DENIES BEING INTOXICATED

Mrs. Nelson Was Only Trying to Get Nerve Enough to Lick Simon.

Mrs. Rose Nelson, a dressmaker, 1204 Capitol avenue, in police court yesterday denied that she had been drunk, as charged, but admitted she had taken a few bowls.

Monday noon she went to a boarding house at Twelfth and Davenport streets to get lunch. As several customers were awaiting her return in the dressmaking parlors, however, she thought to save time by carrying the food to her home on a tray.

Leaving the boarding house, she tray pointed on the tip of her fingers, when she met a paper hanger named Simon, who was in the act of hitching his horse to a post just outside the yard.

"Then," she says, "I came to the police station to complain against him and they wouldn't give me any satisfaction, so I took a few bowls to make him work up to nerve enough to lick him."

MAKING GOOD PROGRESS

Two Well Known Omaha Men Who Are Climbing Up the Military Ladder.

A roster of troops in the Department of Cuba has just been received in this city showing the rank and location of each officer on the island. Two young men who have made good progress in the service were formerly stationed in Omaha and are well known to officials of the Department of the Missouri. Alexander Miller, who is now chief of the returns division, was formerly a clerk to the ordnance officer in Omaha.

The commanding officer at Fort Riley, Kan., has been instructed to send Corporal Robert H. Higgins, Troop A, Eighth Cavalry, to Fort Crook where he will undergo examination for promotion. Thus far five candidates have been selected to appear before the examination board.

Antiseptic Dressings

In the recent epidemic of smallpox which proved less serious than formerly. This is owing to the use of antiseptic dressing which cause the parts to heal without maturation and in much less time than by the old treatment. Every family may use a similar treatment for cuts, abrasions and burns, viz: Chamberlain's Pain Balm. It acts on the same principle as the antiseptic dressings of the army surgeons and is the best home treatment that can be given such injuries. It causes them to heal quickly and without maturation. It also allays the pain of a burn or scald almost instantly. It is most widely known, however, as a cure for rheumatism.

CONFERENCE IS FRUITLESS

Woodworkers and Mill Owners Farther Apart than Ever and Strike Will Continue.

The woodworkers invited the mill owners to a conference at the Labor Temple yesterday morning to see if some amicable settlement might not be made. Two of the mill owners appeared, but refused to recognize the union as a body, and asked that a committee be appointed to confer with them.

The union agreed to do and a committee of six was selected. To the committee the mill owners refused to recognize the union and were unwilling to make any proposition whatever. The union believes that its present position is well taken, however, and will refuse to yield.

READY TO BEGIN COUNTING

Assistant Director Wines Says Preliminaries Are Completed and Everything in Good Shape.

Prof. Frederick H. Wines, assistant director of the census, passed through Omaha yesterday, stopping over to visit Census Supervisor Wheeler, under whose guidance he made a brief tour of observation in the city. Prof. Wines has been at Topeka, where he addressed a church gathering and afterward met a delegation of census supervisors at Salt Lake City to give them their final instructions. From Omaha he went east yesterday morning.

"The census work is in good shape," said Prof. Wines, "and everything about ready to start. This is particularly so in this district, where but few more preparatory strokes have to be put in. I am afraid, however, that the people of Omaha are likely to be disappointed in the census figures this year, which cannot be expected to show the same rate of growth as before. You all know the reason. It is because the census of 1890 for Omaha was abnormally inflated and we do not propose to follow any such example this year. The census of 1900 will give the exact facts as to the population so far as we can get them, although there are many questions which some people cannot answer at all. It is surprising the number of persons who do not know how old they are for example, or where they were born. But we are going to do the best we can."

An opportunity to visit the East Pleasantly and economically is afforded by the tourist tickets on sale via the Lake Shore & Michigan Southern railway on and after June 1st. Chautauque Lake, Niagara Falls, the St. Lawrence river, White Mountain and the Atlantic coast resorts are among the more important points reached. Summer edition of "Book of Trains" showing specimen tours will be of interest in arranging for your trip. Sent free on application to B. P. Humphrey, T. P. A., Kansas City, Mo., or B. P. Byron, G. W. A., room 34 Station Bldg., Chicago.

The new twenty-six hour Boston train is now in service.

Put a Plate of Salt in Your Refrigerator

(Salt absorbs moisture, you know) If the salt is wet tomorrow the refrigerator is dangerous. In the ordinary zinc lined refrigerator that an agent has been teaching that accumulates and food becomes tainted and infected with putrid germs. Your safety lies in the Herrick Refrigerator because the circulation is perfect on four sides as well as top and bottom of ice. A plate of salt in a Herrick will be dry tomorrow or a week hence.
