RESOLUTION TO CENSURE SHAW FAILS

Iowa Augustina Synod of the Swedish Lutheran Churches Pass Resolutions Condemning Dancing, Cards and Theatergoing.

DES MOINES, May 12 .- (Special Telegram.)-The prohibitionists of Polk county in convention today sounded a note of warning to all persons who might be considering the advisability of entering the saloon or liquor business in the state. The warn ing was issued in the shape of a resolution, which was adopted without any objection. It is as follows: "We hereby warn all persons contemplating the investment of capital in the liquor business in the state of lowa that such investments are made at their own risk, since all such investments are against the genlus of our American institutions and the constitutional enactment of the people of the state of Iowa and against every moral, social and financial right and subject to interruption and confiscation without warning at any time."

An effort was also made by Thomas G. Orwig to have passed a resolution censuring Governor Shaw and Secretary Dobson on account of the recent charges preferred against them by Treasurer Herriott, but the delegates by an almost unanimous vote refused to pase the resolution. It was as follows: "We deplore that there is cause for complaint against him (referring to Governor Shaw) for such reason (referring to the resolution on the liquor traffic) in addition to the charges against him and the secretary of state, George L. Maps Sent to Paris.

The dairy commissioner received a copy of the map of Iowa sent to Paris by the United States Department of Agriculture, showing the number of creameries in the state and giving other dairy statistics. The only dairy maps sent were the ones showing the Iowa creameries and the one of New York locating the cheese factories. The map received this morning shows there are 779 creameries in the state and that their average value is \$3,145. The output of butter from creameries is 112,930 pounds annually, the total output 87,859,540. The total value of this is estimated at \$15,814,717. There are sixty-nine cheese factories in the state and the average cheese output is 3,669,109 pounds.

SHOOTING AFFRAY AT DUNLAP Tom Taylor Seeks Revenge for the Loss of His Daughter's Position.

DUNLAP, Ia., May 12.-(Special.)-A booting affray occurred here this morning on the main business street, which came near resulting in the murder of E. H. Barrett, senior son of the firm of M. Barrett & Sons. His assailant was Tom Taylor, a long time resident and at present an insurance agent and secretary of the school board of Dunlap. The occasion of the shooting is probably due to the election of school teachers which took place last evening.

Mr. Taylor's daughter was an applicant for re-election to a position in the schools, but was defeated. Although not a director, to Mr. Barrett was ascribed the cause of Miss Taylor's retirement. Her father became very much exercised over the matter and at the postoffice corner this morning, without any warning, commenced firing at Mr. Barrett, the latter rushing into the street and running for a place of safety. Taylor deliberately stood on the postoffice steps and aiming his revolver at Barrett fired four

shots after his man. Barrett called to bystanders to go for Dr store, where he was cared for until the doctor arrived. He was taken to the office of Attorney Traver where he seen fell into a stupor and was beyond knowing anybody or anything Later he was removed to the office of a justice and his preliminary hearing was
