

PROMOTERS MEAN BUSINESS

Incorporators of Dakota, Nebraska & Southern Railroad Are Optimistic.

PLANS PROGRESSING SATISFACTORILY

Surveyors Now in the Field and Gradings Likely to Be Begun Within the Next Sixty Days.

Affairs of the newly incorporated Dakota, Nebraska & Southern railroad, which proposes to run an air line from Aberdeen, S. D., to Grand Island, Neb., are progressing in an entirely satisfactory manner to the parties interested in the new line.

"I believe," said Mr. Bowman, "that it can safely be asserted that we will begin grading operations for our new line within sixty days, and it will be pushed to completion as rapidly as possible. The proposed route is about 600 miles in length. We have surveyors in the field at this time completing our engineering work. We have practically three right-of-way available and will not be at the mercy of any hold-up disposition on the part of settlers of the territory through which our road will pass, even should any be manifested.

"Our articles of incorporation provide for a route through the counties of Hall, Morrill, Garfield, Boone, Greeley, Wheeler, Holt and Boyd in Nebraska; Gregory, Lyman, Presho, Pratt, Stanley, Hughes, Sully, Hyde, Hand, Faulk, Spink, Edmunds and Brown in South Dakota. Capital will be furnished entirely by eastern investors. We expect that the road will cost ready for operation between \$10,000,000 and \$15,000,000, but the financiers who are backing us have unlimited capital and there will be nothing lacking in that direction."

Runs Through Fertile Territory. Mr. Bowman is confident that the country through which the Dakota, Nebraska & Southern will operate will sustain a railroad ably because of its productiveness and the diversity of its interests.

The proposed route passes through a rich agricultural and live stock section of Nebraska and South Dakota and will tap any number of thriving towns and cities. The Manhattan Promotion company of this city, which has taken an important part in the promotion of this railroad venture, has representatives out in the state in the section through which the Dakota, Nebraska & Southern will pass, where they are looking after the interests of the company, interesting settlers and citizens of the towns through which the road will pass in the enterprise. Already valuable franchises have been granted, liberal offers have been made and propositions for the voting of bonds for the new road are being entertained in several of the counties.

The headquarters of the new company have been established at Atkinson, in Holt county, a midway point between the proposed termini of the road. The election of officers of the Dakota, Nebraska & Southern has not yet been completed and the Atkinson offices are in charge of the Manhattan Promotion company. Officers representing this company who have come from Omaha to Atkinson are: General Manager J. A. Johnson, Secretary John T. Dalley, General Counsel J. M. Kerr and Right-of-Way Agent Brownlee.

DRUGGISTS ON THE WARPATH

Planning to Make it Uncomfortable for Dealers Who Sell at Cut Prices. According to reports which come from the meeting of the Nebraska association of retail druggists Omaha is to undergo another attempt of the druggists to re-establish and maintain prices upon their wares and proprietary articles which prevailed before the cut-rate druggists interfered.

At that meeting the secretary of a certain society organized to maintain rates was present and sub rosa announced to the assembled delegates that arrangements were almost complete to shut off the supply from those druggists who sell goods for less than the price stamped upon the original packages.

"It is better to walk two blocks than to write a line," said the representative, "and there is no written agreement between the wholesalers, but each for himself will refuse to sell to the price wrecking houses. Following the same plan there will be no tangible organization between the local retailers, but each will maintain the rates established under penalty of having to close his doors for lack of supplies.

It was stated by local druggists that the fight will begin in Omaha within sixty days and will be kept up until the cut-rate houses go out of business or join in the combination to keep up the prices.

Reports show that over fifteen hundred lives have been saved through the use of One Minute Cough Cure. Most of these were cases of grippe, croup, asthma, whooping cough, bronchitis and pneumonia. Its early use prevents consumption.

READY TO BEGIN ON ANNEX

Work on Addition to Federal Building Will Be Commenced June 20.

Word has been received by the custodian of the federal building that the bond of Gadele & Co. had been approved and that work will begin on the annex of the federal building on June 20. C. W. Murdock has been appointed superintendent of construction by the treasury department.

The annex will be in the form of additions to the north and south wings of the present building and the extension of the one-story central portion to Seventeenth street. The local officials say they are disappointed in the decision of the department to build the annex upon the proposed lines because, with the exception of the postoffice, no department will receive the added room which it feels necessary for the transaction of its business. According to reports there will be considerable change in the present building and rooms and corridors will be altered so that one will hardly recognize the first floor interior. The rooms on the north side of the building west of the entrance will be torn out and the walls of the post-office extended north, throwing the rooms now occupied by the superintendent of the mails and the secretary of the civil service board into the corridor.

Paxton & Vierling have been awarded the contract for placing the lantern for the stamp room of the postoffice in position.

Comes from Dr. D. B. Carle of Washita, I. T. He writes: "Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but now her health is excellent." Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50c. Sold by Kuhn & Co., druggists. Guaranteed.

We Often Wonder

why a certain class of pill makers "fly off the handle" when our name is mentioned. We don't understand it, for we know we are such a nice, good, kind man—and don't think we could be anything else, if we tried. We have always had an idea that we were one of those "goodly, goodly fellows." But that's not here, is it?—they do "fly off" and we don't understand why unless it is on account of us telling them when they went into the drug business. Why, if an advertisement appeared in the papers "Wanted, a man to carry water out of the Missouri river, they would apply for the job. But these black numbers will have to contend with the name of Schaefer—and if they get pairs in the back of that third feeling, we advise them to take a wonderful medicine, CRAMER'S KIDNEY CURE.

Speaking of Thieves

The BEE says some are "BARY thieves," meaning, of course, the caliber of the thief. Names are sometimes appropriated by others who have no moral right to them. For over 12 years we have been making a popular summer drink, to which we gave the name COCA-CELERY. It is the best soda fountain drink for headache, nervousness, exhaustion and fatigue. On hot days there is none better. Some of our competitors have seen fit to appropriate the name. The only COCA-CELERY is sold exclusively by

There are just as good shoes sold in Omaha as Nebraska shoes, but they cost you more money. Same quality, same style and same fit shoes as Nebraska shoes, cost you a third more elsewhere.
