COMMERCIAL AND FINANCIAL

Ruth of Liquidation and Short Selling Causes Slump in Wheat.

SESSION IN CORN QUIET, BUT RATHER FIRM

Data Compared with Wheat Weakness Are Steady, but Yield Later-Provistone Are Went Desnite Light Hog Receipts.

CHICAGO, June 28 .- A rush of liquidation, together with considerable short selling, ugh there was some recovery toward the I the close was weak the under vesterof the wheat weakness closed 1,0%c lower. Oats closed %20% down and pro-

ions 1214/9/2214c depressed. There are nearly four hours to the regusessions of the Board of Trade and those urs today were occupied principally in ting rid of recently acquired wheat. The arket opened lower because Liverpool s down and the long pressure was on the right. Under a demand from Wall street and the northwest and some covering by and the northwest and some covering by shorts the market regained the initial dip, but this and a lot more was lost later. Local longs of the influential type started in to make the weakened demand look like a nine-spot and simply choked up the opening through which much high-priced stuff is recently disappeared. Outside longs on the decime joined the ranks of sellers and the market became so one sided that it dropped the, with only momentary checks. The bottom was reached near the end of the session and covering by shorts caused a little recovery, but not a sufficient amount to relieve the market of the charge of decided weakness. The August option was the more active, although July was anything but slow. August opened at 83% if 140, advanced to 81% assigned to 80% and cosed 3% down at 81% July opened at 60 to 82%, sold between 83% and 75% asign and control of the charge of the stricken northwest did not vary much from the recent tone. The 17 ice Current, which is of influence with 1 me speculators, made the total estimated crop, winter and spring, 56,000,000 bu. It ceclared that with the recent tone. The 17 ice Current, which is of influence with 1 me speculators, made the total estimated crop, winter and spring, 56,000,000 bu. 18 ceclared that with the recent cone in the crop yield would be a per cent higher than the average for the last five years. However, crop considerations generally were overshadowed by the selling which appeared to be the result of a general desire to get out before the price got any lower. New York reported 18 loads for export and the cash demand here was slack. Clearances at the seaboard in wheat and flour were equal to 233,000 bu. Primary receipts aggregated 440,000 bu., compared with 32,000 bu. last year. Minneapolis and Duiluth reported 338 cars, against 114 last week and 511 a year ago. Receipts here were 116 cars, 3 of contract grade.

Corn was rather quiet, but considering the wheat weakness it was firm. The exphorts the market regained the initial dip.

year ago. Recei of contract grade.
Corn was rather gulet, but considering the wheat weakness it was firm. The excellent cash business done during the last few days was continued today, about 500,600 bu, being worked from here. This farmed the main support of the market. There were good rains in the corn belt and country offerengs were moderate. July sold between 430c and 15c and country.

country offerengs were moderate. July sold between 43kc and 42c and closed 4kc down at 42kc.; August sold between 47ku44c and 42kc. closing 4ku3kc depressed at 41kc. Receipts here were 823 cars. The opening was 4ku3kc under yesterday in sympathy with wheat and the top price followed early with that cereal.

Oats, compared with the wheat weakness, was steady early, but the market yielded later out of receipts.

Oats, compared with the wheat weakness, was steady early, but the market yielded later out of respect to the downward path followed by wheat. The northwest was respected to show prospects of about half a crop in both eats and hay and this was a resisting influence against wheat. The country was a buyer. July sold between 25%c and 24%c, closing %c down at 24%c. August sold between 26c and 24%c and closed %6%c down at 20025%c. Receipts were 214 cars. were 314 cars.

Provisions were weak, despite light hog receipts. A drive was made at pork by longs and the whole list as usual suffered. The wheat weakness was a factor in the decline. There was a fair cash demand, but it was not equal to the task of sustaining prices against the influential selling today. At the bottom the market steadled on covering by shorts. Sentengheren, At the bottom the market steadied on covering by shorts. September pork sold between \$12.50, and \$12.67% and closed 22% down at \$12.80. September lard, between \$7.20 and \$7 and closed 7% down at \$7.65, and September ribs, between \$7.25 and \$7.12%, with the close 12% depressed at \$7.1507.11%. Estimated receipts tomorrow: Wheat, 140 cars; corn, 745 cars; oats, 270 cars; hogs, 20, 500 head.

MOVEMENTS OF STOCKS AND BONDS. Break in Wheat is Dominant Influence

of the trading today of having fallen back into the condition of lethergy and sagging prices which marked the trading last week showed limit to the condition of lethergy and sagging Fitchburg pfd..... into the condition of lethargy and sagging prices which marked the trading last week. But the large outstanding short account showed itself very sensative to developments in the wheat market. With the continued fall in the price of that cereal and reports of the enormous quantities of wheat thrown upon the market to liquidate, the courage of the bears nozed out at the tips of their singers and they scram bled to cover their short contracts in the late dealings with considerable precipitancy. The result was a strong closing at the top level, with the rally still in force and at a level of prices from I to 2 points over last night for many active stocks. The bears were in full retreat all through the list, oven Baltimore & Onio turning from its persistent downward course with a rally of 3 points from the early decline. Sugar, Brooklyn Transit, People's Gas and American Tobacco all made notable upward movements, the latter apparently on a belated appreciation of yesterday's dividend declaration.

While the break in the wheat market was

Brookin Transit, People's (las and American Charles) and made metable upward in the control of pater apparently on a belief appreciation of yesterday's dividend.

While the break in the wheat market was unquestionably the dominant influence are advanced on the rise in price of antiractics. The southwestern stocks moved upprospects of the Ton the more favorable prospects of the Ton the more favorable in the spring what trop had much to do with the days what crop had much to do with the days what crop had much to do with the days stocks. It was made each and full to the days what to the days what crop had much to do with the days stocks have not only kept pace with the damage to wheat, but have been distingted the ton the steel group gave a protry clear influenced distribution. The liven and steel stocks showed decided strength and a marked diaregard for the found of the ton the favorable process of the corner of the steel group gave a protry clear influenced that increased demand is prices in the steel group gave a protry clear influenced that there were forced sales by a proper with the decime in prices. Opinions are heard the decime in prices, Opinions and the consumer's needs begin to be felt and excluse a violent rebound when a circles are placed and when the turn of the consumer's needs begin to be felt and excluse and probable difficient of the prices of the corner of the stock of the corner of the stock of the corner of the stock of the corner of the
