

RAILROAD TAXES TOO LOW

Harrington of O'Neill Addresses State Board of Equalization.

SAYS ROADS AVOID FAIR SHARE OF TAX

Tax Agent Pollard of the Burlington Comes Forward with Information Showing Assessed Valuations—Improvements Compared.

LINCOLN, May 3.—(Special.)—The state board of equalization, composed of Governor Poynter, Treasurer Meserve and Auditor Cornell, will meet next Monday to equalize the assessment of taxes against railroad and telegraph lines in Nebraska. For the past few years there has been a very noticeable change in the assessed valuation of Nebraska railroads as fixed by the state board, notwithstanding the fact that real values have increased and improvements amounting in the millions have been made.

Mr. Harrington of O'Neill has addressed a communication to the members of the equalization board touching upon many of the inequalities of the railroad assessment and calling attention to the fact that while the value of railroad property in Nebraska has increased the assessed valuation has been allowed to decrease. As an instance it is shown that during the last ten years the railroad mileage of the state has increased 510 miles, which should have resulted in an increase in the assessed valuation of \$3,000,000, but that notwithstanding the fact that real values have increased and improvements amounting in the millions have been made, the assessed valuation of railroads in Nebraska is only \$2,000,000 less than it was ten years ago.

Information from Pollard.

Mr. Pollard next quotes from a letter written by Building Inspector Butler of Omaha, in which he states that during the past few years the assessed valuation of building permits and cost of improvements in the city of Omaha from the year 1893 to 1899, inclusive, making a total of \$6,931,012. It is pointed out that the assessed valuation of Omaha in 1893 was \$23,787,260, or 15 per cent, notwithstanding the \$6,000,000 of improvements made during the time.

Satisfied with steamer.

WEST POINT, Neb., May 3.—(Special.)—The nomination of Senator Steuffer as state treasurer has given intense satisfaction to all classes of Cumulative county people, regardless of politics. The nomination is regarded here as being very opportune at this time, as there is no doubt of its strengthening the ticket materially. Cumulative and a number of other counties in northeast Nebraska are largely settled by German-Americans, about equally divided politically, and the fact of a German-American being placed on the ticket for this office and one of the leading and representative men of that nationality in the state will be of immense benefit in the election. Mr. Steuffer has been prominently identified with financial institutions all his life and will bring to the office a ripe experience and a conservative judgment.

Appointments at David City.

DAVID CITY, Neb., May 3.—(Special.)—The newly-elected officers assumed their duties on May 1st. Mayor Aldrich made the following appointments, which were unanimously confirmed: Chief of police, J. J. West; night police, Joe Calver; engineer, E. P. Harrington; health officer, Dr. S. C. Bude. H. W. Kilhn, continuing from the Taylor, was elected president of the council. A number of school licenses were granted. The financial condition of the city is better than it has been for years, there being \$1,675 to commence the new year with, not including the receipts from annual license issues, and a small amount of the taxes as yet uncollected.

Shearing Nebraska Sheep.

NORFOLK, Neb., May 3.—(Special.)—There are still 7,969 head of sheep to shear at the yards south of the Junction. There are twenty-three shearers at work and it will require about a week to finish up. The work would have been completed earlier but the recent rains have made the yards muddy and the mud works into the fleeces of the animals, making it impossible to handle the work as rapidly as it would otherwise have been. The recent weather is also responsible for the loss of some animals, the company losing about four a day on an average since the rains commenced.

FORM OF NEBRASKA REPUBLICANS

(Corrected from the Original Copy.)

We, the republicans of Nebraska, are unlike our political adversaries, who in late years have been threatening our country and adopted platforms which are a standing protest against the prosperity, grandeur and glory. We rejoice that we are citizens of a mighty nation, whose every step is a step toward the future of the world. We have no quarrel with our political opponents, whose treasury is overflowing with gold; but we have a quarrel with those who have never before, whose laborers are more generally and continuously employed at profitable wages, whose industry and enterprise never before, who have made the people at home and abroad a mountain of wealth; whose commerce in its stupendous strides has outdistanced all competitors, whose achievements are without a parallel; all these are evidences that it is fulfilling its destiny for which it was created, and that democratic protests cannot stay its career.

We endorse the legislation that has strengthened our financial system and made the American dollar safe and secure, that they are kept busy chasing one another around the endless street of business, too good to go into hiding and too good to be hoarded in vaults. We are for the free and unlimited coinage of silver and the claim that there is no gold enough to make upon which to do the business of the country, the United States treasury puts in evidence the \$100,000,000 in gold that it has accumulated within year, and the \$1,000,000,000 in gold now held in the vaults of the United States treasury, and measures of unlimited and countless financial transactions thus sustained.

To the army and navy, which so signally and suddenly humbled our enemy and honored our country and the cause of humanity for their heroic and self-sacrificing deeds, we express our debt of gratitude. The republicans have always been ready to protect its interests and to defend its honor.

FIGHT WITH BOILING WATER

One Lad is Badly Scalded and Perhaps Fatally Injured by Companion.

NEBRASKA CITY, May 3.—(Special.)—As a result of a quarrel between two boys in the cutting room of the packing house here Ted Smith is probably fatally scalded by boiling water. Smith at work near a tub of boiling water when Lije Coeger came for a bucketful. Some words passed between the two and Coeger threw the contents of his bucket over Smith. Coeger was placed in jail and it is feared Smith will die.

SENIOR STUDENTS IN REBELLION.

Majority of Class Suspended at Fremont High School.

FREMONT, Neb., May 3.—(Special.)—When the session of the Fremont High school opened this morning only nine of the thirty members of the senior class were present and three of them left this afternoon, the entire twenty-one being practically suspended. The cause of the trouble was the removal of the clapper of the High school bell by a committee of the seniors. The bell was recovered the day after it was taken and the seniors opened up to taking it and apologized.

Call Council by Warrant.

BEATRICE, Neb., May 3.—(Special Telegram.)—An attempt will be made by the anti-license members of the city council to force a meeting of the council tomorrow night by issuing a warrant for license members of the council.

New Minister for Beatrice.

BRAN-LIKE ECZEMA

This most annoying and obstinate disease assumes different forms, sometimes producing a redness and inflammation of the skin, accompanied with intense itching and burning; again characterized by numerous little pimples with excessive discharge that soon dry, forming crusts which scale off like bran dust. Whatever the form, it is due to a poisoned condition of the blood, which external treatment can not reach.

S. S. S. IS THE ONLY CURE FOR ECZEMA

S. S. S. cures by purging the system of the impurities that produce the disease, when the eruptions and inflammation disappear never to return. S. S. S. is purely vegetable and harmless.

Mr. H. Borden, of Saunsumville, Va., says:

"For thirty-five years I was afflicted with the most tormenting and humiliating disease, and had exhausted the skill of the best physicians in the neighborhood, but could get no relief. I tried S. S. S., which effected a permanent cure in a short while." Books on Blood and Skin Diseases mailed free. S. S. S. Co., Atlanta, Ga.

WHY DOCTORS SO OFTEN FAIL

A Few Words on the Subject By the Great Electro-Medical Specialist.

B. F. TOLSON, M. D., Ph. G., LL. D., Of the State Electro-Medical Institute.

"NOW, GENTLEMEN, I wish to warn you of some of the difficulties which beset you in your effort to get relief from a cure of diseases from which you may be suffering in the first place, if you treat the disease with the old-fashioned medicine, you are not cured by being treated for dyspepsia or kidney trouble, or exactly the cause of your trouble, and cannot or does not apply the proper treatment or remedies, he is just as suffering from a disease which requires electrical treatment. It is a well known fact that diseases of the nervous system are soon complicated with diseases of the muscular system and vice versa, hence the disease becomes Nervous-muscular in its nature and will not yield to either the medical or the electrical specialist. Such cases can only be cured by our own perfected system of combined Electro-Medical treatment as used by the skillful and experienced Electro-Medical Specialists of this Institute and the roughly equipped Institute. The Electro-Medical Specialists of this Institute are each graduates of the best medical colleges and electrical institutes in the world and have had long and valuable experience in their particular specialty; besides the State Electro-Medical Institute is supplied with every known means and device that science has afforded for determining the exact location and nature of any disease and effecting its cure promptly and thoroughly. The great X-Ray apparatus used to help find diseased and deep seated diseases, and after once found and located by our skillful Electro-Medical specialists, there is nothing in the way of a speedy and permanent cure being effected by our only combined Electro-Medical treatment. Young men who have a different form of the disease than I have said and if you heed the advice I have given here I only caution that the benefit you will derive from it will be a blessing to you and your 2, to be remembered to the end of your days.

THE 20TH CENTURY TREATMENT

Has saved thousands of men and women from a life of despair, misery and woe to which they were fast drifting through the use of all other treatments to cure. STATE ELECTRO-MEDICAL INSTITUTE, under the auspices of the Progressive Medical Association of Philadelphia, legally incorporated under the laws of the state.

\$100,000 CAPITAL

Guarantees You Honest, Faithful and Successful Treatment. A large staff of the most eminent and skillful specialists in the world, each of whom is a graduate of the best medical colleges and has devoted a lifetime to his specialty. Specialist, guarantees positive and permanent cures in all cases accepted. WARNING: Certain medical specialists, having learned of our great success, are attempting to copy our Electro-Medical treatment. Don't be deceived by cheap imitations. Electro-Medical treatment can be had only at the State Electro-Medical Institute, 1308 Farnam Street, Omaha, Neb.

The Electro-Medical Specialists of the Different Departments

of this Institute by their special combined Electro-Medical treatment are making many wonderful cures in diseases of the Nose, Throat and Lungs, Head, Heart, Stomach and Bowels, Liver, Kidneys, Rheumatism, Catarrh, Paralysis, Fits, etc. All Diseases Peculiar to Women.
