Country Recovering from Enthusiasm of Unnaturally High Prices.

CONDITIONS OF BUSINESS SATISFACTORY

Clearing Houses of the West and South Show Volume of Business Transacted to Be Larger Than Ever Before.

NEW YORK, May 11 -R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Weekly Review of Trade tomorrow will say.

With wholesome promptness the country is recovering from the enthusiasm for unnaturally high prices. In some lines the ferral manufacturing associations have taken the lead, in others requietion is still deferred because the entire production of still deferred because the entire production of startingency of credits results, nor any sign of starm, and the movement is perhass more healthy than it could have been if entirely controlled by the completition of many simil concerns. The manufacturing associations were healthy than it could have been if entirely controlled by the completion of many simil concerns. The might shall be volume of business transacted, though less than last year in New England and the middle-state cities, is larger than ever before at fifty-four out of sixty-three clearing houses in the entire region, stimulated by high prices, rises above consumption, retarded by them. The weekly output of pig iron, May 1, was 265,356, against 25,432 April 1, white unsold stocks not held by the great step in the pears of business fallures in the entire region, stimulated by high prices, rises above consumption, retarded by the completed by the completed by the completed by the completed by the complete by the proposed in 1857, and 1,665,351 is 1356.

Since the start of the st

Cancellations cause some trouble and slow payments some, and prices of many grades are irregular. Cotton goods are also irregular and in unsatisfactory demand, the prices average 19 per cent higher than No. 1, while cotton has risen 33.7 per cent and is supported by foreign buying. Silk, on the other hand, has failen sharply, 35 to 50 cents for the different grades, and from the highest point in January, 65 cents on Italian, \$1.10 on Japanese, 35 cents on Shanghai and \$1.65 on Canton, imports from China having greatly increased.

The opening of the Philippine ports has also reduced the price of hemp from 15 cents last November to 11 cents.

Shipments of boots and shoes for the first week of May were smaller than in the corresponding week since 1894. Dealers stocks throughout the country are unusually large and many shops are closed, while many more have but little work ahead. Prices asked are practically as hish as they were in January, though leather averages 4 per cent lower.

In spite of good exports, wheat prospects suffice to cause a decline of 1% cents, while corn has declined 2% cents. Corn exports still run much beyond last year's, in two weeks 6.850,500 bushels, against 4,770,600 last year, and Atlantic exports, flour included, have been in two weeks 5,290,508 bushels, against 5,230,705 last year, with Pacific exports 1,904,607 bushels, against 1,008,132 last year.

Of both grains the movement from the

year.

Of both grains the movement from the farms is large enough to dispel all fear that the supply will run short.

Failures for the week have been 192 in the United States, against 185 last year, and fifteen in Canada, against twenty last year.

BRADSTREET'S REVIEW OF TRADE. Inactive Demand and Weaker Prices

NEW YORK, May 11.—Bradstreet's to-

morrow will nay:

The trade situation this week may be summed up in the phrase—inactive demand and weaker prices. While in many respects the industrial situation is easier than it was, the unsettlement in the building trades continues marked, the reflex action being exhibited in unsettled demand for building material and weaker prices for lumber and for many products used in the building industry. Iron and steel buyers are still holding off, most of the business done being for small lots for immediate consumption. Further declines are noted in steel billets and for some finished products, and while sympathetic weakness is reported in the other metals, such as copper, lead and tin, there was a slight increase in the output of pig fron during April and a small gain in furnace and other stocks. Steel rails and other structural iron are conspicuous excentions to the weakness above noted, prices for these products being firmly maintained. In speculative markets dullness has been the feature, wheat, after considerable steadiness, weakening on the favorable government crop report, which is taken to indicate a winter yield of 100,000,000 bushels greater than a year ago, notwithstanding reports of frost killing in the central west. indicate a winter yield of 100,000,000 bushels greater than a year ago, notwithstanding reports of frost killing in the central western states, offset, however, by a high condition in states west of the Mississippi.

Corn has been weaker than wheat, reflecting the less active demand and sympathy with the lowered prices of provisions, the latter due to the heavier receipts of

WEEKLY REVIEW OF TRADE horn and the lessened demand for perk and hogs and the lessened demand for park and lard.
Comparatively good reports come from the retail trade, notwithstanding the backward apring, but the volume of re-order husiness has proved disappointing. Finished cotton and wool products remain steady and cotton is even a shade higher, but wool is a shade lower, in sympathy with the lower prices set for many grades at the London sales.

Primary wool markets are higher than in the east Print cloths though nominally held firm at Pall River, continued to be offered below Liverpool prices.

Coffee is rather weaker owing to lower quotations in European markets, and sugarityely a good report comes from the distributive trade in shoes, but manufacturers are hanging back in their purchases of leather and hides are rather weaker. Relatively the best trade reports increased coast trade, but better weather conditions at the south have tended to brighten trade reports from that section.

Wheat (including flour) shipments for the week aggregate 3.470.554 bushels, against 4-551,220 last week, 3.254.182 in the corresponding week last year, 2,581.575 in 1897 and 1.501.255.784 last year and 202,521.004 in 1897-68.

BRADSTREET'S FINANCIAL REVIEW. tovements of Steel and Wire Officials Watched with Interest. NEW YORK, May 11.—Bradstreet's Finan-

ial Review tomorrow will say:

NEW YORK. May 11—Bradstreet's Financial Review tomorrow will say:

Irregularity regalied this week in the Speculation is exceedingly dull and continues to be almost entirely confined to professional interests. This clement, as noted last week, had become bearish in sentiment and its operations for the short account resulted in morality of the series of careful and the same and changed and eterity confined to professional interests. This clement, as noted last week, had become bearish in sentiment and its operations for the short account resulted in morality of the series of a conservative banking and the same and changed a decision at a critical point, much to the disadvance of the list showed decided of positive liquidation of the series of a conservative banking house retired from the directory of the American Steel and Wire company on the ground that the resignation of the company's chairman, Mr. Gates, was not forthcoming, as it was alleged had been promised. Later on, however, the steep beartsh pressure and the news that one of the plants of the Federal Steel company had been shut down. This last announcement was offset in a measure by the resumption of work at some of the milist of the Steel and Wire company and though and iron products were announced, it seems that the market had sufficiently discounted the unfavorable developments in this connection. At any rate, the iron and steel industrials developed steadmens in the face of the heavy selling that appeared in rail. There was considerable covering of shorts in the leading members of the group and later on Steel and Wire and Federal Steel advanced on the news that Mr. Gates and other officials of the Wire company had resigned and that the vacancies in the following the state of the group and later on Steel and Wire and Federal Steel advanced on the news that Mr. Gates and other officials of the Wire company had resigned and that the vacancies in the following the labor situation in connection with several prominent systems.

PUEBLO, Colo., May 11 .- (Special Telegram.)-The Indians made it tit for tat with the Nebraskans by 12 to 9. The visitors rolled up a large number of errors of which Pueblo took good advantage, the visitors' infield especially being off. Pueblo's three in the first and five in the second were gathered in in this way. Omaha got some revenge in the second, where the Indians went to pieces, especially Parrott, on second, giving Omaha seven runs. With the exception of these instances the game was marked by good playing. Dalrymple's long throw from deep center to the rubber for a double was the feature of the game. Score:

POOR FIELDING AND BAD UMPIRING.

Combination that Cost Sieux City the Second Game at Home.

SIOUX CITY. May 11.—(Special Telegram.)—Sioux City bunched its errors in the seventh inning, all oostly ones, while Des Moines piled up five scores and won the name. That in brief is the story of the Prohibitionists' victory over the Indians today by a score of 6 to 2. Up to the seventh inning Sloux City maintained a comfortable lead. After the seventh it tried hard to even matters up, but the best it could do was to captive a lonesome run in the seventh were principally responsible for Des Moines' basketful of runs. Umpire Traffley's bad decisions aided matters considerably. Twice in succession he called Des Moines runners safe when they were clearly out. With the bases filled through errors and these decisions. Hines siugged out a pretty home run that brought in four of the five scores. Weimer was in the box for Des Moines and pitched a magnificent game. McDonald for Sloux City played an equally good game, although he is credited with a fewer number of strike-outs. The Prohibitionists did a good line of batting, capturing seven hits. The crowd was small, not more than 500 being in attendance, Score:

McKibben Protests the Second Game at Denver Owing to the Umpire.

DENVER, May II.—(Special Telegram.)—
The Saints lost the second game to Denver today, but McKibben filed a protest on the ground that Umpire Vandyke discriminated against his team and changed a decision at a critical point, much to the disadvantage of the Saints. The Saints had the game well in hand up to the seventh inning, despite the rank partiality shown Tebeau's team by Umpire Vandyke. With a man on first and second bases, Kling misunderstood a signal from Maupin and threw to third to pick off a base runner. Strang falled to cover the bag and Kling's throw went wild into left field, allowing two men to score. The Saints made ten hits off Eyler, but they were scattering, while Tebeau's band bunched hits when there were men on bases. The game was the prettiest so far played here this season. Fresident Hickey will be asked to remove Vandyke.

Grinnell Team's Poor Record, GRINNELL, Ia., May 11.—(Special.)—The Iowa college base ball team returned to day from an extended swing around the country. Their achievements were not of a character to make Grinnell's prospects a character to make Grinnell's prospects for winning the silver bat with the intercollegiate state championship of the brightest. The first game of the trip was the league game with the Agricultural college at Ames, resulting in a victory for the Ames team with a score of 13 to 12. Two games were played with the University of Minnesota. Both games were won by the Gophers, the first with a score of 3 to 1, the second with a score of 32 to 4. The fourth game was with the University of Hamilin and resulted in a victory for Hamilin, the score being the close one of 8 to 9. The team was not in the best condition, though it had been strengthened

Foresters' May Party.

The two-story brick dwelling at 102 North Eighteenth street, occupied by Mrs. Dunn as a boarding house, was damaged by fire as a boarding house, was damaged by fire to the extent of \$50 Friday afternoon.

One Woman to Another "In the fall of 1898 I was in a deplorable condition. I had stomach trouble in the very worst form. Nothing at all would stay on my stomach, and I had to almost stave myself. My side pained me constantly. The lack of nourishment caused me to lose flesh rapidly; I dropped from 188 to 87 pounds, growing weaker all the time. There was not the alightest color in my face. I was simply a shadow of my former self. Able physicians treated me, but failed absolutely. I was a complete week when a friend toid me to try Dr. Williams Fink Fills for Fale People. One box greatly improved my condition; it was astonishing bow quickly they built me up. Ibelieve Dr. Williams' Pink Pills for Pale People saved my life. I was enabled to sleep, and in the morning I felt refreshed and rested. My stomach was strengthened, what I are benefited me, my weight increased, and I soon regalized all I had lost. I am now well and strong. I cannot speak too highly of Dr. Williams' Pink Pills for Pale People." NELLIE CAMERON. Susscribed and sworn to before me, time 3d day of July, 1899. STACY D. BEHE. Notary Public, All womankind should know and understand the virtues of Dr. Williams' Pink Pilis for Pale People. Bold by all druggists. Prepared only by THE DR. WILLIAMS MEDICINE CO., Schenectady, N. Y.

Dissolves and Eliminates Calculi and Stone Both of the Kidney and Bladder.

"A Veritable Antidote For Albuminuria and Bright's Disease Acute and Chronic."

Case of Mr. S. Reported by Dr. G. H. Pierce, of Danbury, Conn., in the New England Medical Monthly.

ago consulted me. I advised that his bladder be explored, for fereign body, which I was sure was present. On entering the bladder I encountered a large mass, which from the characteristic click, I decided was a stone. It was something immense, and larger than anything that I have ever known of. * * I prescribed BUFFALO LETHIA WATER, a gobiet times a day, and a good liberal diet, together with tonics. In three days he called me, and showing me the vessel which he had used during the night asked me if the debris was not disintegrated stone. I was amazed to see the quantity of brick-

"Mr. S., American, 47 years old, four months

dust, or rather ivon-rust, looking deposit which was present. The material kept coming away, and sometimes large particles came from time to time. After all were passed, which took three and one half months, the largest particles which were saved WEIGHED TWO OUNCES AND TWENTY-SEVEN GRAINS. To-day I passed a sound into his bladder and found it entirely Albuminuria and Bright's Disease.

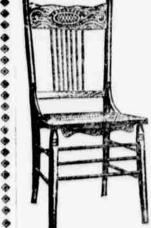

Dr. William H. Drummond, Professor of Medical Jurisprudence Bishops' University, Montreal, Canada:

"In the Acute and Chronic Nephritis .
[BRIGHT'S DISEASE OF THE KIDNEYS], of Gouty and Rheumatic origin, as well as in the "This photograph shows the ex. graver Albuminuria of Pregnancy, I have found act size and shape of some of the BUFFALO LITHIA WATER to act as a larger specimens of disintegrated stone discharged by Mr. S., under the action of BUFFALO LITHIA NATURAL AGENT POSSESSING THIS IM-WATER."

BUFFALO LITHIA WATER is for sale by Grocers and Druggists generally Testimonials which defy all imputation or questions sent to any address
