NO ESPECIALLY BRILLIANT PLAYS MADE

High Wind and Cold Weather Interfere Materially with the Sport-Professionals Clearly Outclass the College Youths.

LINCOLN, April 11,- (Special.) - The last game of the series between the Omaha Western league and the State university base ball teams was won by Omaha this afternoon by a score of 5 to 2. There were no especially brilliant plays during the game, a high wind and a low temperature preventing any meritorious work on either eide. The Omrhas fairly outclassed the 'varsity team in both fielding and batting and apparently had no difficulty in holding the students down to two runs, both of which were made in the last Inning through an error made by McVicker in right field. In the second inning Hoy hit eafe for two bases and succeeded in scoring, followed by Lauzon and Mackey, both of whom were given bases on batta. Baer also scored to the first inning on base on balls. Rebsomer scored in the seventh. DePutron and Crandall crossed the home plate for the 'varsity in the last half of the seventh inning.

NOTABLE MEETING OF ATHLETES South Dakota College Brawn Will

Disport Itself at Mitchell. MITCHELL, S. D., April 11.—(Special.)—
The biggest athletic event of the season will be held at Mitchell on May 17 and 18, when the annual contest of the South Dakota Intercollegiate Athletic association takes place. The following colleges will be represented in the contests: Yankton college, Brookings college, Redfield college, Huson college and Dakota university. On account of the action taken against Vermillion last year, in which several of her victors were barred from taking prizes aiready won by reason of the charge of professionalism. which was sustained against them, that college will not take part in the coming contest. This is to be regretted, because the Vermillion boys always made it interesting for the other colleges in carrying off the prizes. There will be two full days of sports and the official program for the event is as follows: MITCHELL, S. D., April 11.-(Special.)the biggest athletic event of the season

There is a deep, underlying reason why Grape-Nuts food cures people of dyspensia and builds them up into a fine condition of health and strength. Certain principles are abstracted from the grains and made up into the food known as Grape-Nuts, producing a powerful, concentrated food that gives certain and well defined results. The proof i in the eating. There are hundreds of thousands of people that can give testimony regarding the strengthening properties of this famous food.

WOULD BREAK HENNESSY WILL

Brother of the Late Archbishop in a Suit Says There Are Two Later Ones.

DUBUQUE, Is., April 11.-Michael J. Hennessy today filed a petition to have the will of his brother. Archbishop Hennessy, declared null and void. He alleges the will on file is not the last one; that there are two new wills, one disposing of church property, the other of private property. They bear date of January 18, 1900, while the original bears the date of January 17. The new wills are said to have the same witnesses as the first one and to have many crasures and interlines. The wills are in the possession of an attorney, who refuses to make public their provisions.

Result of Arbitration on Railroad Case.

WASHINGTON, April 11 .- The full report of the arbitrators in the Delagoa Bay rallroad case has been received at the State department by mail from Berne. It is found to have been substantially covered by the cable report forwarded by the United States minister at Berne, when the award was announced. The award is under consideration and while the first impulse was to reject it as totally inadequate and unjust, it now seems probable that it must be accepted as final. It is doubted whether, even if the United States government was disposed to courted a woman without telling her lies, repudiate the arbitration, the British government could be induced to do likewise, for middle-aged man, notwithstanding the predominance of the British interests in this particular case there are other considerations which might 215 make it better for England to make a sacrifice in order to remain on good terms with sneaked up and knocked her out with Portugal, against which country the repudia- club and took her to his lenely home, and tion would react.

There might be difficulties in the way of re-establishing the American half-cent as a practical coin which are not presented in the urrency systems of the older countries.

The present penny is considered by many as small as a coin should be, and a coin half as large would be of inconvenient size. The manufacture of the penny of a different metal than bronze and the half-cent of baser metal, with a slight difference in their sizes, might suffice if the colors of the two were sufficiently distinct to prevent confusion. There need be no argument against the introduction of this small bit of money on the ground that it would encumber the pockets, for it would probably never find its way into the pockets that would not welcome it as an evidence of
