MONDELL IS FEELING EASY

Says Wyoming Republicans Endorse Course of Their Representatives.

FOR THE DELEGATION TO PHILADELPHIA

Sovernor Richards, Senator Warren and Two Men in Private Life Will Make Up the List from Wyoming.

WASHINGTON, May 12 .- (Special Tele gram.)-Congressman Mondell will leave for Wyoming tomorrow to be in attendance upon the convention of the Wyoming republicans which will be held at Cheyenne next Wednesday. Speaking of the situation generally in the state, Mr. Mondell said the outlook is exceedingly good for republican success, and that the course of the Wyoming delegation in congress is receiving the support of republicans in general. As to the delegation to the national convention, Mr. Mondell said, in all probability it would be Sepator Warren, Governor Richards and two other men outside of official life. He said both Senator Clark and himself had been suggested as delegates, but he believed if there was anyone else in the state desirous of going he should get out of the way in their favor.

Regarding charges made against the Union Pacific for employing Japanese labor, Congressman Mondell said that investigation showed that white labor had been let off for Japanese labor at Medicine Lodge. but in other cases it was lack of white labor that was compelling the railroads of the west to employ Japanese labor. The white man would rather work on the grade for \$2 and \$2.50 per day, than on sections at \$1.65, and it is for this reason that Japanese labor is being imported in order that the work of constructing new railway lines might not be stopped.

John A. McShane, who is interested in building the new Burlington & Missouri River railroad from Montana into Wyoming, will in all probability ask the general land office for permission to cut timber for ties

along the proposed route. Captain H. E. Palmer, who has been laboring earnestly to secure consideration for the Hot Springs national home bill, left for New York today on his way to Omaha Captain Palmer has been aided in his efforts to get the speaker's concent for consideration by Mr. Rosewater, General Manderson, Senator Thurston and it is understood Senator Hanna too will ask the speaker to allow the bill to come up for consideration. It is believed, however, that the promise made by Speaker Henderson to the first delegation who called upon him in behalf of the bill will stand, and that nothing will be done with the measure until the short session in December.

The Hotel Stratford in Philadelphia, which Mr. Rosewater has selected as Nebraska headquarters, is immediately across Broad street from the Hotel Walton, which has been retained as national committee headquarters. The selection of the hotel is considered es ially happy, in view of its close proximity to all the great hotels of the city, and the Stratford is among the leaders. An order was issued today discontinuing the postoffice at Minere' Delight, Fremont county, Wyo. Mail will be sent to Atlantic

L. G. Cook was today appointed postmaste at Middle River, Madison county, la.; also A. L. Dickens, at Strousetor, Grant county, S. D.

HEADQUARTERS AT LINCOLN

J. H. Edmisten Will Run the Early Part of the Fusion Populist Campaign There.

LINCOLN, Neb., May 12.—The populist national committee will establish headquarters in Lincoln and J. H. Edmisten, vice chairman, will be in charge. This announcement was made today by Mr. Edmisten on his return from Sioux Falls. Senator Butler, the chairman, will be kept busy with other interests until August. After that he will establish an eastern headquarters at

Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effects matter which poisons and clogs the blood, and it becomes sour and acid. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and cruption, and by certain peculiarities we recognize Eczema. Tetter, Acne. Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion S. S. S., nature's own remedy, made of rocts, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin woubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to referment in the blood and cause a fresh attack.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been carring blood and skin diseases for half a cen-

tury; no other medicine can show such a record. S. S. S. contains no poisonous minerals — is purely vegetable and harmless. Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest Skin Diseases will be sent free upon application.
