Mr. Hall has put his charge in the shape of 'I believe.' I have made my denial and I stand by it. I am willing to go Mr. Hall one better than he proposes—I will leave my own party if they believe they will give me their help and votes."

At the republican primaries held today delegations to the Lincoln county were elected. Nearly all delegates selected are pledged to endorse the candidacy of D. E. Thompson. The list of candidates decided upon by the Thompson management is: For the county, J. A. W. Lane and C. R. Telford; for the senate from the city, J. C. F. McKesson.

Poynter Releases Mills.

After serving two years and two months of his five-year sentence in the state penitentiary, Benjamin Mills of Harlan county was released April 1 by Governor Poynter, because of the ill-health of the prisoner and his wife. Mills was president of the Republican city bank at that time his cousin, James Whitney, was treasurer. The bank failed and Mills borrowed county money from his cousin for the use of the bank. Whitney was tried before a jury and found guilty on the charge of embezzlement of county funds. He was sentenced to a term of three years in the penitentiary. Mills was then tried on the charge of being an accessory to the embezzlement and found guilty. Although the sum in which he was involved was hundreds of dollars less than that which Whitney embezzled, the sentence was sentenced to five years in state's prison. He was twice put on parole by Governor Poynter. The pardon of Mills was kept a secret by Governor Poynter for political reasons.

The appeal of D. E. Thompson from the action of Secretary Wilson in rejecting his application for water from the Platte river for irrigation and power purposes was dismissed today by the State Board of Irrigation. Mr. Thompson proposed to construct a canal from a point near Lincoln, on the Platte, to Fremont.

The State Banking board today designated the Union State bank of Harvard a state depository. A bond for \$20,000 was filed and approved by the board. Robert E. Davis, the student who mysteriously disappeared from this city Tuesday night, has been located at his home in Fairbury. He left Lincoln unexpectedly without notifying his friends.

PRESBYTERY AT NEBRASKA CITY.

Sixty Ministers Attend and Officers Are Elected. NEBRASKA CITY, April 5.—(Special Telegram.)—The annual meeting of the Nebraska presbytery of the Presbyterian church was held here yesterday and today. About sixty ministers were in attendance. Officers elected for the ensuing year were: Dr. W. M. Hindman of Lincoln, moderator; Rev. W. H. Parker of Table Rock, Rev. J. H. Dausberry of Gresham, clerks. Dr. Hindman and Rev. M. Gilmore, F. R. Frantz and I. S. Tyson were elected delegates to the National Presbytery. The next meeting will be held in Auburn.

Plattsmouth Court Dismissed. PLATTSMOUTH, Neb., April 5.—(Special Telegram.)—After disposing of the following cases Judge Paul Jessen adjourned district court sine die. An unusually large amount of business has been accumulated during the term, and all seem well pleased with the sterling executive abilities of the new judge.

In the case of the First National bank of Omaha against the Bank of Cass County the previous verdict for plaintiffs was set aside and the plaintiff was given leave to amend its petition by interpleading, and the defendant given thirty days in which to answer. Harriet M. Eaton against Eli Eaton was set aside.

"HYOMEI"

KILLS THE GERMS. Ten Minutes Four Times a Day will cure Catarrhs, Bronchitis, Asthma Ten Minutes Every Hour will cure Consumption and Pneumonia. Ten Minutes at Bedtime will cure a Cold or Croup. Five Minutes at any Time will cure a Cough. Your Money Refunded if it Fails.

HYOMEI is the only germicide which can be inhaled. It can be used while you work in the church, at the theatre, or in street cars. Contains no poisonous compounds or dangerous chemicals. Sold by all druggists or sent by mail. Complete directions free. Write for it. Send for all five days treatment free. THE R. T. BOOTH CO., Lincoln, N. B.

GAIN IN WESTERN CLEARINGS

Statement for First Quarter of This Year Compared with 1899.

LOSS IS AT SPECULATIVE CENTERS

Total March Returns Show a Decrease Compared with Last Year When Stock Market Was at Its Height.

NEW YORK, April 5.—Bradstreet's in its issue this week will say, reviewing the bank clearings for the first quarter of 1900: "During March a large amount of speculation was at its height and speculation in these and other securities was of enormous volume. Trade was good and staple prices were advancing. The result of the working of all these forces was reflected in the largest aggregate of bank clearings ever reported. Comparing, as current returns do, with these enormously swollen aggregates it is not surprising to find that the totals for March this year show considerable decreases and, if the details are carefully gone into, little but what is encouraging can be brought out and it will be found that with the total of speculation absent the remainder, which constitutes solid business, is of really very large volume.

The total bank clearings at eighty cities for the month of March, 1900, as reported to Bradstreet's, aggregated \$7,582,225,465, a gain of nearly 10 per cent over the short month of February and a total practically as large as the aggregate of January of this year. Compared with March, 1899, there was a decrease of 12.7 per cent, but compared with March, 1898, the gain is over 35 per cent. As the varying number of business days in the different months cause some differences in the totals, it is noteworthy that the aggregate daily clearings at all cities in March were in excess of \$250,000,000, while in February they were nearly \$250,000,000. In January they were nearly \$210,000,000. In only two groups is the total of bank clearings this year smaller than a year ago in March and these two groups contain the greater speculative centers of the country and such important cities as Boston and Philadelphia.

Western Cities Gain. The decrease in New England is 12.6 per cent, while the falling off in the middle states group is 18.8 per cent. Touching this latter decrease it might be observed that the decrease at New York alone is 18 per cent. Among the sections showing gain the far western cities are prominent, with an increase of 12 per cent, and the western and southern cities come next with gains of respectively 9.6 and 8.7 per cent. The falling off of 2 per cent at Chicago is responsible for the very slight increase, 1.6 per cent, shown by the northern group. A decrease of 23 per cent at Baltimore explains the slight gain, 4.3 per cent, reported by the southern cities, in spite of active cotton speculation this year.

If the clearing at New York are excluded the decrease is only 1.5 per cent, and to heavily reduced speculation at a few cities in fact may be attributed the entire decrease shown in March this year. As illustrative of the expansion of legitimate business, it is interesting to be reminded that one out of seventeen central western cities shows a decrease from March a year ago, only two out of fifteen from northwestern cities, only one out of eight in the southwest, only one out of fifteen in the south and one out of nine in the far west.

Decrease at Speculative Centers. For the first quarter of the calendar year the clearings at eighty cities aggregate \$21,556,496,040, a decrease of 10.5 per cent from 1899, but a gain of 26.7 per cent over 1898, of 74.5 per cent over 1897 and of 86 per cent over 1894. The largest decrease is shown at New York, 18.8 per cent, and the largest increase is shown at New York, 18.8 per cent, and the largest increase is shown at New York, 18.8 per cent.

An Honest Medicine for La Grippe. "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good for me. I have used one bottle and the cough, cold, chills and grip have all left me. I congratulate the manufacturers of an honest medicine."

SOUTH DAKOTA MICA INDUSTRY

New Process of Splitting Small Pieces of Great Importance to the Black Hills. DEADWOOD, S. D., April 5.—(Special Telegram.)—The shipping of mica from Custer county in the southern Black Hills, has now become a permanent industry. Last week 300 tons of mica were shipped to Valparaiso, Ind., by the Chicago mica company. At this place this company has a large plant where a new process has recently been put into practice of splitting small pieces of mica together and making large sheets. This process means a great deal to the Black Hills. The small pieces of mica are purchased by this company for about \$10 per ton. They are cut into uniform sizes and are then pasted together with a freepress. The sheet is then subjected to a heavy pressure, after which it is passed through an intense heat. Most any size of sheet can be manufactured in this way and it is stated that a mica sheet thus made is equal to a leaf of the same size when directly treated in the usual manner. Chicago will take from 100 to 300 tons of mica from Custer county every month.

The first mica shipped from the Black Hills was in 1878, during the great gold excitement. For many years it was supposed that the southern Black Hills at least would become a mica instead of a gold country. It cost at that time 10 cents per pound to get the mica out of the hills as far as Cheyenne by stage, and there was an additional cost of considerable amount to the eastern companies, yet mica mining was very profitably carried on in those early days. Owing to the cost of mining and shipping it then only the largest "books" were handled, some of the early mica produced books as large as two feet square. A great quantity of small-sized sheets were thrown away and these old dumps are now about to become of value owing to the Chicago company's process of cementing the small pieces together. There are a dozen or more old dumps in the county which are covered with hundreds of tons of small books of mica, which is now worth \$10 per ton. There are a good many mica mines in the county as yet unworked, and with a process equal to that of the State of Michigan against Charles O. Williams, charged with statutory rape.

Claimants for Davis Property. PITTSBURG, April 5.—Two more claimants to the property left by Charles E. Davis, who died here last week, have turned up. It is said they will contest the will, which bequeathed the bulk of his estate to his daughter, Mrs. Emma Belmont of New York. A New York attorney here now making an inventory of the date of the will, which was married to his client at Essex Market police court, New York, on May 15, 1876. It is alleged that Davis deserted her a year later and shortly thereafter the daughter married Charles O. Williams, a husband under the will after the payment of all debts is about \$125,000.

Evangelists in Nebraska. TABLE ROCK, Neb., April 5.—(Special Telegram.)—Rev. C. H. St. John and his wife, Rev. Eugene P. St. John, the famous evangelists from Kansas city, delivered gospel addresses on the subject of temperance to a crowded house at the Methodist church here last evening.

District Court at Ponca. PONCA, Neb., April 5.—(Special Telegram.)—District court convened here April 2, with Judge Groves on the bench. The first case called, and the most important case on the docket, was that of the State of Nebraska against Charles O. Williams, charged with statutory rape.
