Encounters Extreme Difficulties. WASHINGTON, June 14 .- A dispatch has been received at the British embassay here from Admiral Seymour, in command of the International troops now on their way to Pekin. The dispatch disclosed the extrema difficulties encountered, mainly in the form of tracks destroyed, and stated that the progress was only three miles for the preceding twenty-four hours. The commanding admiral felt that it would be desirable to have additional force in order to mee every contingency, although the general feeling was expressed that the trouble would be less difficult to deal with than had been expected. It is calculated that with the three miles covered in the twentyfour hours preceding the admiral's dispatch. which is dated yesterday, the international force was twenty-five miles from Pekin. There is every indication, however, that the twenty-five-mile stretch will be the most difficult of the route.

BRUSSELS, June 14 .- Confirmation has been received of the report of the massacre of two Italian and one Swiss engineers employed on the Belgian railroad in North China. The sister of the Swiss engineer was also killed and two other persons are missing. The rest of the French and Belgian engineers reached Pekin and Tien Tsin in safety. The Franco-Belgian company has 300 armed men guarding its main track, which is still open for 100 miles.
