Settled Cuban Question.

Settled Cuban Question.

We promised to deal with the Cuban question. Again comes the reply, we have done so. The long agony of the island is over. Cuba is free. But this great work brought with it events and issues which no man had foreseen, for which no party creed had provided a policy. The crisis came, bringing war in its train. The republican president and the republican congress met the trial in the old spirit. We fought the war with Spain. The result is history known of all men.

War, however, is ever like the sword of Alexander. It cuts the knots: It is a great solvent and brings many events not to be foreseen. The world forces unchained in war perform in hours the work of years of quiet. The answer to this great question had to be given by the president of the United States. We were victorious in Cuba, in Porto Rico, in the Philippines. Should we give those islands back to Spain? Never, was the president's reply. Would any American wish that he had answered otherwise? Should we hand them over to some other power? Never, was again the answer. Would our pride and self-respect as a nation have submitted to any other reply? Should we turn the Islands, where we had destroyed all existing society, loose upon the world to be a prey to domestic anarchy and the helpiess spoil of some other nation? Again, the inevitable negative. Again the president answered as the nation he represented would have him answer. He beldly

took the islands took them knowing well
the true responsibility, took them with a
deep sense of duty to ourselves and others, guided by a just foresight as to our
future in the east, and with an entire faith
in the ability of the American people to
grapple with the new task. When future
conventions point to the deeds by which
the republican party has made history they
will proclaim with especial pride that
under a republican administration the war
of 1808 was fought and that the peace with
Spain was the work of William McKinley.

What of the Future?

Spain was the work of William Mckinley.

What of the Future?

So much for the past. We are proud of it, but we do not expect to live upon it. for the republican party is pre-eminently the party of action and its direction is ever forward.

The new problems brought by the war we face with confidence in ourselves, and a still deeper confidence in ourselves, and a still deeper confidence in the American people who will deal justly and rightly with the islands which have come into their charge. The outery against our new possessions is as empty as the cant about militarism and "imperfailsm" is devoid of sense and meaning. Regard for a moment those who are loudest in shricking that the American people are about to enter upon a career of oppression, and that the republic is in danger. Have they been in the past the guards of freedom? Is safety for liberty now to be found most surely in the party which was the defender of domestic slavery? Is true freedom to be secured by the ascendancy of the party which beneath our very eyes seeks to establish through infamous laws the despote rule of a small and unscrupulous band of usurpers in Kentucky who trampled there not upon the rights of the black men only, but of the whites, and which seeks to extend the same ayerem to North Carolina and Missour? Has it suddenly come to pass that the demoratic party which today aims whenever it acquires power to continue in office by crushing out honest elections and popular rule, has it indeed come to pass. I say that that party is the chosen protector of liberty? If it were so the outlook would be black indeed. No. The party of Lincoln may best be trusted now as in the past to be true even as he was true to the rights of man and to human freedom, whether within the berders of the United States or in the Islands which have come beneath our flag. The liberators may be trusted to watch over the liberated, We who freed Cuba will keep the pledge we
