BULL3 FEATURE BAD CROPS IN NORTHWAST

Corn is Active and Suffers with Wheat -bats Alone of the Markets on Board Holds Against the Downward Pressure.

CHICAGO, June 25.-Wheat broke nearly today under heavy liquidation, but closed steady at a decline of 2c from Satorday's close. Corn closed 1914c down, cats 'ic higher and provisions from 1740 e reduced in ribs to 32% lower for pork. It was a wild day in wheat-a battle bebulla_and bears, in which the lator, for the first time in weeks, scored a victory. July opened at 874c to 864c, sold between 881/983%c, closing 2c under Satur-There was some dispute as to int really were the opening figures, so iny trades took place at the sound of the Some made the initial range from Certain it is, that all sorts of ices were paid in a jumble and that two nors after the opening July changed at 8855c. In the field of news the retained their old friend, the north-rop wreck. Manitoba had rain, but -sota and the Dakotas reported dry, ing weather—the kind that burns up or ing weather—the kind that burns up set atton in short order. One Dakota retrete had the temerity to mention the aparame of fly. What harm fly would find to do was not mentioned. On the bear it of the bulletin board was the Liveroil weakness in the face of the 4%c adness here Saturday, the excellent conditions provailing in the southwest and the avy world's shipments, which included 50,000 bu, from Russia. The visible was a so on the bear side of the fence, showing increase of 1,348,000 bu. The items given undoubtedly had ome influence in the selling. Longs were offit takers Saturday and they were ready; more today. The news had the effect prodding them along and, to a degree, lessening the demand from certain secons, although the northwest was still dited with boying good prices here to see up the home shortage. For a time llowing the opening the market held adily over Ste. The hammering by hold-ashortly before noon, however, began to the July shaged to Sie and then, all in a minutes, broke down to \$354,c. At Sie a-loss orders in large numbers were sched for the first time since the recent tyance began and there was such a rush sell that between Sie and the bottom import, credited by many to Wall street terests, caught the breaking cereal at lee and hauled it back to Sie, at which market closed. METALS-The principal feature in the market for metals today was the advancing of lead by the American Smelting and Refining company, the quotation at the close of business today being \$4.564.35 and unsattled. Tin was rather unsettled all day, closing at \$30.50@31.50. Lake copper ruled dull and unchanged at \$16.50. Pig iron warrants ruled weak and nominally on the basis of \$14.25 for spot. No. 1 northern was quoted at \$18; No. 2 northern, \$17. Spelter was a little steadler, but not quotably higher, closing at \$4.15694.30. The brokers price for lead was \$4 and for copper \$16.25. Considerable Speculative Activity and Fluctuations Were Frequent. NEW YORK, June 25.—There was considerable speculative activity in the stock market today and the fluctuations in prices were quite wide and frequent. The net changes are mostly small, so that the result of the day's trading is not conclusive as to the turn in prices. The market was exceedingly irregular all day and at times very much confused. The opening depression in sympathy with London, where the Chinese outbreak had an unfavorable effect, was generally overcome. Prices then broke with some violence, the bear attack being directed especially against B. & O. Continued pressure was in evidence also against Brooklyn Transit. B. & O, is one of those stocks which have been most advanced in price on predictions of a dividend disbursement and whispers were current today that the declaration of the dividend would be at least deferred. The stock suffered to the extent of 4 points at the lowest level. Brooklyn Transit sold to 49, which was 24, below Saturday's level. In sympathy with this acute weakness the whole market sold off and apparently the liquidation of last week was renewed in force. sult of the day's trading is not conclusive Condition of Trade and Quotations on LIVE POULTRY-Hens, 61/207c; roosters, according to age and size, 3874c; broilers, 149/15c; ducks, 495c; geese, 495c; turkeys, 8c. whole market sold off and appurently the liquidation of last week was renewed in force.

But the market gave evidence later of being oversold and the bears begin to absorb stocks to cover their short contracts. The result was a general recovery of the earlier losses. But there was nothing like demoralization amongst the bears, the covering movement being conducted in a well ordered manner. The bulls attempted to extend the advance, but prices had not risen more than a fraction above last night's level excent in Brooklyn Transit, when the demand from shorts diminished to simost nothing. The dribble of liquidation was sufficient to drive prices downward again and they were only partly arrested at about last night's level, where the movement became very irregular at the closing. The principal influence in causing the doubtful mood amongst the professional bears was the sharp break in wheat. The fact that the break was lararely due to technical causes and to a pressure to realize on the part of an overextended long interest did not seem to lessen its effect, in spite of the continued reports of the damage wrought to crops in the northwest. The stock market was apparently as much oversold as the wheat market was overbought and professional realizing caused the reaction in both cases.

The apprehension caused by the Saturday bank statement was also soothed to some extent. The conviction gained ground that the sharp decline in eash reserves was due to preparation for the withdrawal of government deposits, and, possibly, to the placing of bids for the New York City stocks, which was awarded today to the amount of over \$2,000,000. The apparent clearing of the money situation abroad was a source of relief to speculative depression. The opinion expressed by a director of the Reichs bank in an Associated Press dispatch from Berlin was a potent influence in relieving uneasiness regarding the situation in Eerlin. The orinion expressed by this director that a reduction in the German bank rate could be made were not the semi-a PEAS-Per 1-bu. basket, 50c.

Cotton Market.

NEW YORK, June 25.—The sensational bull movement begun some ten months ago culminated on the New York Cotton exchange this morning when prices fell some 30 points under a terrific drive of bulls to unload a grist of long cotton purchased on the advance. It has been many months since the shorts here, in the south and abroad have been so effectually rounded up, but inasmuch as the primary cause for coverin. Was bona fide influences and not manipulation, the uplift was scored with comparative case. For several weeks bad crop reports have been pouring in from nearly all parts of the belt and the European bear faction has been restless. The public manifested an inclination to buy and leading operators here finally made a bold stand on the bull side. Day after day prices climbed with a dizzy rush. This morning exceptionally strong English cables and particularly bad reports sent prices on first sales 29 to 25 points unward and forced the few remaining bears to seek safer grounds. The rise proved too fast for one house—Dennis Perkins & Co.—and at midday its suspension was reported from the restrum. The announcement at once created distrust in the bull ranks, it being feared that the concerns might be involved, and in a frantic effort to unload prices were pounded down 10 points before the final gong sounded. Whereas throughout the west, southwest and Europe had bought on the opening rise, representatives of these represents were heavy sellers. Once more jubliant bears hammered the entire list and called attention to better weather prospects and good crop reports from Texas. A tumble of te in wheat also operated as a stimulant on the selling movement. Conservative estimates of the day's transactions placed the amount at considerably over 1,000,000 bales, the trades made in many instances reaching many thousands of bales in a single operation. The feeling after the close of change was weak, th

The decline on cows and heifers was just about the same as on beef steers. In other words, the market was generally 10c lower unless it might be on something very 2004. Buils are also a little lower than last week. Hardly enough stockers or feeders were on sale to really establish quotations. The few here changed hands at prices that did not look much different from the close of last week, but it is safe to say that the general market is 25c lower than it was a week or ten days ago. HOGS-For a Monday the receipts of hogs were quite large at all the selling points and a slight decline took place all along the line. The market here was 2½65 5c lower. Buyers started out offering as a rule \$5.07½65.10, but sellers seemed to have a pretty good notion of values and were not inclined to yield a point without a struggle. The result was that the market was slow, sellers holding back and only letting their hogs go when they could get \$5.10 for good mixed loads, such as brought \$5.10 for good mixed loads, such as brought \$5.12 on Saturday. It turned out to be simply a \$5.10 market, the average of all the sales being a shade lower than the close of last week. The extreme close was very slow and fully 5c lower.

In spite of the weakness in the market prices were the highest for a Monday this month. One week ago the average price was \$5.05, two weeks ago \$5.00 and three weeks ago \$4.55. Representative sales:
