NEW STRING OF VICTORIES IS STARTED

Hoodeo of Last Week Broken by a Strenk of Hitting and the Pitching of Long Tammas Hughes.

Victory has once more perched itself upon the banners of Colonel Keith's Colts. It was a foregone conclusion that the Champe would win Sunday afternoon's struggle with the legislators from Iowa's capital, under the leadership of Speaker Belden Hill, for Long Tammas Hughes was slated to pitch the game. And win it they did by the good.

The game was an excellent one and kept the big crowd of 4,000 people, which spread itself all around three sides of the diamond, occupying the comfortable seats in the grandstand and on the bicachers, keyed up to a high pitch of excitement all the way through. It started off with a snap and vigor which were maintained till the very last put-out was registered. The Champs gave the vocal propensities of the spectators ample opportunity for indulgence whenever they were at bat by picking off hits and Des Moines.... scoring runs at frequent intervals and their Sioux City..... snappy fielding seconded their performance at the bat. McVicker chased himself atl around the outfield whenever he thought it opportune to give the crawd a little exhibition of fireworks and gobbled up two long flies at opportune moments.

Hughes was the bright particular star of the occasion and he pitched his usually the game by the umpire. Attendance, 5,000 splendid brand of twisters. In the first inning two hits were made off him, in the second he gave two of the Prohibitionisfs free passage to first, but after that he braced himself and accomplished all sorts of wonders. In the ninth he took compassion on the Hawkeyes and gave them a chance to warm themselves up. In this inning three hits were made off him, two of them netting runs, but this brace, added Zeisler's score in the eighth, were all that the visitors succeeded in bagging.

How it Was Brought About.

The locals clinched their victory in the first inning, the trained Baer inaugurating the performance with a red-hot curtain raiser in the shape of a three-bagger. Toman got to first because Second Baseman Hines failed to field his grass-cutter quickly enough, and Baer crossed the plate while the game was yet in its veriest infancy. McVicker sacrificed and before Rebsamen was passed to first Toman had made a brilliant steal to third. Wilson singled, but went out at second, which Rebsamen had just vacated after stealing it deftly, on Captain O'Connell's line drive to Hines. Toman had crossed the rubber on Wilson's single and "Reb" repeated the performance through Captain Jack's assistance. Then Lauzon struck out and the Champs retired with three fat tallies to their credit. They shut out the visitors until the eighth inning was reached, but appropriated runs whenever

HURON, S. D., June & - (Special.) - The In

erior department at Washington has advised Hon. John H. King of this city of the settlement of what is known as the Griffin contest case involving the title of an eightyacre tract of land in the very center of the town of Sheldon, Ia. In 1882 Griffin offered his filing to the land to the register of the government land office at Des Moines, Ia. and was refused on the ground that Elias Drake, then president of the Sioux City & Pacific railway, held title to the land by purchase from that company. Later, however, Griffin's filing was accepted by the land office officials and an appeal to the commissioner of the general land office wa taken, resulting in the action of the local office being sustained. From this the case was carried to the secretary of the interior whose decision has just been rendered in favor of Griffin. The case has been hanging fire for seventeen years. Since the first filing on the land was offered the city of Sheldon has grown to large proportions and is now built completely around the tract. a reduction of \$31,346.90 in this class of The eighty acres is valued at not less than \$1,000 per acre.

It was thoughtful, earnest, practical and well written and appeared to make a deep impression on the appeared to make a deep impression on the appeared to make a deep impression on the addlesse. Miss Rose Rathburn gave a fine recitation and Miss Grace Thompson a mustical treat.

A. M. Church of the Stuart Ledger read a paper on "The Hand that Holds the Pencil." It was a portrayal of the trials of the young teditor who carries to his work more enthusiasm than experience and expects by his efforts to at once accomplish some great reform. He concluded with these original lines:

Here lies a man who's happy now, There's no exense for doubting; He did the best that he knew how And always led the shouting.

On earth he sowed both good and bad, But only reaped the latter; His friends now weep with faces ad, The others—they don't matter.

In heaven he wears a starry crown, He's gone where good men go; On his subseribers he looks down In regions far below.

He'd many trials to overcome, He never did win favor; This wicked world denied him fame, But he got there just the same.

Favorable to a Rise.

The money market continues in a condi-tion favorable to operations for a rise. Bank reserves are increasing, there is less prospect of the treasury injuriously absorb-ing funds and the special demands for ac-commodation which resulted from financ-ing the big trusts and consolidations has tommodation which resulted from financing the big trusts and consolidations last year will not be a factor this summer or the coming fall. The demands from commercial borrowers may show some increase later on, but the monetary outlook in general is for continued ease, especially since the close of the African war removes one of the chief incentives for gold exports. Balancing the various conditions for and against the market we are inclined to take a favorable view of the future. Some stocks may show occasional temporary weakness, but good securities will prove a purchase on all decided reactions. Two important disturbances, the Gas and Sugar wars, are out of the way and this will remove what have been serious obstacles to a better market.

The following was written and printed in my weekly letter under date of January 13 and, as it has been verified by recent events it bears repetition:

It bears repetition:

The Boer victories are about at an end. If they have not been able to take Lady, smith and kimberley, with their advantages at their zenith in the contest, it is pretty sure they will not do so hereafter, because the British are very apt to soon forge to the rear of the Boers' fortifications and more rapidly on Pretoria, thereby compelling the Boers to give up their present impregnable fortifications and march home for the protection of the capital and the archives of the government. The British certainly must have learned the stupidity of attacking the Boers behind fortifications which they have been erecting for the last several years and, as a result of their experience, wise and sagacous strategy in conducting the war is most likely to be adopted. We may therefore expect any moment to hear that the British have circumvented the Boer army and are moving into the enemy's country and preparing to give battle, the result of which is plain to be seen, so that British victories may be expected at no distant date.

KANSAS CITY, June 3.—A Journal special from Springfield, Mo., says:

At Elwood station, near here, Charles Payne, aged 24 years, clerk in a general store, was found dead in bed in the rear of the store this morning. He had been shot in the head apparently by burglars. The revolver was held so close to Payne's head that the powder burned his face.
