Dotheboys Hall Tactics Charged Against Omaha School Teachers.

HERBERT PIERSON TELLS HIS STORY

Mrs. Dollie Larabee, a Teacher in the Central School, Who is Accused, Enters Vigorous Denial.

If current stories are true the policy of Master Squeers of Dotheboys Hall is being practiced in more or less aggravated form in some of the public schools of this city. For several weeks considerable complaint has come of treatment accorded pupils in the Central school, and especially in the room presided over by Mrs. Dollie Larabee.

Good Digestion Horsford's Acid Phosphate Taken regularly after meals, removes the sense of distress, oppression and "all gone" feeling of the stomach.

313 North Twenty-fifth street. Herbert is just beginning his teens and has the appearance of being a bright lad, despite whatever may be said of his mischievous tendencies. His story in substance is that Mrs. Larabee took him to task because he stepped upon a parlor match in the school room, causing it to explode. He was accused of having matches in his pocket. He denied the charge.

"Mrs. Larabee then threw me on the floor in the presence of all the other pupils," said the Pierson boy, "and putting her knee upon my stomach, searched my pockets for matches. She hurt me with her foot. She also keeps a rawhide in the school room and whips the boys every day. I have always got along nicely with my other teachers and Mrs. Larabee is the only one that has had trouble with me. I try to be a good boy in school. She treats all the boys bad, no matter whether they are good or not."

been forcibly punished by Mrs. Larabee, among them Ralph Doud, Earl Nesbitt and several little girls. According to stories of the children the teacher does not hesitate to strike them, usually in the face, in the presence of the whole class. One little girl says she was struck in the face because her drawing lesson was not made in the same room, called Madrie Penn, only the other day was struck violently in the face before her companions for some minor offense. Cruel and unusual punishments seem also to be the favorites of other teachers in the same building. One teacher, now in a different school, is said to have taken sheets of paper and pasted them over the mouths of pupils accused of whispering. Another punishment consists of tying up with a towel the mouths of children who whisper and making them sit in that way as long as a half an hour. The towel, too, is reported to be used without reference to its soiled and sometimes filthy condition.

Mrs. Larabee was asked for her version of the affair. She said in substance: "About six weeks ago I had occasion to correct Herbert Pierson for exploding a match in school. I was not certain that he was the guilty one---that is, I did not see him do it, but all circumstances pointed to him. I accused him. He denied. I then called him up and told him I was going to search his pockets. I found that I could not search him thoroughly in a standing posture, so I laid him upon the floor. I positively deny stamping him. I did go through his pockets carefully and found a bunch of matches. That is all there is to it."

the affair and that Mrs. Larabee's version is correct, to the best of her knowledge. W. W. Mayhew, Merton, Wis., says: "I consider One Minute Cough Cure a most wonderful medicine, quick and safe." It is the only harmless remedy that gives immediate results. It cures coughs, colds, croup, bronchitis, grippe, whooping cough, pneumonia and all throat and lung diseases. Its early use prevents consumption. Children always like it and mothers endorse it.

WILL BE WITH US TWO DAYS New York Central Engineers and Wives Will Enjoy Easter in Omaha.

At midnight a delegation of locomotive engineers, members of the national brotherhood, with their wives, numbering 115 persons, arrived in Omaha enroute eastward from the Pacific coast, and will remain in the city for two days. The members of the party are employees of the New York Central railway. They have been on an excursion that carried them westward by the southern route, and they are making the homeward trip by easy stages, stopping at the principal cities on the way. Arrangements have been made by the Commercial club of Omaha and South Omaha to recognize their visit at this point. At 9 o'clock this morning they will be met at the union depot by a delegation of the Commercial club of this city in company with Mayor Moores and a formal welcome will be extended by the latter. At 10 o'clock the visitors will be taken on a special train to South Omaha, where, under the auspices of the Commercial club of that city, they will be shown the stock yards

and packing houses, and a luncheon will be given at Swift's establishment at 12:30. At 1:30 they will return to Omaha and at 2 p. m. they will visit the largest smelter in the world. At 2 p. m. they will be shown through The Bee building, at 4 p. m. Lininger's art gallery and in the evening they will be the guests of the Commercial club at the Orpheum theater. They party will remain in the city until 4 p. m. Sunday, which will afford them an opportunity to attend Easter services at the churches of Omaha.

H. Clark, Chaucery, Ga., says DeWitt's Witch Hazel Salve cured him of piles that had afflicted him for twenty years. It is also a speedy cure for skin diseases. Beware of dangerous counterfeits.

TAYLOR'S POLITICAL SCHEME His Attempt to Organize "An Independent Labor Party" is Criticized by E. M. Youngs.

little if any political influence in this line on the rank and file. They should have launched the infant savior as an independent labor party, not under cover of organized labor. It would be far better if Asa Taylor would devote his time, energy and wisdom in fulfilling the duties devolving on him as president of the Central Labor union and build up and strengthen organized labor, which is now but a small proportion of the great industrial force, which would then make possible the success of his dreams. Mr. Taylor tells us that a new labor party is necessary as a means of using our political power. Are not the laboring men now in the majority in all of the old parties? Then why start a new party to accomplish this end? Why not combine our strength at the primaries and polls and nominate our own candidates in each party, then no matter which party may win labor would have control. If this is too simple a problem, take another that is not impossible to accomplish. Instead of blowing wind bubbles use the effort to combine the labor vote in the strongest political party, the one in power. This would put labor in full possession of the law-making power. Whatever we do, let us be practical and not bark at the moon.

Mortality Statistics. The following births and deaths were reported at the office of the Board of Health during the twenty-four hours ended at noon Friday: W. E. Cornwell, 692 North Eighteenth, str.; John Brown, 175 South Ninth, boy; 4 Deaths---James A. Roblett, 1215 Jones, 15 years; George Kasten, 314 Ames avenue.

Building Permits. The following permits have been issued from the office of the building inspector: Charles E. Williamson, Fifteenth and Corby, addition, \$20; Joseph Larson, 247 Reed, addition, \$30; Ray Shogren, Twenty-sixth and Franklin, addition, \$10.

Paralysis from Coffee "Some time ago I had a shock of paralysis, which resulted from the continued use of coffee. Dizzy head and confused feelings were constantly with me. I was induced by a physician to leave off coffee and try Postum Food Coffee, with the result that I am now clear-headed and in perfect health." Mrs. F. E. Willoughby, Amherst Station, N. H. Made at the pure food factories of the Postum Cereal Co., Ltd., Battle Creek, Mich.
