Wheat Begins the Day Fairly Active and Firm.

CORN IS STRONG AND / CT VE DURING DAY

Oats Market is Firm, Helped by Corn and Whent-Provisions Are Kept Firm by the Strength in Corn.

CHICAGO, April 25.-The grain and provisions markets were strong today, the former helped principally by higher cables and a good export demand. Wheat closed Awic higher, corn 1%wille better and oats to improved. The market for hog product it the close was from 75c to 15c higher. WHEAT began the day fairly active and firm. Liverpool was strong; receipts were moderate and there was a good demand from foreigners. Moreover, the pressure from longs seemed to be past. Offerings were light and there was a fair emount of buying by commission houses. This caused a gradual advance, which was helped along forcefully by the great corn strength and the close was very close to the top. Shorts covered freely throughout most of the session. A feature of the trade was the case with which the market responded to built influences and the absence of bearish pressure, despite the perfect climatic conditions, even Michigan, Indiana and Ohio raporting prospects somewhat improved. The cash business here was sack, although some other markets reported a fair snot trade. Local shipments were 190,000 bushels. New York reports it lifty loads taken for export. Atlantic port clearances in wheat and flear evers equal to 678,000 bushels, compared with 448,000 a year ago. Minneanolis and Duluth reported 250 cars. against 187 last week and 292 the corresponding day last year. Receipts here were 42 cars. hone of contract grade. There was the usual amount of "changing" done during the day, expecially toward the end. May opened 147%c over vesterday at 650-65%c, sold between 65sc and 65%c, closing %c improved at 66c. July opened 250 last up at 67% 657%c ranged from 67%c to 67%c and closed le higher at 67%c.

Cern was strong and active throughout the day but the trade was not large—offer-legs were too small for that. Many held that it was the leading deal on the board, but the greater part of the time honors seemed to be easy between the big cereal and wheat deals. The market apparently was parity the result of recent heavy buying by buils, as there was a little left to absorb. For such as was offered there was a scramble between longs and shorts with the latter the more urgent in their demands. There was a brisk demand for experience in the result of recent heavy buying by buils, as there was a first left to absorb. For such as was offered there was a scramble between longs and shorts with the latter the more urgent in their demands. There was a brisk demand for experience in futures were strong cables. Liverpool helig strong for buth short and futures light buying by commission houses. This caused a gradual advance, which was helped along

ported to have delayed seeding and inter-runted the movement in various sections. Local receipts were 265 cars. May ranged from 38%c to 39%c, closing the improved at 39%c. July sold between 39%c and 40%c, closing 1%c improved at 40%c. Oats were firm, helped by corn and wheat. Shippers reported the demand im-proved 15,000 bushels worked here. Local receipts were 78 cars. May ranged from 27%c to 23%c closing be over yesterday at 19%c; July from 23%c to 23%c and closed be up at 23%@23%.

The corn strength was the principal factor in the firmness which was displayed in the provisions market. There was not a large trade and notwithstanding prices were higher the feeling was rather bearish. Hogs were strong early, as were provisions, but weakened and were temporarily followed by product. The depression was overcome by the corn strength, shorts covering. July pork sold from \$12.85 to \$12.90 and closed 174c over vesterday at \$12.8714912.99; July lard from \$7.07497.10 to \$7.25, closing lac improved at \$7.25, and July ribs from \$7.00 to \$7.01497.10. Wheat \$6. t 47.0714@7.10. Estimated receipts tomorrow: Wheat, 40 ars; corn. 190 cars; oats, 130 cars; hogs,

..... 3,751 7,325 CATTLE—There were plenty of cattle here today, but the receipts, as has been the rule of late, consisted almost entirely of cornfed steers, with only a sprinkling of other kinds of cattle. The market as a whole was not so active as it has been on a good many days, so that the forenoon was well advanced before a clearance was effected.

At the opening of the market buyers went

was well advanced before a clearance was effected.

At the opening of the market buyers went the rounds of the pens and paid steady prices for such cattle as they happened to need to fill orders, and the cattle that they seemed to want most were the light or handy weights. After such cattle as were needed to fill the more urgent orders were bought the market eased off and became dull and weak to 5c lower, and in extreme cases 10c lower. Holders of heavy cattle thought they were the hardest to sell and that the weakness was the most pronounced on that kind, still the market would have to be quoted as closing lower on all kinds.

would have to be quoted as closing lewer on all kinds.

Cows and heifers were in such moderate supply that they were disposed of early in the morning at just about steady prices, the market on that kind of cattle showing no material change. Bulls, stags, etc., also sold at about the same old prices.

Stockers and feeders seemed to be in pretty good demand, and the market was just about steady, with the trade fairly actual to the same old prices. just about steady, with the trade fairly active. The offerings for the most part were disposed of without trouble. Representative BEEF STEERS

SHEEP—There was only a moderate run of sheep and lambs today, but considering the condition of the market there were just about enough to meet the requirements of buyers. A bunch of Colorado wooled lambs sold at \$7.10, which looked like a good price. The general market however, was slow at yesterday's closing prices. The Jansen wethers sold at \$5.40, as against \$5.70 ten days ago, which will give some idea of the course of the market during the last week or two. Sales given below will show the prices naid for the different kinds of stuff on \$4.6°.

prices hald for the different kinds of scale:
