Northwest Crop Situation Cantes an Advance in Wheat.

CORN RULES STRONG THROUGHOUT SESSION

Oats, Helped by Advance of Wheat, Are Active and Strong-Provisions Speculators Caim in Midst of Surrounding Excitement.

CHICAGO, June 20.-Under an enormous buying pressure caused by the northwest crop situation wheat today advanced 3% over yesterday and held it to the close. The other markets were helped by the wheat strength, corn closing 1%c, oats ic and provisions 597%c higher.

Drouth has rulned half the wheat crep of the fruitful northwest and now excessive heat, according to today's dispatches, is burning up the remainder. A message from that unfortunate part of the country said the temperature was 100 in places. If any additional stimulus were needed to cause a continuance of recent heavy buying of wheat it was found in the news mentioned. The market started the session with a good advance over yestermy and kept on advancing to the close. Throughout the day northwest crop reports were gloomy to an extreme degree. Many authorities said that where a few days ago half a crop was a possibility with rain the loss now will be nearly 30 per cent. July opened 14,40% cover yesterday at 187,427,94c and after a dipt to 78% c near the opening advanced slowly but surely to 81% a at which it closed, a price 3% c over yesterday. The northwest was a heavy buyer, but at that it could not be said to have led the trade. The demand came from everywhere; 100,000-bu, lots offered for profit by fortunate possessors were gobbled up like a peck of potatoes and the statisticians on the board nearly lost their wits trying to keep track of a market which had gotten far out of ordinary bounds. Outside markets advanced, those in the northwest shooting up even faster than Chicago, thus furnishing to the local people additional impulse. The cash business was curtailed by the sky-rocketing of futures. The dips during the day were inconsequential generally. During the forenoon, July having jumped to 79% c, sold off to 78% c under liquidation by longs, but fol-The market started the session with a good consequential generally. During the forenoon, July having jumped to 79%c, sold off
to 78%c under liquidation by iongs, but following that the dips were too small to be
noticeable in such a large market. The
total of today's trading was estimated at
20,000,000 but Clearances at the seaboard
were equal in wheat and flour to 224,900 bu.
Primary receipts were 598,000 bu, compared
with 10,000,000 bu, last year. Minneapolis
and Duluth reported 351 cars, against 484
last week and 712 a year ago. Receipts here
were 191 cars, none of contract grade.
Good general buying of corn resulted from
the wheat strength and that market ruled
strong throughout the session. Receipts
were liberal, 478 cars, and shippers reported good acceptances of last night's bids.
The crop situation was favorable, but the The crop situation was favorable, but the buoyancy of wheat was too much to be ignored. July sold between 38% 340c and 41% c

nored. July sold between 38% a4% and 41% c, closing at the top, 1% c over yesterday.
Oats was active and strong, helped by the advance in wheat. There was still considerable changing. The northwest bought some and talked of crop losses in the Dakotas and Nebraska. Receipts here were 209 cars. July sold between 23% c and 24% c, closing ic over yesterday at 24%.

Provisions speculators were calm in the midst of the surrounding excitement, but were in accord with the general improvement sufficiently to advance the market a bid. July pork sold between 31.5 and 31.5% and closed 7½ higher at 31.56; July lard, between 36.60 and 36.67%, closing be improved at 36.67%, and July ribs, between 35.55 and 36.72%, with the close 5c better at 35.73%. Estimated receipts tomorrow: Wheat, 25 cars; corn, 585 cars; oats, 360 cars; hogs, 35,000 head.

MOVEMENTS OF STOCKS AND BONDS, Market Makes Some Headway att
Opening, but Closes Weak.

NEW YORK, June 20.—The stock market
made some headway during the early part
of the session against depression and an
average level of prices materially above
last night was established. Room truders
were inclined to take the long side for a
turn, under the impression that the market
had been oversold and a rally was due.
But before the end of the session large
offerings of stocks were thrown on the
market, embracing all the principal groups
of securities dealt in. Earlier gains were
more than whied out the decline from the
best in the active railroad stocks running
from 1 to 1½ points. The net losses were
mostly fractional, but some of the specialties show wide declines, and the same is
true of some of the dormant stocks which
have not been dealt in during the late
period of weakness. The chief ground of
the early strength in the market was the
higher range of prices from abroad and the
disposition of London to buy stocks here,

higher range of prices from abroad and the disposition of London to buy stocks here, It was evident that a more cheerful view was taken in foreign quarters of the Chinese situation, and British consols hardened a shade, in spite of the stiffening of the London money market. The chief influence in turning the tide of sentiment towards the bear side was the acute weakness developed in Sugar and Brooklyn Rapid Transit, and in other specialties in sympathy. The bears attacked the Brooklyn stock with great confidence and encountered little opposition in offering the price down on account of yesterday's judicial opinion against the legality of lo-cent fares. After selling at \$115 in the morning, the stock was forced down to \$605 in the late dealings. The drop in Sugar extended to over 4 points and was without special explanation. All of the gas stocks were acutely depressed, the declines extending from 15 in People's Gas to 55 in Brooklyn Union Gas. Other notable declines were Cotton Oil preferred. 5: Chicago Great Western preferred, \$4 on disappointment over the failure to declare a dividend; the Tobacco stocks, General Electric and New York Air Brake, from 114 to 4.

These violent declines had a sympathetic effect on the whole list. Weakness in the railroads was aggravated by the renewal of crop damage reports, and not only the grain carrying roads, but the cotton roads also, were affected by this cause. Some of the selling was said to be of stocks held by bankers for collateral, which had been held for some time past to give opportunity to the customers of the firms concerned to take up the stocks. The money market hardened appreciably and the possibility of gold for shipment to France was about what was expected, and sterling exchange eased off under the offerings of bills against the shipment. Discount rates hardened, both in London and Berlin, and sterling fell a fraction in Paris, so that it is considered probable that the demand for gold is not yet satisfied and gold is expected to go out on Saturday.
