To Lovers of Good Food.

Many of the best products of the baker lose their goodness before they reach the consumer. To overcome this has long been the greatest problem of baking science. Now we have solved it. The wonderful package used for the preservation of Uneeda Biscuit proved to be the method which all bakers were seeking. It is airtight and moisture proof. Dust and odor can not penetrate it. The delicate freshness and flavor of the contents cannot escape. Whether you live next door to the baker or in the most remote part of the country, the baker's best products will reach you as fresh and crisp and good as when they were drawn from the oven. The following biscuit baked by us are now to be had in this wonderful In-er-seal package.

Soda Biscuit Milk Biscuit Saratoga Flakes Long Branch Biscuit **Butter Crackers Graham Biscuit Oatmeal Biscuit Ginger Snaps Handmade** Pretzelettes Vanilla Wafers

The genuine package is patented and contains only our products. It can always be identified by the design of the In-er-seal on each end.

The other plan is to bring the Elkhorn trains in from South Omaha via the

Union Pacific tracks, using the Irvington-South Omaha line in order to permit such connection with the Union Pacific.

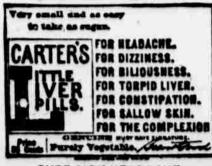

The present drawback to the consummation of this plan is the added expense the Eikhorn would incur in changing its depots. Officials are carefully considering the matter, and in case they decide that the added influence and the enlarged traffic which would revert to their line by reason of making close depot connections with lines from the east will justify the additional expense, the Webster street depot will probably cease to furnish accommodations and the union depot be substituted in its stead.

Radical Time Card Changes.

The Missouri Pacific will adopt June 10 a new time card, whereby radical changes in in the evening instead of at noon as at
