STANDARD OIL WILL APPEAL

Files Exceptions to the Decision of the State Supreme Court.

SMYTH'S DEMURRER MADE THE BASIS

First Step to an Actual Test of the Nebraska Anti-Trust Law Made by the Trust Attacked.

LINCOLN, May 18.—(Special.)—The attorneys for the Standard Oil company have notified Chief Justice Norval that they will file exceptions to the decision of the supreme court in sustaining the attorney general's demurrer, the purpose of which was to strike out certain portions of their answer in the Standard Oil trust case. This is thought to be a preliminary step to an appeal to the United States supreme court, where the constitutionality of the Nebraska anti-trust law will be tested.

In the answer attacked by the attorney general the point was raised that the law under which the suit was instituted was contrary to the constitution. The attorney general asked to have this portion of the answer stricken out and the court sustained him in his position. Should the case remain in the jurisdiction of the supreme court of Nebraska the questions of fact involved in the attorney general's petition would not be considered without going into any further discussion of the constitutional phase.

If the case is appealed to the United States court the demurrer of the attorney general will again be considered and the decision of the state court will probably be either affirmed or reversed. The exceptions have not been filed with the clerk of the court and nothing is known of their contents. Judge Norval was notified by telegram that they would be filed and he today notified Clerk Herndon of the fact.

Secretary of State Porter will appeal from the order of the district court of this county compelling him to sign the old Home for the Friendless vouchers presented by Mrs. M. Davis. The vouchers were signed today pursuant to the order of the court, but Secretary Porter will contest the payment of the claims until all resources are exhausted. The claims are for money expended and services performed by the officers of the institution who refused to give way to the appointment of the new board.

University Commencement Plans. The baccalaureate sermon to the graduating class of the State university will be delivered this year by Acting Chancellor Bessey in the university chapel. It has been the custom in past years to have this sermon delivered in an opera house, usually by some divine from out of the city. Chancellor Bessey has decided to inaugurate a new plan and this year the sermon will be delivered without painted scenery and the glare of footlights as counter attractions. Another innovation in the graduation exercises is the discontinuance of the commencement procession, which for years has been one of the attractions of commencement week. The graduating exercises this year will be held in the Auditorium June 7. The annual Phi Beta Kappa banquet will be held at the Oliver theater June 6, and the class reunions and business meetings will be held on the same day.

The following students have been chosen by the university faculty for members of the Sigma Chi (scholarship) fraternity: W. H. H. Moore, C. E. Redell, H. W. Graybill, C. F. Hagenow and A. L. Hoagland. From the resident graduates: H. T. Beans, H. S. Evans, B. H. Ransom, C. N. Gould, A. O. Peterson and A. B. Lewis. From the faculty: Dr. A. T. Perry, R. W. Thatcher, Dr. C. A. Skinner and Dr. T. L. Bolton.

The university cadet battalion, under command of Commandant LaRue Brown, left for Beatrice this afternoon for a three days' two-mile march. Two mild cases of smallpox were discovered by the health authorities of the city last night.

UNKNOWN MAN FALLS FROM TRAIN. One Arm and One Leg Cut Off—Injuries Are Fatal.

GIBBON, Neb., May 18.—(Special Telegram.)—An unknown man fell off the Union Pacific train No. 22 this evening and the train passed over him, severing one arm and one leg and otherwise injuring him. He is yet alive, but can survive but a short time. No one saw him fall. A brakeman first discovered him beside the rails. Four other men were in the same car and the marshal has taken him in custody. They assert they left him in the car and got out before he was hurt. In case of death an inquest will be held.

MAN FOUND DEAD ON THE PRAIRIE. Indications Are That Murder Has Been Committed.

HARRISON, Neb., May 18.—(Special Telegram.)—Alois Staudenmaier was found dead on the prairie ten miles east of Harrison and one mile from the station of Andrews. Indications are that he was murdered. Particulars not available.

Complaining About Over. FARNAM, Neb., May 18.—(Special Telegram.)—Corn planting is nearly finished in this locality and a very much larger area will be planted than usual. The loss of the wheat crop last year, the increase in live stock among the farmers, the adoption of stock feeding, instead of grain selling, as a business, have caused this change. Cereals are spring wheat has been sown and the report from all quarters is that it is in fine condition. The area of wheat lands is not more than half that of last year, very little winter wheat having been put in. Prospects for a crop are excellent.

FARMER'S NECK BROKEN. MCCOOK, Neb., May 17.—(Special Telegram.)—John Real, a highly respected and well known farmer, yesterday morning, this county, was killed in a runaway accident last evening on his farm about six miles west of this city, his neck being broken. No one saw the accident so particulars are lacking. The body was sent to Grafton tonight for burial at that place, his former home.

Charged With Fraud. FAIRBURY, Neb., May 18.—(Special Telegram.)—Sheep thieft yesterday arrested near Hebron a man who gave the name of R. H. Johnson, on the charge of procuring a check from the Fairbury Milling company by

THE NERVOUS DYSPEPSIA OF SPRINGTIME.

MAJOR M. W. LANG.

Major M. W. Lang, Assistant Paymaster U. S. V., of 1802 S. street, N. W., Washington, D. C., says the following in regard to Perina: "I have used Perina for nervous dyspepsia for the last three weeks. I can cordially recommend it to any one suffering from a similar complaint, especially if it is of the kind which is quite too common a complaint among Americans. It has distinctly benefited me, restoring me to a normal condition of good health when I was utterly incapacitated by a disorder so easily cured by a few doses of really good medicine."

C. W. Campbell.

John F. Carter, 326 Nicholson street, Richmond, Va., writes: "I take great pleasure in recommending Perina for all who are suffering with catarrh of the stomach. I have been a sufferer for six years, and had seven or eight of the best doctors here in Perina. They pronounced it dyspepsia. The last one I had told me what was the matter with me. I wrote to you and commenced on your wonderful medicine, Perina, and after taking eight bottles I consider myself a well man. I told several friends about it, and all of them feel better since taking it. I was down two or three months at a time, unable to do anything; haven't had a spell since taking your medicine."

"Any one suffering with stomach trouble that will take your medicine regularly will be cured. My druggist told me lots of people come in and call for the medicine that cures me." S. B. Coates, Muncie, Ind., 1332 East Washington street, writes: "I have just recovered from a very bad case of dyspepsia and was my druggist to the point. I have been troubled with dyspepsia for five years. Doctors did me little or no good. One bottle of Perina gave me relief and after using two bottles the dyspepsia has all disappeared. I can eat and sleep and feel like a new man." Mr. H. D. Carver, Brockton, Mass., 1044 Main street, writes: "About ten years ago I was greatly distressed by dyspepsia, and took no comfort day or night. I tried everything that physicians prescribed with no relief whatsoever. A friend insisted on my using Perina. It worked wonders and entirely cured me of the disagreeable disease. I cannot speak too highly of Perina." The symptoms of catarrhal dyspepsia are: coated tongue, pain or heavy feeling in the stomach, sour stomach, belching of gas, dizzy head, sometimes headache, despondent feelings, loss of appetite, palpitation of heart and irregularity of the bowels. For this catarrh Perina is found to be an admirable remedy. In all cases it brings prompt relief to the painful symptoms, and in a large per cent of the cases it makes a permanent cure. Perina soothes the inflamed mucous surface, and thus strikes at the root of the disease. Mr. Eli Lefevre, Jr., New Hudson, Oakland County, Mich., Box 52, writes: "I had been troubled with catarrh for a number of years, and had been taking medicine for it, but it did me no good. In reading one of Dr. Hartman's books entitled 'Winter Catarrh,' I discovered that Perina was good for catarrh. After I had taken only three bottles of Perina I was cured of the catarrh. I now advise everybody trouble with catarrh to take Dr. Hartman's Perina, as it is a sure cure for catarrh."

"Friends to whom I recommended Perina, tell me that it is also good for headache, dizziness and pain in the stomach." In cases where the inflammation has been so severe and continued as to produce extreme irritability of the stomach, the remedy may be taken in small doses at first, diluted in water, but as soon as the improvement is sufficient to permit the whole dose to be taken undiluted, it is a better way and the cure is much more rapid. Perina is also a spring medicine which at once removes the cause of all affections peculiar to the spring season, by purifying the blood of all contamination and invigorating the whole system. For a free book on catarrh address The Perina Medicine Company, Columbus, Ohio.

BEATRICE AFFAIRS MUDDLED

Intrigues of Populist Politicians Demoralizing to the Institute.

SCANDALS WILL BE HEARD BEFORE COURT

Governor's Answer in a Surprise to Lang's Attorneys, Judge Kretzinger, and He Asks Continuance of Hearing on the Injunction.

BEATRICE, May 18.—(Special.)—The community of Beatrice deplores the constant disturbed conditions of affairs out at the Institute for Feeble-Minded near this city. It has appeared for the past few years that the institute has been a harbor for feeble-minded, broken down politicians rather than for feeble-minded youth. The continued effort on the part of the populist state administration to make the institute the foot ball for political intrigues has resulted in the complete demoralization of the institute.

The disorganization began with Steward L. A. Sheridan undertaking to manage the institute for D. C. P. Fall, who was appointed superintendent upon the retirement of Dr. Armstrong, the result being the removal of both these gentlemen. Under the administration of D. C. G. Fiske of Omaha the institute began to resume its old-time usefulness and vigor. Just at the height of its success Dr. Sprague was summarily removed and the present incumbent appointed superintendent by Governor Payne. At the same time was appointed for steward one Milton of Fremont. This gentleman conceived the idea that he was equal in power with Superintendent Lang and hence trouble began and has continued with growing intensity. The public is already familiar with the petty scandals and the consequent investigations for the institute which were a vindication for Dr. Lang, but which now appears to have confirmed about all the charges filed against him, according to the governor's answer to the injunction brought by Dr. Lang to restrain the governor and others from interfering with him, although he had filed his resignation to take effect May 15.

Miss Candee Discharged. Only a few days ago Miss Carrie Candee of Omaha, a teacher at the institute, was summarily dismissed. Miss Candee had testified against Dr. Lang before the governor in March, but she and all others who testified were assured that their positions would not be disturbed because of any evidence they might give pro or con in the case. Miss Candee remained at the institute until Tuesday last, when she was summarily ordered from the premises by Dr. Lang. It is presumed that this summary action of Dr. Lang was stimulated by the accidental fact that Miss Candee sent to the telephone to answer a call from Lincoln. It happened to be an aunt who wished to talk with her and from what Dr. Lang could hear of the conversation it is assumed he conceived that she was talking to some of the authorities in reference to institute affairs. He at once discharged her, so the states, and ordered her to pack her trunk and leave the institute. He offered to drive her down Lane a clean bill to the house of a friend where she could reach a telephone and notified Beatrice relatives of her dilemma. A conveyance was at once sent for her, a gentleman relative to accompany it and they returned to the asylum to demand an explanation. Dr. Lang braced himself in the door of the institute and forbade her or her relative to enter and denied them the use of the telephone and further ordered them off of the premises. The gentleman accompanying Miss Candee was not to be bluff by the state doctor and informed him that he would take his own time to depart and threatened him with arrest for attempted assault upon Miss Candee by taking her by the shoulders and forcing her out of the institute. The gentleman accompanying her was much surprised yesterday afternoon upon reading the governor's answer, in which the incompetency of Dr. Lang is asserted in the strongest terms. He had all along supposed that the governor had given Lane a clean bill of health, as had all of Dr. Lang's friends. Judge Kretzinger thereupon asked a continuance of the hearing on the injunction until he could prepare an answer to the new issues brought out by the governor.

In the meanwhile affairs at the institute are in a disordered state. One of the patients, a trusty known as "Hans," has disappeared—frightened away, it is said, by some threat that was made against him by some of the employees. A spirit of demoralization prevails even among the inmates, because of the word being given out that the institute is to close June 1.

Affairs at the Feeble-Minded institute took another turn this afternoon when Dr. Lang ordered Miss Brady, one of the teachers, to perform a certain piece of work and she refused. Dr. Lang, as superintendent, then commanded her to do her duty as a teacher and she informed him that she had been advised not to obey his orders. Inquiry of the matron developed the fact that all teachers have similar instructions. Dr. Lang informed them that he was in charge by order of the court until the 25th of May and proposed to run the institute until that time. He summarily discharged Miss Brady.

HIGHWAYMEN AT BEATRICE. Farmer Loses Gallon of Whisky and Two Bottles of Beer.

BEATRICE, Neb., May 18.—(Special Telegram.)—A young farmer named Hoka was held up and robbed of a small sum of money, a gallon of whisky and two bottles of beer near the Rock Island depot last night by a couple of footpads. Ed Hakeey, a barber, was also stopped by footpads about 11 o'clock last night. He escaped without surrendering any valuables.

STILL TALKING OF FROST CASE. Coroner's Jury Did Not Return Verdict on Merits of Case.

YORK, Neb., May 18.—(Special.)—The termination of the Frost poisoning sensation is the principal subject discussed on the streets of business houses and homes. Mrs. Frost has been released from jail. While it is supposed by many that the action of the coroner's jury is final, the county attorney can at any time cause her arrest if further analysis shows quantities of arsenic and phosphorus sufficient to cause death. If it were not for the fact that the jury was composed of the leading business men there would be some complaint over her release.

Just what Mrs. Frost intends to do or where she will make her future home is not known. The following is a report of the jury to the coroner: We, the undersigned jurors, who were summoned by writ on April 27, 1900, to hold an inquest upon the body of Charles Frost, deceased, have examined and heard a large number of witnesses and caused an autopsy to be held, at which a portion of the body was removed and placed in the hands of a competent chemist for chemical examination and analysis. The chemist has not yet submitted a complete analysis of the parts of the body so placed with him, and we are unable to complete our report and reach a verdict at the present time and it will be necessary to adjourn until the final report and analysis is completed and submitted by the said chemist to the jury. We, therefore, request that you, as coroner, instruct the jury to adjourn until the final report and analysis is completed and submitted by the said chemist to the jury. Just what Mrs. Frost intends to do or where she will make her future home is not known. The following is a report of the jury to the coroner: We, the undersigned jurors, who were summoned by writ on April 27, 1900, to hold an inquest upon the body of Charles Frost, deceased, have examined and heard a large number of witnesses and caused an autopsy to be held, at which a portion of the body was removed and placed in the hands of a competent chemist for chemical examination and analysis.
